Be on Time

Our sessions are short. Try to be on time and be prepared with a charged device.

Mute Yourself

Make sure you are on mute to eliminate background noise. Be in a quiet pace, free from distractions.

Presentation

Be mindful of your surroundings and attire.

Headphones

If you have headphones, use them.

Chat Responsibly

Keep in mind what you say (both speaking and in writing).

- Technology offers amazing resources for our students!

- A variety of technological tools allows for differentiation of instruction for the needs of our students.

- Students were demonstrating difficulty accessing the platforms consistently, and then manipulating basic zoom features to interact most effectively with the content.

- To enable a productive training session, Technology Training Team partnered with the Department of Special Education
  - Gathered data from across the county to obtain input on areas of difficulty
  - Broke down into 3 main topics
  - Reinforced the need for dissemination of Parent Resource Website

Topic 1

➢ *Zoom Tips for Success*
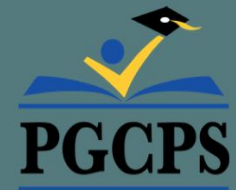

Topic 2

➢ *Splitting Your Screen*

Topic 3

➢ *Clearing Your Cache*

- Each Topic has the opportunity for Q & A

- Topics have video models, and visual examples
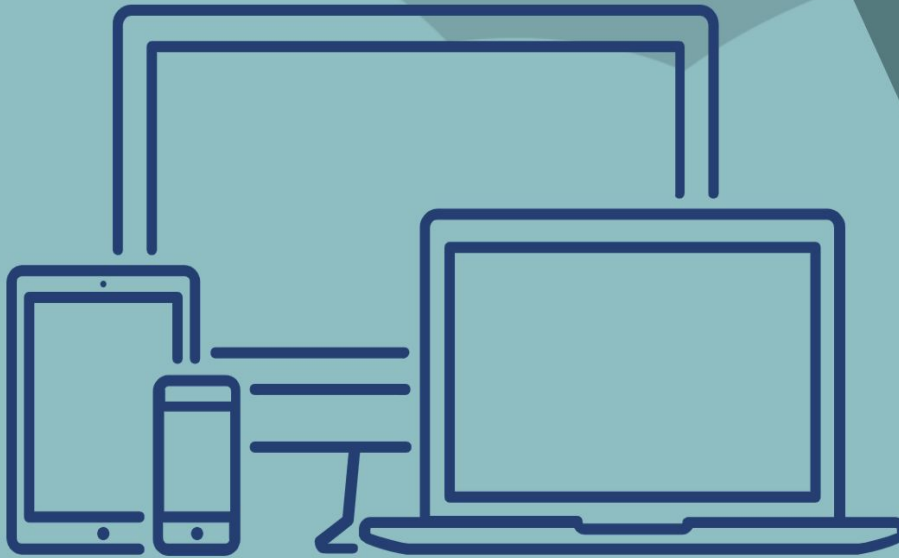

- Opportunities for students to try out skills

Student Tech Tips

Join us for some tips and tricks to support your remote learning.
