Econcile provides two options so pharmacies can choose the one that best meets their needs. Pharmacies can choose to run next-generation reconciliation in-house, using the same tools EnlivenHealth's experts use. Alternatively, pharmacies can choose Econcile Complete where we manage reconciliation on the pharmacy's behalf.

Econcile Auto

Using EnlivenHealth's advanced system, we automatically collect 835 files from payers, match posted payments to prescription claims, and provide access to the same platform used by our expert reconciliation analysts so pharmacies can handle reconciliation with ease.

Econcile Complete

With this convenient option, EnlivenHealth® enters all payments, generates financial reports, and follows up on claims on the pharmacy's behalf. A dedicated reconciliation analyst helps pharmacies save time so they spend less time chasing down payments and more time with patients.
