About me:

I am currently working as an Assistant Professor in the Department of Computer Science and Engineering at The National Institute of Engineering, Mysuru. I have 6 months of teaching experience, where I am actively involved in guiding students in programming, Artificial Intelligence, and emerging technologies.

My academic interests include Machine Learning, Deep Learning, Generative AI, Retrieval-Augmented Generation (RAG), and Data Engineering using PySpark and Databricks. I enjoy teaching programming concepts in Python and C, focusing on building strong logical thinking and problem-solving skills among students.

I am also engaged in hands-on projects involving AI and Large Language Models. My approach to teaching emphasizes practical learning, real-world examples, and interactive problem solving to help students understand complex concepts effectively.

Qualification:

B.E. in Computer Science and Engineering (VTU)
M.Tech in Information Technology (VTU)

Courses Taught:

Research Methodology and Intellectual Property Rights
C Programming
Python Programming
Introduction to Artificial Intelligence
