

LIFT COLLECTION – INDEPENDENCE COLLECTION

COMPATIBILITY STATEMENT

Assurance for Clinicians, Builders & Home Modification Specialists

Scope of Compatibility

The **Lift Collection Independence Range** is designed for **existing residential dwellings** and is compatible with most home environments throughout **NSW and the ACT**.

All models are retrofit-ready and require minimal structural changes.

They support:

- Wheelchair, powerchair, and ambulant users
 - Carer-assisted transfers
 - Clients with cognitive or sensory impairments
 - Both indoor and outdoor installations
-

Home & Structural Compatibility

Lift Type	Base Requirements	Installation Footprint	Typical Locations
Chair Lifts (Straight & Curve)	Fix to stair treads or stringers	Minimal – within stair width	Internal or external stairs
Stair Platform Lifts	Structural stair supports or wall brackets	Custom to stair length	Indoor or outdoor stairs
Short-Rise Platforms (LC. PLAT 500 / 600)	Level surface – concrete, timber or pavers	1160–1520 mm width	Entrances, verandas, patios
Medium / Mid-Rise (LC. PLAT 17 / 3)	Flat base + 200 mm landing block-out	1260–1630 mm width	Split-levels, verandas, courtyards
Enclosed Platform (LC. EP 500)	Engineer-certified base & cut-outs	Custom footprint	Internal or external attachments

All models can be integrated into existing homes without full rebuilds.

Environmental Suitability

- Outdoor-rated materials (stainless steel, anodised aluminium, plexiglass)
 - Marine-grade options for coastal areas
 - Weather-tested for Australian conditions
-

Clinical Compatibility

Suitable for clients with:

- Reduced strength, balance, or endurance
- Neurological or progressive conditions (MS, MND, Parkinson's)
- Wheelchair or powered mobility use
- Need for carer assistance or supervision

Each lift supports carer safety by reducing manual handling risks.

Power & Safety

- Single-phase domestic power (10–20 amp model dependent)
 - Battery backup and emergency lowering included
 - Keyed controls and emergency alarms standard
 - Hold-to-run controls for safe, controlled use
-

Regional Service Coverage

Lift Collection provides full quotation, design, and installation services throughout:

- **All of New South Wales – including regional areas**
- **The Australian Capital Territory**

Registered home-modification builders within our network ensure installations are compliant and professionally executed.

Summary

The **Independence Collection** is a **clinically compatible, retrofit-ready suite** of lifts engineered for:

- Existing homes and home modifications
- Wheelchair and ambulant users
- Indoor and outdoor environments
- Clinician-guided prescription and carer safety

Lift Collection collaborates with Occupational Therapists and builders across NSW and the ACT to deliver safe, reliable, and client-centred access solutions.
