techNIEks – 2022

We at NIE add an element of celebration every year through our annual three-day national level techno-cultural fest – **techNIEks**. We aim to provide a platform for students to unearth their true potential by participating and exploring their co-curricular, social and cultural skills and in-turn create a better world through their contributions.

The speciality of this fest is that it is planned and executed by NIE Student Council and the various sub-committees attached to it, with respective cores and conveners. This gives them a vast exploration to their talent and huge opening to execute their leadership qualities.

Every year, we aim to spread cultural bonanza through unique themes and try to promote and spread goodness, joy and awareness through this celebration. From Urja in 2018 to Aurora in 2020, we now have **techNIEks 2022** waving at all with a new, exciting version of itself again.

Covid – 19 had brought everything to standstill, bringing disinterest and lethargy in every being. Now it is time to wake up, ignite our all inner flames of Prana, Dhyana and Gnana, to fly high utilizing our full potential. Hence, the chose the theme of techNIEks 2022 as –

trayagNIE – Pranagnie, Dhyanagnie, Gnanagnie – Ignite the flames within.
