Dr. B. S. Nagendra Parashar
Principal, NIE Mysuru

Dr. Sanjith S. Anchan
Symposium Convenor

“Greater Mysuru, Greener Future” Engineering a Sustainable Legacy with NIE

We would be honoured by your gracious presence and valuable participation on this occasion.

“Sustainable Development Vision for Greater Mysuru”

Organized By
The National Institute of Engineering, Mysuru
in Association with

**Federation of Indian Chambers of Commerce & Industry, and
Centre for Sustainability, Chanakya University, Bengaluru**

The symposium aims to create a meaningful platform for dialogue, knowledge exchange, and policy-oriented discussions focused on shaping a resilient, inclusive, and environmentally sustainable future for Greater Mysuru.

As Mysuru continues to expand in response to rapid urbanization, infrastructure demands, economic growth, and population increase, there is an urgent need for integrated planning and sustainable development strategies. The symposium seeks to address key themes such as urban ecology, sustainable infrastructure development, smart mobility, water resource management, waste management systems, heritage conservation, climate resilience, and technology-driven urban governance.

The event will bring together approximately 200 participants, including urban planners, civil engineers, architects, environmental experts, academicians, researchers, policy makers, local body officials, NGO representatives, and students of planning, engineering, and architecture. Distinguished speakers from premier institutions, government bodies, industry, and research organizations will share insights and practical experiences to enrich the discussions.

Through keynote addresses, technical sessions, and interactive panel discussions, the symposium intends to generate actionable recommendations for the sustainable transformation of Greater Mysuru. It also aims to encourage collaboration among academia, government, industry, and civil society to collectively work toward long-term urban sustainability goals.

About the Symposium

The symposium aims to deliberate on long-term, inclusive, and sustainable planning strategies for Greater Mysuru, addressing rapid urbanization, infrastructure demands, environmental conservation, and heritage-sensitive development.

Key Themes

Sustainable Urban & Regional Planning
Smart Infrastructure and Mobility
Water Resources & Waste Management

Key Themes

Green Spaces and Environmental Conservation
Heritage and Climate-sensitive development
Climate-Resilient and Inclusive Cities

Expert Talks | Panel Discussions | Q & A Session | Recommendations

Who Should Attend

Urban Planners & Civil Engineers
Architects & Environmental Experts
Academicians, Researchers & NGO Officials
Policy Makers & Local Body Officials
Students of Planning, Engineering & Architecture

Certificates of
participation will be
issued to all attendees.
