**ANNUAL  
REPORT AND  
ACCOUNTS  
2023**

# WHO WE ARE

ADM Energy is a natural resources investing company with oil and gas assets in West Africa and the US. We hold a 9.2% profit interest in the Aje Field, part of OML 113 in Nigeria. Post year-end we completed an investment in JKT Reclamation, LLC (“JKT”), in which we own a 30.6% economic interest, and Vega Oil and Gas, LLC (“Vega”) of which we own 100%. Both JKT and Vega are revenue generative businesses in the USA and together comprise the foundation of our strategy to build a cash flow positive business.

We are seeking to build on our existing asset base and target other investment opportunities in the oil and gas sector. Our strategy is to identify and invest in high-impact, near-term producing assets that can deliver significant value. These will be based on attractive risk reward profiles such as proven nature of reserves, level of historic investment, established infrastructure, route to early cash flow and upside.

# 2023 OVERVIEW

## Investment Highlights

- Aje consortium initiated reprocessing of 3-D seismic covering the Aje Field and a significant portion of the OML 113 license area offshore Nigeria. The reprocessing was completed in early 2024.
- Acquisition of economic interest (46.8% as of 15 December 2024) in OFX Technologies, LLC ("OFXT") 100% owner of Efficient Oilfield Solutions, LLC, a revenue generative, technology company focused on delivering technology solutions that increase efficiency, lower costs and aid in the management of regulatory requirements of the U.S. upstream oil and gas industry.
- Acquisition of Blade Oil V, LLC on 25 May 2023 (later partially unwound), retaining participation interest in the Altoona Lease located in the Midway-Sunset Oilfield, Kern County, California.
- The Board of Directors completed an internal review on 1 May 2023 of existing investments, financial resources and future investment opportunities available to the Company. As a result, the Board has resolved to consider alternatives for monetising its 12.3% cost share and 9.2% profit share interest in the Aje Field, OML-113 offshore Lagos, Nigeria.

## Corporate and Financial Highlights

- Appointment of Lord Henry Bellingham as Chairman of the Board of Directors of ADM Energy plc on 15 December 2023.
- Stefan Olivier and Claudio Coltellini appointed to the Board of Directors on 25 April 2023, with Stefan Olivier joining as Chief Executive Officer and Claudio Coltellini as Non-executive Director. The appointments of Mr Olivier and Mr Coltellini come further to the Company's announcement of 17 October 2022 pursuant to which OFX Holdings, LLC (formerly Tennessee Black Gold, LLC) ("OFX") was granted the right to appoint two directors as part of a £500,000 equity subscription.
- In May 2023 the Company entered into subscription agreements to issue secured convertible loan notes ("SCLN") with an aggregate face value of US\$900,000.
- Claudio Coltellini subsequently resigned on 13 December 2024.

## CHAIRMAN'S REPORT

FOR THE YEAR ENDED 31 December 2023

Dear Stakeholders,

2023 marked the beginning of a rebuilding of ADM from the ground up. This rebuilding has to date focused on establishing a solid foundation from which to grow shareholder value in the future. Steps taken in 2023 entailed changes to the Board, the management, implementation of cost cutting measures, the undertaking of a strategic review of the Company's legacy asset – our 12.3% cost share and 9.2% profit share in OML-113, Aje Field, offshore Lagos, Nigeria – and a focus on identifying and securing cash generative investments in the United States capable of generating meaningful cash in the near-term.

While the near-term focus of the Board is establishing a solid foundation for the Company, the Board is keeping an eye on trends in world energy markets, the world economy and implications of these for the future.

According to bp's Energy Outlook 2024, the world is *"in an 'energy addition' phase of the energy transition in which it is consuming increasing amounts of both low carbon energy and fossil fuels"* ([BP Energy Outlook 2024](#)).

The Board of ADM believes bp's observation is even more apropos given the growth in AI and data centres and the increasing demand for energy that this growth will require.

While many governments of the world are committed to the energy transition, and we applaud these efforts, the Board of ADM believes that the world will witness growing hydrocarbon demand for many years and with declining rates in legacy oilfields worldwide believed to be greater than 5% per annum, millions of barrels per day of new production will need to be added to meet world demand requirements.

ADM therefore remains committed to the production of oil and gas and businesses that support increased production. This may include development of producing assets, midstream activities associated with gathering crude oil, recycling and reclamation of crude oil from waste streams that would otherwise be disposed of in landfills (and therefore contributing to oil production levels while preserving valuable and finite landfill space) or oilfield services and technologies that improve the efficiency of oil and gas operations.

The Board is focusing on opportunities in the United States as it is a jurisdiction that, due to political and economic stability and the organization of its oil and gas industry, continues to present opportunities that are suitable, from a capital requirement standpoint, for smaller companies.

From a corporate governance standpoint, the first part of 2023 was highlighted by the return of Stefan Olivier, a founder of ADM, as executive director and Chief Executive Officer of the Company and the addition of Mr. Claudio Coltellini as a non-executive director.

Mr. Coltellini, through investment vehicles managed by him (including OFX Holdings, LLC – "OFXH" – a substantial shareholder of the Company), provided significant financial support (in excess of £1 million) to the Company during the initial phase of our rebuilding strategy and for this we are very grateful.

I was appointed Chairman of the Board in November 2023 and am committed to completing the rebuilding of the Company and overseeing its development into a meaningful and successful company for benefit of all stakeholders.

Lord Henry Bellingham  
Non-Executive  
Chairman  
30 December 2024

## CHIEF EXECUTIVE OFFICER'S REVIEW AND STRATEGIC REPORT

### FOR THE YEAR ENDED 31 December 2023

#### Overview

**2023 was a year of challenges. On returning to the Board of the Company – a Company of which I was a founder and care about very deeply – my initial focus was in stabilizing the Company to give the Board time to implement our strategy to rebuild ADM.**

**The immediate focus was cash. Both securing cash resources to implement the rebuilding plan and reducing G&A expenditures to allow the Company the time to complete our rebuilding plan. With support from shareholders of the Company we secured in excess of £1,000,000 in capital in 2023.**

#### OML-113, Aje Field

The legacy asset of the Company is a 12.3% cost share/9.2% profit share interest in OML-113, Aje Field offshore Lagos, Nigeria. Members of the OML-113 ("Aje Field") consortium, including the Company initiated a reprocessing of the 3-D seismic of Aje Field during 2023 which was completed in early 2024. In November of 2023, The Board of ADM formally announced its intention monetize the Company's interest in the Aje Field. These discussions continue as of this writing.

