FLOORING & WALLING

Birch Limestone

A Moroccan limestone that brings softness to a space through its warm tonal palette and gentle cloud patterning. An antiqued, tumbled finish lightens its cream and beige hues, while a P4 slip rating and soft feel underfoot make Birch a single flooring solution suited to an entire project.

SEALING & CARE

Tumbled recommends sealing all natural stone. For flooring and paving, seal with Stone Sealer Gold (AP177) or Solv Sealer Gold (AP176), Actichem; for coping, preseal all six sides with Defender CSD Pure (AP675) first. When used as walling, seal with Actichem Defender SV. For ongoing care guidance, visit tumbled.com.au.
