WALLING

Byron

Byron Irregular Sandstone's strong textural presence makes it the ideal walling feature for residential, landscape and commercial designs. Exuding undeniable charm, the eclectic Australian sandstone pieces combine to form a stonework pattern spiked with dramatic colours and textures. The natural split edges add a sense of the wilderness to any indoor or outdoor space, in a palette of burnt toffees, light creams and soft greys. We offer sawn back and one piece corners for efficient installation without any compromise on Byron's appearance.

WALLING & CORNERS

	RRP INC. GST
Walling · Irregular · 20–50mm	$207.06 / m^2
Corners · Irregular · 20–50mm	$207.06 / lm

PLEASE NOTE — INSTALLATION

When installing without a grout joint, allow an extra 15–20% for wastage so the stonemason can cut and butt joint pieces. The installer should unpack each crate and use the full mix of sizes supplied; Tumbled will not exchange smaller pieces for larger.

RECOMMENDED GROUT — WALLING

Walling mix: 5 parts All Stone White Sand · 2 parts White Lime · 1 part Aalborg White Cement · Master Additive. Prebagged grout colours are also available, selected by your designer or stonemason.

Guide only — confirm against a physical sample. Tumbled does not supply grouts.

SEALING & CARE

Tumbled recommends sealing all natural stone. For more information on caring for your natural stone, visit tumbled.com.au.