#### Acquisition of Blade V

The acquisition of Blade Oil V, LLC was originally intended to give the Company a portfolio of near-term oil and gas development assets. As the year progressed the Company shifted its focus to debt reduction and the identification of and investment in cash generative assets. As such the Company and OFX Holdings, LLC agreed to unwind a significant portion of the Blade Oil V transaction while retaining its participation in the Altoona Lease which is believed by the Board of Directors to have extraordinary potential to create shareholder value and realize highly attractive return on investment.

#### Investment in OFX Technologies, LLC

The digitisation of the oilfield is a trend that has witnessed increasing momentum in recent years. Barclay's estimates that upstream spending on digital technologies will grow to a US\$30 billion+ per year market by 2025. ADM completed an investment in OFX Technologies, LLC ("OFXT"), 100% owner of Efficient Oilfield Solutions, LLC ("EOS") ([www.efficientoilfieldsolutions.com](http://www.efficientoilfieldsolutions.com)) in November 2023. EOS offers a free-to-download App supported on iOS and Android platforms. The App allows oilfield operators, trucking companies and salt-water disposal companies to reduce time and save cost associated with regulatory compliance and logistics associated with the management of produced water resulting from oil and gas production operations.

ADM acquired a 46.8% economic interest for total maximum consideration of US\$1,285,000 consisting of 86,035,489 ordinary shares and US\$235,000. Since completion of the acquisition EOS has diligently been working to upgrade its SaaS offering to offer the functionality, auditing support and other requirements of larger operators and trucking companies. EOS has also expanded its market area from Louisiana only at the completion of the investment to include Texas.

The Board believes that OFXT has significant potential to create significant value for the Company in the long-term as the business continues to mature. However, it is not expected that OFXT will generate significant cash distributions to the Company in 2024 or 2025.

#### Financial Review

For the year ended 31 December 2023, the Group's revenue decreased by 100% to nil (2022 £0.7 million), reflecting the suspension of production at Aje.

Operating costs increased to £13.4 million (2022: £0.4 million).

Decommissioning provision amounted to £1.6 million (2022: £1.6 million).

Depreciation & amortisation expense decreased to £0.06 million (2022: £0.07 million).

Administrative expenses decreased by 9% to £1.6 million (2022: £1.7 million).

Loss after taxation decreased to £17.8 million (2022: £2.1 million loss). The Directors do not propose a dividend (2022: £nil).

As of 31 December 2023, the Group had cash and cash equivalents of nil (2022: £0.025 million).

## CHIEF EXECUTIVE OFFICER'S REVIEW AND STRATEGIC REPORT

### FOR THE YEAR ENDED 31 December 2023

#### Outlook

The rebuilding process initiated in 2023 remained, at year-end, very much a work in process. Significant strides were taken in 2024. Two key investments were completed in 2024 that are bearing fruit as the Company prepares to enter 2025:

**JKT Reclamation, LLC.** The Company completed an investment effective 1 January 2024 resulting in the Company holding a 30.6% economic interest in JKT Reclamation, LLC ("JKT"). JKT is engaged in the reclamation of saleable crude oil from waste streams of oil at a 20-acre facility located in Wilson, Oklahoma. The Board believes that JKT has the potential to generate significant cash distributions to the Company in 2025 as oil volumes sold continue to grow.

**Vega Oil and Gas, LLC.** The Company completed an investment effective 1 June 2024 resulting in the Company holding a 100% interest in Vega Oil and Gas, LLC ("Vega"). Vega owns interest in three completed oil wells in Moore County, Texas. The wells are completed to the Red Cave formation. The Company is working to restore all three of the wells to production.

The Board believes that both JKT and Vega have significant potential to distribute meaningful cash to the Company in 2025 and beyond and intend to continue to develop the sites in order to receive increasing levels of cash in distributions from its U.S. investments in 2025.

#### Key Performance Indicators ("KPIs")

The Company is shifting away from a net asset value based approach to measuring our progress and delivering shareholder value to a forward looking, cash flow based approach. The following KPIs are those that the Board is focused on and will give investors the ability to measure our progress in implementation of the strategy for rebuilding ADM:

- Low overhead: Company G&A less than the greater of (i) £30,000 per month; or, (ii) 25% of Operating Cash Flow.
- Reduce debt: debt with recourse to the Company to less than £1 million.
- Cash generative investments: 1H 2025 target of US\$100,000 per month from U.S. investment portfolio. Two key indicators that will allow the Company to achieve these objectives are:
  - 2,000 + barrels sold by JKT in December 2024 with consistent month-over-month sales growth in Q1 2025.
  - All three Vega wells producing by end of February 2025.
- Scalability: Focus on investments with potential to scale into a significant business. Two key objectives of this are:
  - Achieve 5,000 + barrels per month sold by JKT in 2025.
  - Complete a two well drilling program at Vega in 2025.
- Frequent Newsflow: 2-3 RNS per month to keep investors informed of investment performance and progress.

#### Our Principal risks and uncertainties

##### Commodity Prices

The Group is exposed to risks arising from fluctuations in the demand for, and price of, hydrocarbons. Oil and gas prices depend on numerous factors over which the Group does not have any control, including global supply, international economic trends, currency exchange fluctuations, inflation, consumption patterns and global or regional political events. This risk impacts evaluation of business development opportunities where commerciality depends on assumptions around future commodity prices. In terms of evaluating and sanctioning new investments, the Group adopts a conservative price forecast to ensure capital is allocated to projects with robust economics, even in lower commodity price environments

##### Sanctions Risk

The Company and all subsidiaries are committed to ensuring that all parts of our business and all our employees fully comply with all sanctions laws applicable to our work. These include all applicable United Kingdom ("UK") sanctions laws and associated regulations and US regulations.

##### Availability of funding Risk

The Group's asset portfolio does not yet generate the cash necessary to grow the business at a rate in keeping with its ambition and the Group will need to raise additional funds to implement its strategy. The ability of the Group to raise funds will depend on factors not wholly with the control of management, including general market sentiment and attitudes toward small-cap energy companies. As a result there can be no assurance that the required funding will be available on favourable terms, if at all. Failure to raise required

CHIEF EXECUTIVE OFFICER’S REVIEW AND STRATEGIC REPORT  
FOR THE YEAR ENDED 31 December 2023

funds could have a material adverse effect on the Group’s business, operating results and financial condition, and may result in erosion of value for shareholders.

