

# AV Tech Raider

Gaby Natale

Triple Emmy winning journalist, bestselling author, emcee and keynote speaker

## AV Requirements

- Lavalier microphone (Ideally with fresh batteries and a backup in the event of a failure) hooked into the in - house system (amp or speakers)
- **Confidence monitor (showing slides in presenter's view and remaining time)**

### PROJECTION

- LCD projector
- Remote slide advancer/Clicker
- Screen to project onto (preferably large enough & high enough to allow visibility to all participants)

### PRESENTATION

- Gaby uses PPT slides during her presentations. Her slides are run by her producer
- Gaby and her producer will both be present during tech check
- Video(s) and/or music may also be used during the presentation - depending on the customization
- The PPT, voice of God script, speaker intro video, music, etc. are all sent previously to the client

### A/V TECHNICIAN

- Prior to event to check sequencing and mic/sound setup
- Please ensure that an experienced A/V technician is on hand if support is needed

### RECORDING

- Video recording is allowed strictly for the client's internal educational use, and may not be distributed, sold, repurposed, or uploaded to the Internet or any other platform in any form
- Gaby to receive a raw file copy of the footage and professional pictures within 30 days of the event

### OTHER REQUIREMENTS

- Knowledge of the room layout prior to presentation
- Private room space 30 minutes prior to stage time with water
- Small table with room temperature water is required on stage
