Core IOP

Structured group therapy for adults navigating anxiety, depression, stress, and other mental health challenges. Participants better understand patterns, strengthen practical coping skills, and develop healthy ways of responding to challenges as they arise.

Dual IOP

Small-group therapy for adults navigating both mental health and substance use concerns. Participants explore how the two can influence one another while building practical skills to interrupt patterns, manage challenges, and support meaningful change in everyday life.

DBT-Focused IOP

Skills-focused small-group therapy for adults who want to respond differently when emotions run high or familiar patterns always take over. Participants learn practical tools, put them into practice, and build greater confidence using them in relationships and everyday life.

Trauma-Focused IOP

Small-group therapy paired with individual work for adults processing trauma. Grounded in safety, trust, and thoughtful pacing, allowing strength to rebuild without being rushed.

Individual Therapy

Flexible one-on-one therapy for those seeking ongoing support and personal growth.

Personalized Intensives

Extended one-on-one therapy designed for deeper exploration.