The Group’s strategic focus on acquiring and developing an asset portfolio, and the post year investments partly mitigates the risk and management also seeks to mitigate risk through prudent management of costs and rigorous evaluation of investment opportunities to ensure these will be attractive to investors in the debt and capital markets.

## INVESTMENT APPROACH

**STEFAN OLIVIER**, Chief Executive Officer (Appointed 25 April 2023)

Stefan Olivier has extensive corporate broking and oil and gas experience including as co-founder of MX Oil plc (now ADM Energy plc). Stefan played a central role in initially securing and financing the participation of the Company in the Aje Field, OML 113 and in securing the support of OFX prior to its initial investment in the Company. He was a founder and Chief Executive Officer at North American Petroleum plc from 2012 until 2017. He has been on the Board of several other public and private companies and brings years of experience of working in natural resources to the Board of the Company.

**CLAUDIO COLTELLINI**, Independent Non-executive Director (Appointed 25 April 2023, resigned 13 December 2024)

Claudio Coltellini is an Italian citizen now residing with his family in the state of Florida. Prior to working in the U.S. onshore oil and gas sector, having graduated with a degree in economics and business, he joined Deutsche Bank where he worked for seven years. He has invested in the U.S. oil and gas sector for approximately 15 years and is CEO of four private U.S. oil and gas companies focused on investment in the states of Texas, California, Kansas and Louisiana.

**DR STEFAN LIEBING**, Independent Non-executive Director

Dr Stefan Liebing is the CEO of Conjuncta GmbH, a boutique investment and project development company and has been active in major infrastructure and energy projects since more than twenty years. Dr Stefan Liebing is the Immediate Past Chairman of Afrika-Verein der deutschen Wirtschaft e.V., the prestigious German-African Business Association, where as part of his role, he advised the German Government on investment in Africa. Previously, Dr Liebing was a Director of International Gas Business at EnBW Energie Baden-Wuerttemberg AG, one of the largest energy supply companies in Europe. Previously he held various senior positions at Royal Dutch Shell.

**LORD BELLINGHAM**, Independent Non-executive Director

Lord Bellingham has enjoyed a distinguished Parliamentary career of almost 40 years and held a number of senior positions including: Foreign Office Minister for Africa, The UN, Caribbean, Overseas Territories and Conflict Issues; Chairman of the Westminster Foundation for Democracy; Chairman of the All-Party Group on the Commonwealth; and the Prime Minister's Trade Envoy to Libya. In 2016, he was Knighted in the New Year Honours list for Parliamentary and Political Service. He sits in the House of Lords after being awarded a Life Peerage in 2020. In addition to his Parliamentary career, Lord Bellingham has held several non-executive roles on AIM companies and, until recently, was Non-executive Chairman of Pathfinder Minerals plc since 2014. Prior to entering Parliament, Lord Bellingham practised as a barrister having graduated from Magdalene College, Cambridge with a master's degree in Law.

**OLIVER ANDREWS**, Non-executive Chairman (Resigned 15 December 2023)

Oliver has over 35 years' experience in infrastructure development, investing, public-private partnerships and strategic advisory work such as advising and partnering with governments, regional and international corporations and development finance institutions. During his career, he has overseen the investment of approximately US\$10bn and originated US\$100bn of investments in natural resources and infrastructure deals across the African continent on behalf of investee institutions. Oliver was formerly Executive Director and Chief Investment Officer at the Africa Finance Corporation, one of the biggest investors in natural resources and infrastructure solutions in Africa, where he oversaw the growth of assets under management from US\$1bn to over US\$8.4bn including significant investments in the oil and gas sector.

**RICHARD CARTER**, Chief Operating Officer (Resigned 15 December 2023)

Richard is a qualified accountant with extensive experience of raising funds for public and private companies. He has worked and advised across media, telecoms, engineering and energy sectors in various corporate finance and investor relations roles. As Chief Operating Officer, Richard supports the CEO and management team with its regulatory functions.

## INVESTMENT APPROACH

### Investing Approach

The Company will seek to invest in opportunities within the natural resources sector, the oil services, power and energy sectors and in technology opportunities related to these sectors that the Directors believe either are of strategic value or represent a significant value opportunity. The Company is prepared to take an active role in its investments where it is deemed to be appropriate.

The Directors plan to adopt a flexible approach, both as to the form of the Company's investments and the subject of its investments. The investments may be in quoted and unquoted companies. This includes making investments in other quoted investment companies focused on the natural resources, power and energy sectors or related technologies, including those with no significant assets other than cash. The Directors believe that investing in these other investing companies will provide the Company with greater scope to make and support its investment strategy.

The Company's investments may take the form of equity, debt, convertible instruments, options and licence rights. Possible investments could include direct or indirect investments in permits and licences, exploration, mining and production operations and processing and development projects.

The Company may make direct investments in private or quoted companies and indirect investments via quoted companies, unquoted companies seeking a public quotation and candidates for reverse transactions into quoted investment companies. The Company may invest in these types of opportunities through acquisitions, partnerships, joint venture arrangements, as finance for management buy-outs or buy-ins, as finance for pre-IPO, seed and underwriting positions.

Such investments may result in the Company acquiring the whole or part of a company or project. The Company will consider opportunities anywhere in the world.

The Company expects to be an active investor in situations where the Company can make a clear contribution to the progress and development of the investment. In respect of other, principally more substantial opportunities, the Company expects to be a passive investor.

The Company intends to invest for the medium to long-term. However, should an opportunity arise to realise its investments, the Company will consider these on a case-by-case basis and seek to maximise value for shareholders. The Directors intend to hold all investments for a minimum of 30 days. Other than set out above, there are no restrictions on the Company's investment policy.

The Company intends to utilise industry experts in the analysis of proposed investments, and it is intended that the decision-making process will be a collegiate, team-based approach, driven by intrinsic value or informed opinion.

