

GRAID Technology Announces Partnership With Global IT Solutions Aggregator TD SYNEX

TD SYNEX now offers SupremeRAID™ NVMe/NVMeoF next generation RAID controller, enabling maximum SSD performance for high-intensity workloads.

SANTA CLARA, Calif., October 26, 2022 (Newsire.com) -

GRAID Technology, creators of award-winning SupremeRAID™ for PCIe Gen 3 and Gen 4 deployments, today announced its partnership with TD SYNEX, a leading global distributor and solutions aggregator for the IT ecosystem. The agreement enables GRAID Technology's customers and channel partners to purchase SupremeRAID™ next-generation NVMe/NVMeoF storage solutions directly through TD SYNEX.

SupremeRAID™ directly processes I/O out of path to deliver unparalleled throughput and free up CPU resources for high performance applications -- enabling superior NVMe/NVMeoF performance in AI-accelerated compute, all-flash arrays, HPC applications, and traditional IT applications. Designed for both Linux and Windows operating systems, SupremeRAID™ supports RAID levels 0/1/5/6/10 while the core software license supports up to 32 native NVMe drives.

Now a part of the TD SYNEX portfolio, GRAID Technology offers flexible, easy-to-configure IT infrastructure solutions that deliver the speed, ease of use, flexibility and TCO the market demands for the future of high-performance workloads.

"TD SYNEX is committed to uniting IT solutions that deliver business outcomes today and unlock growth for the future," Gary Palenbaum, EVP Endpoint Technology Solutions, TD SYNEX. "With GRAID Technology added to our vast portfolio of vendor partners, we're able to enrich the breadth and depth of our offerings so customers can do great things with technology."

"Collaborating with TD SYNEX is a critical step to educate the market on the impressive data protection and performance capabilities SupremeRAID™ provides," said Leander Yu, GRAID Technology Founder and CEO. "SupremeRAID™ unparalleled RAID capabilities joined with TD SYNEX's world-class support, pre-sales services, and global fulfillment capabilities, are how our customers will maintain a competitive advantage in the market."
