Reminiscent of an arctic icefield, Everest Irregular Quartzite walling features a sophisticated palette of whites and cool greys that can be heightened with touches of blue across your soft furnishings and finishes. Quartzite's glassy lustre and unique veining adds a sense of purity to decor, and can be seamlessly installed where a plain white wall once was. This dense, robust natural stone has long been admired for its strength and durability. It's the ideal stone solution for anyone in search of something truly unique.

Stone Colour

White, Light Grey and subtle gold tones

Tile Edges

Split

Irregular Walling

20 - 40 mm (Sold in 1 m² Lots)

Irregular Corners

20 - 40 mm (Sold in 1 Lineal Metre Lots)

Note 1 Lineal Metre equates to 0.3 m² of Coverage

Ordering Details Leadtime for product is 18 weeks unless instock

Sealing & Cleaning

Tumbled recommends Sealing all Natural Stone Tiles

For more information on caring for your natural stone please refer to our website www.tumbled.com.au

Please note If you are installing your stone without a grout joint we recommend an extra 15-20% for wastage. This then allows the stonemason to cut and shape the stone to ensure the joints are butt-jointed. We also recommend the installer unpacks each crate of stone and use the mix of the sizes supplied. Tumbled will not exchange smaller pieces for larger pieces, it is the installers responsibility to use all the sizes supplied.
