About me:

Mrs. Harshini C is an Assistant Professor in the Department of Computer Science and Engineering. She completed her M.Tech in Computer Engineering in 2019 and B.E. in Computer Science & Engineering in 2017 from VTU.

She has 3.3 years of academic experience in teaching and mentoring students in the field of computer science. Her research interests include Internet Of things and Artificial Intelligence.

She has experience teaching several undergraduate courses, including Internet Of Things,Introduction to Artificial Intelligence, Data Mining, Python Programming. Her teaching approach focuses on integrating theoretical concepts with practical, hands-on learning to help students develop a strong understanding of modern technologies and their real-world applications.

She is also a professional member of IFERP (Institute for Engineering Research and Publication) and actively participates in academic and research-oriented activities.
