It's the softness of Aspen tumbled Sandstone that makes a space instantly warm and welcoming. The light colour palette features variations from pale grey to soft rose, with a decadent array of creamy hues in between. This elegant natural stone is delivered split and cut into random ashlar pieces, with a tumbled finish. This winning combination means every piece offers its own unique textural footprint. Your installer can use Aspen Random Ashlar Sandstone to craft a stonework pattern with or without a grout joint across both indoor and outdoor walls.

**Stone Colour**

Cream Neutrals

**Tile Edges**

Split & Tumbled

**Ordering Details**

Leadtime for product is 14 - 16 weeks unless instock

**Sealing & Cleaning**

Tumbled recommends Sealing all Natural Stone Tiles

For more information on caring for your natural stone please refer to our website [www.tumbled.com.au](http://www.tumbled.com.au)

**Please note**

If you are installing your stone without a grout joint we recommend an extra 15-20% for wastage. This then allows the stonemason to cut and shape the stone to ensure the joints are butt-jointed. We also recommend the installer unpacks each crate of stone and use the mix of the sizes supplied. Tumbled will not exchange smaller pieces for larger pieces, it is the installers responsibility to use all the sizes supplied.
