Loft Irregular Sandstone's caramel tonal palette lends itself to pairings with everything from timbers to stark white surfaces.

The natural stone's soft texture offers a welcoming sense of naturalism to indoor and outdoor spaces alike. This sandstone has been split and tumbled, with every piece offering its own nuances and textural footprint.

Loft will bring a retro aesthetic to interior and exterior walls alike, and it can be installed with or without visible grouting.

#### Stone Colour

Creams & Caramel

#### Tile Edges

Split

20 - 40 mm (Sold in 1 Lineal Metre Lots)

Note 1 Lineal Metre equates to 0.3 m<sup>2</sup> of Coverage

#### Ordering Details

Leadtime for product is 18 weeks unless instock

#### Sealing & Cleaning

Tumbled recommends Sealing all Natural Stone Tiles

For more information on caring for your natural stone please refer to our website [www.tumbled.com.au](http://www.tumbled.com.au)

**Please note** If you are installing your stone without a grout joint we recommend an extra 15-20% for wastage. This then allows the stonemason to cut and shape the stone to ensure the joints are butt-jointed. We also recommend the installer unpacks each crate of stone and use the mix of the sizes supplied. Tumbled will not exchange smaller pieces for larger pieces, it is the installers responsibility to use all the sizes supplied.