### Our Sustainable Approach

**ADM Energy is committed to the highest standards of corporate social responsibility in its investing policy. Working alongside its partners, the Company strives to ensure the safety of all staff and contractors, while minimising environmental impact, for the benefit of the communities in which it works and all its stakeholders.**

ADM conducts its investment operations in a responsible and transparent manner. Being socially responsible is a key component in the Company's business and its achievements. This includes not only adherence to Government legislation and Company policies, but must extend to acceptance that ADM is, in all the projects in which it holds an investment, a neighbour in established communities and environments.

The Company is conscious of the impact to the environment and local communities that oil and gas activities may have and aims to minimise and constantly reduce these effects. The projects in which ADM invests comply with all existing laws, regulations and permits. By making continuous improvements, the Company's ambition is to set a good example in the markets where it is active. ADM's focus in its projects is environmental protection, pollution prevention and human health. The Company's actions are characterised by respect for the cultures of the regions in which it operates. ADM is committed to maintaining an open dialogue over the environmental aspects of its investments and the operations of the partners in these projects with all stakeholders.

The UK-registered subsidiaries of the group, including the parent company ADM Energy PLC, did not consume more than 40,000 kWh of energy in a reporting period. The group therefore qualifies as a low energy user and is exempt from further energy and carbon reporting under Environmental Reporting Guidelines.

**DIRECTORS' REPORT**

FOR THE YEAR ENDED 31 December 2023

The Directors present their annual report on the affairs of the Group, together with the financial statements for the year ended 31 December 2023.

Certain information required by the Companies Act 2006 relating to the information to be provided in the Directors' Report is set out in the Strategic Report and includes principal activity, future developments and principal risks and uncertainties.

**DIRECTORS**

The Board comprised the following directors who served throughout the year and up to the date of this report unless otherwise stated.

|                    |                                                      |

**POST YEAR END EVENTS**

Events after the reporting period are set out in Note 29 to the Financial Statements.

## DIRECTORS' REPORT

FOR THE YEAR ENDED 31 December 2023

### STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the report of the directors and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare Group and Company financial statements for each financial year. The Directors are required by the AIM Rules of the London Stock Exchange to prepare group financial statements in accordance with UK-adopted international accounting standards ("IFRS"). Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs and profit or loss of the company and group for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable IFRSs have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Group's transactions and disclose with reasonable accuracy at any time the financial position of the Group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In the case of each person who was a director at the time, this report was approved:

- so far as that director is aware there is no relevant audit information of which the Group's auditor is unaware; and
- that director has taken all steps that the director ought to have taken as a director to make himself aware of any relevant audit information and to establish that the Group's auditor is aware of that information.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Group's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

### CORPORATE GOVERNANCE

Corporate governance regulations apply to all AIM quoted companies and require the Company to:

- provide details of a recognised corporate governance code that the board of directors has decided to apply; and
- explain how the Company complies with that code, and where it departs from its chosen corporate governance code provide an explanation of the reasons for doing so.

The Directors recognize the importance of sound corporate governance while taking into account the Group's size and stage of development and the following two sections explain the Company's compliance with these regulations. The Group's Corporate Governance Report is included on page 12.

### AUDITORS

The auditors, Kreston Reeves LLP have expressed their willingness to continue in office, and a resolution to reappoint them will be proposed at the forthcoming Annual General Meeting.

### DISCLOSURE OF INFORMATION TO AUDITORS

Each of the persons who are directors at the time when this Directors' report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

On behalf of the Board.

Stefan Olivier  
Director

**CHAIRMAN'S CORPORATE GOVERNANCE STATEMENT**

FOR THE YEAR ENDED 31 December 2023

**INTRODUCTION**

All members of the Board believe strongly in the value and importance of good corporate governance and in accountability to all of ADM Energy's stakeholders. The statement below, explains the approach to governance, and how the Board and its Committees operate.

The corporate governance framework which the Company operates, including board leadership and effectiveness, board remuneration, and internal control is based upon practices which the Board believes are proportional to the size, risks, complexity and operations of the business and is reflective of the Group's values. Of the two widely recognised formal codes, we have therefore decided to adhere to the Quoted Companies Alliance's (QCA) Corporate Governance Code for small and mid-size quoted companies (revised in April 2018 to meet the new requirements of AIM Rule 26).

The QCA Code is constructed around ten broad principles and a set of disclosures. The QCA has stated what it considers to be appropriate arrangements for growing companies and asks companies to provide an explanation about how they are meeting the principles through the prescribed disclosures. We have considered how we apply each principle to the extent that the Board judges these to be appropriate in the circumstances, and below we provide an explanation of the approach taken in relation to each.

The following paragraphs set out the Company's compliance with the ten principles of the QCA Code.

- **Establish a strategy and business model which promotes long-term value for shareholders**

The Company is an investing company quoted on AIM. Its principal focus is investing in the natural resources sector, particularly in oil and gas where it believes that it can make an attractive return for shareholders. The Company expects to generate returns for shareholders through the development of its investments.

In April 2024, ADM acquired an interest in SW Oklahoma Reclamation, LLC ("SWOK") to reinstate operations at the JKT Reclamation facility in Wilson, Oklahoma. As a result of the Investment, the Company owns a 30.6% interest in JKT Reclamation LLC ("JKT Reclamation"), a revenue generative Oklahoma Limited Liability Company, engaged in the purchase, processing and sale of residual oil from oil tanks (tank bottoms) and other oilfield waste streams containing significant concentrations of crude oil. The consideration for the investment was US\$827,500 paid via the issue of 43,200,000 ordinary shares at a nominal share price of 1p per share for a value of US\$540,000, a cash investment of US\$287,500 for working capital into JKT Reclamation and the grant of 14,640,000 3-year, 1.0p warrants. The effective date of the investment is 1 January 2024 and it is expected to be immediately cash flow generative to the Company.

ADM acquired a 100% equity interest in Vega Oil and Gas, LLC, a Texas Limited Liability Company with assets in Moore County, Texas. The acquisition was effective from 1 June 2024. The transaction was funded by a US\$150,000 capital commitment by ADM USA, a US\$100,000 borrowing facility from a private, third-party US lender and the issuance of 20 million, 5-year warrants in the Company with an exercise price of 1.0 pence.

The Vega Wells, in aggregate, produced an average of 26 barrels of oil per day (net to the interest of Vega) in January, February and March 2024. As of the effective date the Sneed 415 was producing with the Thompson 7330 and 7331 shut-in awaiting completion of a new tank battery.

