Our Como Travertine material, with its warm cream hue, is a natural inspiration that harmonizes beautifully with modern architecture. Our range includes various formats and textures to suit any project, from large format floor and wall tiles to crazy paving tiles and batons. The clean sawn finish of our Como Travertine flooring range is a standout feature, embracing irregularity and imperfection while honoring the raw material's beautiful simplicity. Como Travertine is suitable for both indoor and outdoor design projects.
