

NATURAL STONE FLOORING & WALLING

tumbled

# TERRACOTTA

The Italian term Terracotta means “Baked Earth” and it is its unique hues and earthy shades, created by Iron Oxides, that give this traditional tile its character.

In our range Terracotta, we look for a multi-colour palette and SmoothGrip finish that transform this look into an affordable modern favourite, with applications possible both internally and externally, in your project.

\* Tiles may vary in sizing, weight, colour, pattern, veining, texture, durability, density, surface and finish from batch to batch. Slip ratings serve as an indication and may vary for each batch of tiles. It is recommended that a new test be performed for each batch of tiles if a slip rating certificate is required. The product images shown are for illustration purposes only and are not an exact representation of the product.
