WALLING

Flinders Travertine

A warm beige travertine wall, split and tumbled, has a unique texture that adds visual interest and character to any space. The split surface showcases the stone's natural grains, veins and variations for a rustic, earthy look, while the tumbled edges soften the wall with a gentle, undulating contour of subtle shadows and highlights. Rich and inviting, Flinders brings a welcoming warmth to any room or outdoor space.

WALLING & CORNERS

	RRP INC. GST
Walling · Irregular · 20–40mm	$174.70 / m^2
Corners · Irregular · 20–40mm	$128.12 / lm

PLEASE NOTE — INSTALLATION

When installing without a grout joint, allow an extra 15–20% for wastage so the stonemason can cut and butt joint pieces. The installer should unpack each crate and use the full mix of sizes supplied; Tumbled will not exchange smaller pieces for larger.

RECOMMENDED GROUT — WALLING

Walling mix: 5 parts All Stone White Sand · 2 parts White Lime · 1 part Aalborg White Cement · Master Additive. Prebagged grout colours are also available, selected by your designer or stonemason.

Guide only — confirm against a physical sample. Tumbled does not supply grouts.

SEALING & CARE

Tumbled recommends sealing all natural stone. For more information on caring for your natural stone, visit tumbled.com.au.
