D3. Project Laboratory/Research Laboratory

7.5.1 Project Laboratory

The laboratories in the Civil Engineering Department are well equipped with advanced equipment and industry-specific software for students to conduct project work. The following procedure governs project laboratory usage:

- The student batch defines the project topic and identifies the required laboratory with relevant equipment.
- The student seeks permission from the lab-in-charge through their project guide and the Head of Department (HoD), specifying the work schedule.
- The lab-in-charge directs the concerned technical staff to supervise the student batch during equipment usage.
- Students enter all equipment usage details in the lab usage register maintained at each laboratory.
- Project work spans the entire final year (Semesters VII & VIII) and may extend to earlier semesters for PG students.

7.5.2 Project Funding

The department actively encourages students to prepare and submit project proposals for external funding:

- Students can avail project funding through the Karnataka State Council for Science and Technology (KSCST) Student Project Program.
- Internal funding is also available through the NIE Centre for Research and Development (NIE-CRD) program.
- Grants received are utilized for fabrication of experimental setups, purchase of instruments and materials related to project work.
- Faculty members actively guide students in submitting proposals to external agencies such as DST, VGST, SERB, and AICTE for research funding.
- Industry-sponsored projects and consultancy work provide additional funding for specialized experimental studies.

7.5.3 Centres of Excellence

The Department of Civil Engineering has two established Centres of Excellence (CoE) that house unique and sophisticated equipment and serve as focal points for advanced research, student projects, and consultancy:

Sl.	Centre Name	Key Equipment & Capabilities	Objectives & Activities
1	Building Fire Research Centre (BFRC)	<ul style="list-style-type: none"> • High-temperature furnace for fire resistance testing • Instrumentation for structural fire response monitoring • Data acquisition systems for real-time measurement • Thermal imaging camera • Smoke generation and detection equipment 	Research in fire-resistant materials, structural fire engineering, passive fire protection systems, and fire safety of civil structures.
2	Water Resource Centre (WRC)	<ul style="list-style-type: none"> • Advanced water quality analysis equipment • Hydraulic model testing facilities • Flow measurement and monitoring instruments • GIS and remote sensing software • Groundwater modelling software (MODFLOW) 	Research in water resource management, irrigation engineering, watershed hydrology, water quality monitoring, and groundwater studies.

Sl.	Centre Name	Key Equipment & Capabilities	Objectives & Activities
3	Centre for workplace Safety and Health	CWSH with a vision to take the regional and national initiative to mobilize awareness of workplace hazards, train the industry to assess and manage their workplace risks, join forces with like-minded organizations to improve safety in all workplaces. CWSH strives to achieve this by offering training courses, support and promote innovative research, prepare and disseminate products such as handbooks, provide consultancy services, and organize conferences on workplace safety- related issues.	In-person safety courses Safety Seminars and Webinars Invited talks Academic courses Consultancy Active collaborations Committee Participation Significant events Publication Safety audit

7.5.4 Inter-Departmental Facility Sharing

The department encourages and facilitates the use of facilities available in other departments of NIE for student projects and research without any restrictions. Students have access to:

- Central Computing Facility with high-performance workstations for simulation and modelling work.
- Electronics and Instrumentation Laboratory for data acquisition and sensor-based project work.
- Mechanical Engineering workshops for fabrication of experimental setups and models.

Central Library with access to over 50,000 volumes, journals, and digital resources.
