Gubi Collection has a sober style and can create minimalist environments. Inspired by the typical microcement polishing and smooth to touch, this collection combines a simple and elegant design with high functionality. The unevenness of natural stone, of the salts, and the watery effects turn into decorative resources, while the very nature of ceramics prevents problems derived from water absorption and efflorescences. Its color choice is a perfect combination of timelessness and on trend colors, which widens the combination capabilities of Contemporary Mixtures Surfaces.

Colour

Ice / Light / Greige / Cloud

Tile Edges

Rectified
