THE VIRTUOUS CIRCLE: HOW TO GO FROM DREAMER TO LEADER

Talent and connections alone don't predict success.

What separates top achievers from the rest isn't access—it's activation.

This keynote reveals a breakthrough system of seven archetypes that, once awakened, help individuals unlock their potential, overcome adversity, and lead with purpose.

Because greatness isn't reserved for the chosen few—it's available to those who dare to step into it.

*Based on Gaby Natale's **bestselling book published by HarperCollins Leadership**, *The Virtuous Circle* challenges one of the most persistent myths about success: that it's determined by who you know or what you're born with.*

Drawing from decades of interviews with underdogs and icons—from Carlos Santana to Deepak Chopra—Gaby reveals a powerful framework built around seven universal archetypes we all carry within us.

From the Dreamer to the Apprentice, from the Warrior to the Leader—these inner forces, once activated, form a dynamic cycle that fuels sustained achievement and authentic transformation. This keynote is an invitation to take the first step. To go from thinking about your potential... to embodying it.

With compelling storytelling, research, and actionable tools, Gaby shows **how to turn a spark of ambition into a transformational force**—within teams, organizations, and individual lives.