The Board views JKT and Vega as the foundation of its strategy to build ADM into a cash flow positive business.

The Company's legacy investment is in the Nigerian offshore licence OML 113 and to date the Company has been involved with maintaining and progressing its investment in OML 113 together with the joint operators from the development stage through to production. The Board has reviewed the OML 113 investment and, given the focus on cash generative businesses in the USA and the substantial capital requirements necessary to progress its interest in OML 113, has elected to pursue alternatives to monetise this interest.

- **Seek to understand and meet shareholder needs and expectations**

The Board is committed to maintaining good communication and having constructive dialogue with its shareholders. Shareholders have the opportunity to discuss issues and provide feedback at meetings with the Company. In addition, all shareholders are encouraged to attend the Company's Annual General Meeting ("AGM"). Investors also have access to current information on the Company through its website, [www.admenergyplc.com](http://www.admenergyplc.com) and via Stefan Olivier, CEO who is available to answer investor relations enquiries and can be contacted on [Stefan@admenergyplc.com](mailto:Stefan@admenergyplc.com) or [hello@admenergyplc.com](mailto:hello@admenergyplc.com).

## CHAIRMAN'S CORPORATE GOVERNANCE STATEMENT

FOR THE YEAR ENDED 31 December 2023

- **Take into account wider stakeholder and social responsibilities and their implications for long-term success**

The Board recognises that the long-term success of the Company is reliant upon the efforts of its directors and employees, the efforts and activities of the joint operation partners and upon their contractors, suppliers and regulators. The Board has put in place a range of processes and systems to ensure that there is close Board oversight and contact with its key resources and relationships.

As an investing company, the Company recognises that it is likely further investment will be required as it develops its investment portfolio. Accordingly, ensuring that the Company continually understands the requirements of shareholders in the context of the broader developments in its sector of operation is extremely important.

The Company's CEO is in regular dialogue with a number of the Company's shareholders, and feedback from this contact is used to shape subsequent communication with shareholders as a whole and the market more generally.

- **Embed effective risk management, considering both opportunities and threats, throughout the organisation**

In addition to its other roles and responsibilities, the Audit and Compliance Committee (see composition details in Corporate Governance section of website, [www.admenergyplc.com](http://www.admenergyplc.com)), is responsible to the Board for ensuring that procedures are in place, and are being effectively implemented to identify, evaluate and manage the significant risks faced by the Company. Within the scope of the annual audit, specific financial risks are evaluated in detail, including in relation to foreign currency, interest rates, liquidity and credit.

In terms of investment appraisal, this process is usually led by the CEO and COO. The opportunities are then presented and discussed by the Board as a whole. Where necessary, the Company will also involve third party experts in the overall appraisal process.

The Directors have established procedures, as represented by this statement, for the purpose of providing a system of internal control. In addition, there are a range of Company policies that are reviewed at least annually by the Board. These policies cover matters such as share dealing and insider legislation. The Board currently takes the view that an internal audit function is not considered necessary or practical due to the size of the Company and the close day to day control exercised by the Directors. However, the Board will continue to monitor the need for an internal audit function.

The annual review of internal control and financial reporting procedures did not highlight any issues warranting the introduction of an internal audit function. It was concluded, given the current size and transparency of the operations of the Company, that an internal audit function was not required.

As noted in the Strategic Report on pages 6-9, the Board regularly reviews operating and strategic risks and considers in such reviews financial and non-financial information including:

- a review of the business at each Board meeting, focusing on any new decisions/risks arising;
- the performance of investments;
- selection criteria of new investments; and
- reports prepared by third parties.

- **Maintain the Board as a well-functioning, balanced team led by the Chair**

The QCA Code requires that the boards of AIM companies have an appropriate balance between executive and non-executive directors of which at least two should be independent.

The Board comprised of Non-executive Chairman Oliver Andrews, CEO Stefan Olivier and Non-executive Directors Claudio Coltellini Lord Henry Bellingham, and Dr Stefan Liebing. The time commitment formally required by the Company is an overriding principal that each director will devote as much time as is required to carry out the roles and responsibilities that the director has agreed to take on. Biographical details of the current directors are set out within Principle Six below and on page 9. Executive and non-executive directors are subject to re-election intervals as prescribed in the Company's Articles of Association. At each Annual General Meeting, one-third of the Directors, who are subject to retirement by rotation shall retire from office. They can then offer themselves for re-election. The letters of appointment of all directors are available for inspection at the Company's registered office during normal business hours.

The Directors' receive fees for their services as directors which are approved by the Board, being mindful of the time commitment and responsibilities of their roles and of current market rates for comparable organisations and appointments.

**CHAIRMAN'S CORPORATE GOVERNANCE STATEMENT**

FOR THE YEAR ENDED 31 December 2023

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board meets as regularly as necessary. It has established an Audit and Compliance Committee and a Remuneration Committee, particulars of which appear hereafter. Appointments to the Board are made by the Board as a whole and so the Company has not created a Nominations Committee.

The Board retains full control of the Company with day-to-day operational control delegated to the CEO and other Directors.

- **Ensure that between them the Directors have the necessary up-to-date experience, skills and capabilities**

All members of the Board bring either relevant sector experience or public market's experience which the Company considers to be fundamentally important in its chosen area of operation and investment appraisal process. The Board believes that its blend of relevant experience, skills and personal qualities and capabilities is sufficient to enable it to successfully execute its strategy. Please see biographies of the Board of Directors on page 9.

- **Evaluate board performance based on clear and relevant objectives, seeking continuous improvement**

Internal evaluation of the Board, its Committees and individual directors is important and will develop as the Company grows in the future. The expectation is that Board reviews will be undertaken on an annual basis to determine the effectiveness and performance in various areas as well as the directors' continued independence

- **Promote a corporate culture that is based on ethical values and behaviours**

The Board recognises that its decisions regarding strategy and risk will impact the corporate culture of the Company as a whole and that this will impact the performance of the Company. The Board is very aware that the tone and culture set by the Board will greatly impact all aspects of the Company as a whole. Therefore, the importance of sound ethical values and behaviour is crucial to the ability of the Company to successfully achieve its corporate objectives. The Board places great importance on this aspect of corporate life and seeks to ensure that this flows through all that the Company does. The Board assessment of the culture within the Company at the present time is one where there is respect for all individuals, open dialogue within the Company and a commitment to best practice.

