The Sidemen book is here, and it's dishing the dirt on the YouTube superstars' lives. KSI, Miniminter, Behzinga, Zerkaa, Vikkstar123, Wroetoshaw and Tobjizzle spill all the tea on their living habits, football ability, and dodgy clobber. They'll give you a grand house tour, revealing secrets and sharing memories of recording their favorite videos and a typical day in the life of The Sidemen. You'll learn how seven of the world's biggest YouTubers started off with nothing more than a computer console, a PC, and a bad haircut. They'll tell you how they crushed the internet and give you their ultimate guide to YouTube. Along the way, you'll feel like you're with them every step of the way, smelling the 'sweet' aroma of their favorite dishes in the kitchen. But be prepared for it to get personal. JJ will have lots of tantrums, so take a moment to prepare yourself. This book is going to be intense and exciting, and it's finally here after being waited for by billions of fans. The Sidemen Book: A Collection of Humorous and Heartwarming Stories ===== Even though something feels a bit out of place, I thought it fit well with the whole overall vibe of the book. For example, the recipes are definitely out of place as well. You would think they would be complete jokes but they're not. I thought the addition of their recipes was innovative. There are a lot of useful tips there to help you start up a YouTube channel. Such as DO'S and DON'T'S or equipment for your gaming setup. I also really appreciate the fact that each member's biography is different. When I say that I don't mean their life story itself, I mean the way each section is written and presented is different from the other. The whole book itself is just a bunch of random banter. It stays true to who the Sidemen honestly are and how they portray themselves in their videos. In my opinion, I would go as far as saying that The Sidemen Book is now my favorite non-fiction book. Many people have liked this book because it's funny and makes you feel like you're collaborating with the Sidemen in a video. They present their contents in their own special way which is really amusing. Some of the reviews say it's an easy read but I found something different, the audiobook was more like a 5-hour long podcast than a real book. The Sidemen - a biography in one book, this book is divided into seven chapters, each focusing on the life of one of the Sidemen before they joined forces to become a gaming group. Fans of the Sidemen will appreciate this unique approach to storytelling. ===== This book offers an inside look at the lives of the Sidemen, seven YouTube superstars who joined forces to form a gaming group and entertain millions of fans worldwide. The book provides a humorous and entertaining glimpse into their backgrounds, personalities, and experiences, making it a must-read for fans of the group. The wait is over as YouTube superstars The Sidemen are finally here in book form. Get ready for an inside look at the lives of KSI, Miniminter, Behzinga, Zerkaa, Vikkstar123, Wroetoshaw and Tobjizzle as they dish out the dirt on each other and the YouTube universe.
