Upcoming Banners in Zenless Zone Zero to Look Out For!!! Looking forward to seeing everyone at the meeting tomorrow to discuss our strategy for upcoming banners in Zenless Zone Zero. Currently, Caesar King's banner is set to arrive on Sept 25 to Oct 16 and will feature Anton Ivanov and Piper Wheel as A-Rank Agents. After that, Burnice White's banner "Born to Burn" will follow through in the latter half of version 1.2, arriving on Oct 16 and ending on November 6th. For those planning their team builds, it's essential to keep an eye out for upcoming banners like Zhu Yuan's S-Rank Ether Attack and Qingyi's S-Rank Electric Stun. Jane Doe's banner is expected to arrive in September, but details are scarce. As of now, miHoYo has not confirmed information on other upcoming banners, but rumors suggest a new character, Tsukishiro Yanagi, will be released soon. Fans can anticipate her arrival in the version 1.3 update banners alongside Hoshimi Miyabi and Harumasa. Given article text here Lighter and Yanagi, two highly anticipated new characters, are set to be introduced in ZZZ 1.3. Fans have been eagerly speculating about these characters, and rumors abound. The global release of version 1.3 is expected sometime between September 21 and 23, 2024, with the first part of the banner focusing on Lighter. Lighter, a member of the Sons of Calydon group, is expected to be an S-Rank agent and will feature in the ZZZ 1.3 banner. He has already appeared in Zenless Zone Zero cutscenes and as an NPC, showcasing his unique look with green hair and a biker jacket. His fighting style emphasizes strong punches and fire attacks, which has generated significant excitement among fans. Leaks suggest that Lighter's abilities will revolve around melee attacks and fire powers, including combo moves and an ultimate attack called "Thunder Attack." His gauntlets and diamond knuckles are also expected to be powerful tools in battle. Yanagi, the S-Rank Electric Anomaly, is another highly anticipated character. She is from Section 6 and has been rumored to possess electric anomaly powers, similar to Raiden Shogun from Genshin Impact. Her fast and electric-infused combat style could make her a favorite among players who want an anomaly agent. The ZZZ 1.3 banner is expected to be divided into two parts, with the first part focusing on Lighter and the second part introducing Yanagi. Both will feature new A-Rank characters, although their identities remain unknown. The exact release date for version 1.3 has not been confirmed, but it is speculated to occur globally on November 4, 2024. Fans are eagerly awaiting official teasers to learn more about Lighter's skills and abilities. With both Lighter and Yanagi expected to be strong agents in Zenless Zone Zero, players are planning which characters to pull for their teams. Given article text here The Indian market is witnessing trends that hint at upcoming banners in Version 2.0 of Zenless Zone Zero. O via Seele Leaks have revealed possible banner information, and HoYoverse has confirmed Yixuan and Pan Yinhu's participation in the 2.0 update through drip marketing. However, the other three Agents are still under wraps. Leaks suggest that the first half of ZZZ 2.0 banners will feature Yixuan and Astra Yao. Yixuan is speculated to be an S-Rank Auric Ink Rupture Agent with a special Attribute like Miyabi's Forst. Astra Yao, on the other hand, might have her first rerun after debuting in the 1.5 update, as she sits at the top of the must-pull territory for players seeking to clear most endgame content. The second half of the banners is rumored to include Ju Fufu and Caesar. Ju Fufu's Fire Stun Agent abilities are speculated, while Caesar continues to be an excellent Support and Stun hybrid in the current meta. However, her value might diminish once Rupture's speciality is added to the game. Zenless Zone Zero 2.0 is expected to drop on June 4, 2025, allowing players ample time to save for these Agents if they wish to pull them. Astra Yao stands out as an essential Agent to target due to her exceptional Support abilities that fit well in most teams.