The Company has also adopted an anti-bribery policy which is clearly set out on the Company's website.

- **Maintain governance structures and processes that are fit for purpose and support good decision-making by the Board**

The Board schedule provides for six board meetings per annum and, in addition, meets ad-hoc as required. Notwithstanding the above, the Board and its Committees receive appropriate and timely information prior to each meeting; a formal agenda is produced for each meeting, and Board and Committee papers are distributed several days before meetings take place. Any Director may challenge Company proposals and decisions are taken democratically after discussion. Any Director who feels that any concern remains unresolved after discussion may ask for that concern to be noted in the minutes of the meeting, which are then circulated to all Directors. Any specific actions arising from such meetings are agreed by the Board or relevant Committee and then followed up by the Company's management.

The **Audit and Compliance Committee** monitors the integrity of financial statements, oversees risk management and control, and reviews external auditor independence. It also ensures that the Company is compliant with its relevant regulatory requirements.

The **Non-executive Chairman** has overall responsibility for corporate governance and in promoting high standards throughout the group. He leads and chairs the Board, ensuring that committees are properly structured and operate with appropriate terms of reference, ensures that performance of individual directors, the board and its committees are reviewed on a regular basis, leads in the development of strategy and setting objectives, and oversees communication between the group and its shareholders.

The **Executive Directors** are responsible for implementing and delivering the strategy and operational decisions agreed by the board, making operational and financial decisions required in the day-to-day operation of the group, providing executive leadership to managers, championing the group's core values and promoting talent management.

The **Non-executive Directors** contribute independent thinking and judgement through the application of their external experience and knowledge, scrutinise the performance of management, provide constructive challenge to the executive directors and ensure that the group is operating within the governance and risk framework approved by the Board.

## CHAIRMAN'S CORPORATE GOVERNANCE STATEMENT

FOR THE YEAR ENDED 31 December 2023

The Board has approved the adoption of the QCA Code as its governance framework against which this statement has been prepared and will monitor the suitability of this code on an annual basis and revise its governance framework as appropriate as the group evolves.

- **Communicate how the Company is governed and is performing by maintaining a dialogue with shareholders and other relevant stakeholders**

The Company communicates with shareholders through its period announcement, the Annual Report and Accounts, full-year and half-year announcements, the AGM and one-to-one meetings with large existing or potential new shareholders. A range of corporate information (including all Company announcements and presentations) is also available to shareholders, investors and the public on the Company's corporate website, [www.admenergyplc.com](http://www.admenergyplc.com).

The Board is committed, where practicable, to developing and applying high standards of corporate governance appropriate to the Company's size and stage of development. The Board seeks to apply where appropriate the QCA Code as devised by the Quoted Companies Alliance.

### BOARD STRUCTURE

The Board has four directors, three of whom are non-executive. The Board is responsible for the management of the business of the Company, setting its strategic direction and establishing appropriate policies. It is the Directors' responsibility to oversee the financial position of the Company and monitor its business and affairs, on behalf of the shareholders, to whom they are accountable. The primary duty of the Board is to act in the best interests of the Company at all times. The Board also addresses issues relating to internal controls and risk management. The non-executive directors bring a wide range of skills and experience to the Company, as well as independent judgment on strategy, risk and performance. The independence of each non-executive director is assessed at least annually, and all of the non-executive directors are considered to be independent at the date of this report.

The roles of the Chairman and CEO are separate, with their roles and responsibilities clearly divided and recorded. A summary of their roles is as follows:

The Chairman is responsible for leadership of the Board, ensuring its effectiveness and setting its agenda. The Chairman facilitates the effective contribution and performance of all Board members whilst identifying any development needs of the Board. He also ensures that there is sufficient and effective communication with shareholders to understand their issues and concerns.

The CEO is responsible for executing the strategy agreed by the Board and developing the Group objectives through leadership of the senior executive team. He will recommend to the Board any investment or new business opportunities which meet this strategy. He also ensures that the Group's risks are adequately addressed and appropriate internal controls are in place. The CEO is responsible for meeting with shareholders and ensuring effective communication.

### ATTENDANCE AT MEETINGS

It is expected that all Directors attend Board and relevant Committee meetings, unless they are prevented from doing so by prior commitments, and that all Directors will attend the AGM.

During the year the Board met 8 times and all the Directors attended the meetings.

### BOARD COMMITTEES

#### Remuneration Committee

The Remuneration Committee consists of Lord Henry Bellingham (Committee Chairman) and Dr Stefan Liebing. It is responsible for reviewing the performance of the senior executives and for determining their levels of remuneration. The Committee makes recommendations to the Board, within agreed terms of reference regarding the levels of remuneration and benefits.

#### Remuneration Committee Report

On behalf of the Board, I am pleased to present the Remuneration Committee report for the financial period ended 31 December 2023. This report sets out the activities of the Remuneration Committee during 2023.

The Committee met twice during the year to determine the remuneration arrangements of the Directors and senior employees.

#### Remuneration policy

The Committee aims to ensure that total remuneration is set at an appropriate level for the Group and its operations. The objectives and core principles of the remuneration policy are to:

- ensure remuneration levels support the Group's strategy;

## CHAIRMAN'S CORPORATE GOVERNANCE STATEMENT

### FOR THE YEAR ENDED 31 December 2023

- ensure that there is an appropriate link between performance and reward;
- ensure alignment of Directors, senior management and shareholder interests;
- ensure that long-term incentives are linked to shareholder return;
- enable the Group to recruit, retain and motivate individuals with the skills, capabilities and experience to achieve its objectives; and
- strengthen teamwork by enabling all employees to share in the success of the business.

There are four elements of the remuneration package for Executive Directors and senior management:

- basic annual salary;
- benefits in kind;
- discretionary annual bonus; and
- long-term incentive plan.

#### Audit Committee

The Audit Committee consisted of Richard Carter (Committee Chairman) and Dr Stefan Liebing during 2023. Stefan Olivier replaced Richard Carter as the committee chairman in 2024. The Audit Committee met twice in 2023 to consider the annual and interim financial statements and the audit plan. The Audit Committee is responsible for ensuring that appropriate financial reporting procedures are properly maintained and reported upon, reviewing accounting policies and for meeting the auditors and reviewing their reports relating to the financial statements and internal control systems.

#### Audit Committee Report

On behalf of the Board, I am pleased to present the Audit Committee report for the financial period ended 31 December 2023. This report sets out the activities of the Audit Committee during 2023.

The Audit Committee is governed by terms of reference which are agreed by the Board and subject to annual review.

#### Principal responsibilities of the committee:

- Ensuring the financial performance of the Group is properly reviewed, measured and reported;
- Monitoring the quality and adequacy of internal controls and internal control systems implemented across the Group;
- Receive and review reports from the Group's management and auditors relating to the interim and annual accounts;
- Reviewing risk management policies and systems;
- Advising on the appointment, re-appointment and remuneration of independent external auditors, besides scheduling meetings with external auditors independent of management for discussions and reviews; and
- Reviewing and monitoring the extent and independence of non-audit services rendered by external auditors.

#### Areas of focus during 2023

The Committee met twice in 2023 to execute its responsibilities. Meetings focussed on audit planning, risk management, internal controls and the approval of the interim and final results including the key judgements associated with acquisition accounting, asset impairment review assumptions and calculations, creditor completeness reviews and the going concern requirements and statement.

#### Internal controls and risk

The Board assigns to the Committee the responsibility of monitoring and improving the Group's internal controls governing the finances of the business. The system of internal controls is vital in managing the risks that face the Group and safeguarding shareholders' interests.

#### Audit Process

The Committee reviews the findings of the external auditors and then approves the scope of work to be undertaken for the next financial reporting year, including the associated audit fees. In addition, a review of the effectiveness of the external audit process is undertaken and an annual assessment of the external auditor's independence is made.

## CHAIRMAN'S CORPORATE GOVERNANCE STATEMENT

FOR THE YEAR ENDED 31 December 2023

### COMPANY CULTURE AND ETHICS

The Board of Directors seeks to embody and promote a corporate culture that is based on sound ethical values and behaviours. A culture of ethics and compliance is at the core of a strong risk management program.

The Board of Directors of ADM Energy plc has adopted this code of ethics, to promote honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest; promote the full, fair, accurate, timely and understandable disclosure of the Company's financial results in accordance with applicable disclosure standards; promote compliance with applicable governmental laws, rules and regulations; and deter wrongdoing.

### Directors' Statement under Section 172 (1) of the Companies Act 2006

The Section 172 (1) of the Companies Act obliges the Directors to promote the success of the Company for the benefit of the Company's members as a whole.

The section specifies that the Directors must act in good faith when promoting the success of the Company and in doing so have regard (amongst other things) to:

- a) the likely consequences of any decision in the long term;
- b) the interests of the Company's employees;
- c) the need to foster the Company's business relationship with suppliers, customers and others;
- d) the impact of the Company's operations on the community and environment;
- e) the desirability of the Company maintaining a reputation for high standards of business conduct; and
- f) the need to act fairly as between members of the Company.

The Directors believe that during the year they have acted in the way most likely to promote the success of the Company for the benefit of its members as a whole and have adhered to the requirements set out above that are applicable to the Company given its scope of operations. Through its financing activities, the Board has ensured that the Company is sufficiently capitalised and has cash resources for its requirements, to ensure that the Company has a viable operating plan for the long term. Given the nature of the Company's business, it has very few employees and the majority are themselves directors. The Board recognises that the Company's employees are, nevertheless, critical to the success of the Company and takes steps to ensure that the interests of employees are protected. The Company does not deal directly with customers or suppliers in relation to its oil and gas field interests, save for its relationship with the operator for the OML 113 licence. The Company acknowledges the importance of maintaining good relations with its suppliers and aims to settle all invoices in a timely manner. The Company's approach to its responsibilities in respect of the impact of its operations on the community and environment is set out in "Our Sustainable Approach" on page 10.

Lord Henry Bellingham  
Non-Executive Chairman

30 December 2024

Signed by:

## REPORT ON DIRECTORS' REMUNERATION

FOR THE PERIOD ENDED 31 December 2023

## REMUNERATION

The remuneration of the Directors has been fixed by the Board as a whole. The Board seeks to provide appropriate reward for the skill and time commitment required so as to retain the right calibre of director at a cost to the Group, which reflects current market rates.

The Board is responsible for the overall remuneration package for the Executive and Non-executive Directors. The Company's remuneration policy is set out on page 16.

## DIRECTORS' EMOLUMENTS

Details of the remuneration package of each Director for the year are set out below:

| Director                                                                | 2023<br>Fees and<br>emoluments<br>£'000 | 2023<br>Pension<br>contributions<br>£'000 | 2023<br>Options<br>and warrants<br>Number | 2023<br>Total<br>remuneration<br>£'000 | 2022<br>Total<br>remuneration<br>£'000 |

**INDEPENDENT AUDITOR REPORT  
TO THE SHAREHOLDERS OF ADM ENERGY PLC  
FOR THE YEAR ENDED 31 DECEMBER 2023**

**Opinion**

We have audited the financial statements of ADM Energy PLC (the 'parent company') and its subsidiaries (the 'Group') for the year ended 31 December 2023 which comprise the group income statement and statement of comprehensive income, group and company statements of financial position, group and company statements of changes in equity, group and company statements of cashflows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards.

In our opinion, the financial statements:

- give a true and fair view of the state of the Group's and of the parent company's affairs as at 31 December 2023 and of the Group's loss for the year then ended;
- have been properly prepared in accordance with UK adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

**Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's Ethical Standard as applied to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Material uncertainty relating to going concern**

We draw attention to note 2 in the financial statements, which discloses that the Group and Company are considered to be a going concern by management. We note that the primary source of income generated in recent years, via its partnership in the OML 113 license, was paused during 2022 as part of a suspension of production at Aje. This pause was to upgrade and increase the capacity and production capability of the asset in line with the development plans. It is not known at this stage if or when this asset will become income generating again.

Management have subsequently engaged in new investment opportunities, this includes the acquisitions in the current year of oil generating assets in the US, which as of the date of the approval of these financial statements are beginning to generate some modest returns. However, at present the Group remains heavily reliant on ongoing additional funding to meet its liabilities as they fall due and this is expected to continue being the case well into 2025. Due to the inherent uncertainty involved with the timings and amounts of obtaining such funding – added to the inherent uncertainty with respect to the timings and amounts of income generated from investments held – these events or conditions along with the other matters set out in note 2 indicate that a material uncertainty exists that may cast significant doubt on the Group and Parent company's ability to continue as a going concern.

The disclosure of material uncertainty in relation to going concern is further demonstrated by the directors shift in focus on to cost control and cash flow management. There have been significant cashflow constraints faced by the group during the year and post year end. As at 31 December 2023, the cash balance was £nil (2022: £25k), which highlights the urgent requirement for external funding to meet day to day working capital requirements.

**INDEPENDENT AUDITOR REPORT  
TO THE SHAREHOLDERS OF ADM ENERGY PLC  
FOR THE YEAR ENDED 31 DECEMBER 2023**

Our opinion is not modified in respect of this matter.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. This conclusion is reached based on acceptable levels of audit assurance gained from the following procedures in which we have:

- Evaluated the design and implementation of key internal controls over management's assessment of going concern, considering in detail the rationale provided and whether this was consistent with our understanding as well as audit evidence obtained;
- Considered the accuracy of forecasts produced by management by reference to key assumptions made, as well as identifying specific elements of the forecasts that are critical for demonstrating that the business remains a going concern, taking into account variances that arose;
- Tested the mechanical integrity of the forecast model prepared by management by checking the accuracy and completeness of the model, including challenging the appropriateness of estimates and assumptions with reference to empirical data and external evidence;
- Considered the key financial data of the group and company at year end and assessed the financial headroom available by reference to ongoing cash commitments over a period of at least 12 months from the date of the approval of these financial statements;
- Considered the trends of key commodity prices in the financial year and in the period up to the date of the approval of these financial statements;
- Considered the funding facilities currently and potentially available to the business as well as reviewing the associated covenants where applicable;
- Specifically considered the willingness and ability of shareholders to continue to provide equity and debt finance to the business based on historic track record of support, capital raises after the balance sheet date and the results of recent shareholder general meetings.
- Considered post year-end financial information, including performance of US oil generating assets and board minutes and other events in order to further assess the performance, strength as well as the ability of the business to settle liabilities as they fall due since the balance sheet date to the date of the approval of the financial statements.
- Reviewed the adequacy and completeness of the disclosure included within the financial statements in respect of going concern.

Our responsibilities and the responsibility of the directors with respect to going concern are described in the relevant sections of the report.

**An overview of the scope of our audit**

We tailored the scope of our audit to ensure that we performed sufficient work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Group and the parent company, the accounting processes and controls, and the industry in which they operate.

**INDEPENDENT AUDITOR REPORT**  
**TO THE SHAREHOLDERS OF ADM ENERGY PLC**  
**FOR THE YEAR ENDED 31 DECEMBER 2023**

Our scoping considerations for the Group audit were based both on financial information and risk. The below table summarises for the parent company, and its subsidiaries, in terms of the level of assurance gained:

| Group component                          | Level of assurance           |
|------------------------------------------|------------------------------|
| ADM Energy PLC                           | Full statutory audit         |
| P R Oil & Gas Nigeria Limited            | Substantial audit procedures |
| ADM Asset Holdings Limited (Dormant)     | Limited assurance review     |
| ADM Energy Services Limited (Dormant)    | Limited assurance review     |
| ADM 113 Limited                          | Limited assurance review     |
| Geo Estratos MXOil, SAPI de CV (Dormant) | Limited assurance review     |
| K.O.N.H. (UK) Limited (Dormant)          | Limited assurance review     |
| ADM 113 One Limited (Dormant)            | Limited assurance review     |
| ADM Energy USA Inc (Dormant)             | Limited assurance review     |
| Blade Oil V, LLC                         | Substantial audit procedures |

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                              |
|------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Rationale for performance materiality applied</b> | On the basis of our risk assessments, together with our assessment of the Group's overall control environment and going concern status, our judgement was that performance materiality was 70% of our financial statement materiality. In assessing the appropriate level, we consider the nature, the number and impact of the audit differences identified in the previous year's audit. | On the basis of our risk assessments, together with our assessment of the Company's overall control environment and going concern status, our judgement was that performance materiality was 70% of our financial statement materiality. In assessing the appropriate level, we consider the nature, the number and impact of the audit differences identified in the previous year's audit. |
| <b>Triviality threshold</b>                          | £6,200 (2022: £11,200)                                                                                                                                                                                                                                                                                                                                                                     | £1,900 (2022: £9,900)                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Basis for determining triviality threshold</b>    | 5% of materiality                                                                                                                                                                                                                                                                                                                                                                          | 5% of materiality                                                                                                                                                                                                                                                                                                                                                                            |

We reported all audit differences found in excess of our triviality threshold of £6,200 to the directors and the management board.

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. We also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

**Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit, and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Please refer to the Material uncertainty relating to going concern paragraph of this report to understand the key audit risk identified with respect to the Group's going concern. This is not a complete list of all risks identified by our audit.

| <b>Valuation/impairment of intangible assets of £5.08m (2022: £17.9m) and investment in subsidiaries of Nil (2022: £12.3m)</b> |                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Significance and nature of key risk</b>                                                                                     | <b>How our audit addressed the key risk</b>                                                                                                                                                                                        |
| Intangible assets relate to the Group's capitalised development costs and proportionate interest in the production             | We have closely examined the nature of items capitalised to ensure that these meet the definition of intangible assets under IAS 38. This included agreement to sale and purchase agreements as well as other supporting evidence. |

**INDEPENDENT AUDITOR REPORT  
TO THE SHAREHOLDERS OF ADM ENERGY PLC  
FOR THE YEAR ENDED 31 DECEMBER 2023**

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>assets covered under the joint operating agreement.</p> <p>Investment in subsidiaries relate to the Group's interest in the ADM 113's sole asset, which is its wholly owned subsidiary, P R Oil &amp; Gas Nigeria Limited ("PROG"), a Nigerian registered company which holds a 9.2% revenue interest in the OML 113 licence, offshore Nigeria, which includes the Aje Field ("Aje"), where oil production commenced in May 2016. During the year, the investment was impaired to nil.</p> <p>Due to the recognition requirements under IAS 38 there is inherent management judgement in the treatment of these as assets of the Group rather than expenses.</p> | <p>We have considered the Group's investment in subsidiaries in accordance with the requirements of IFRS 3, including the examination of relevant supporting evidence to gain comfort over the balance recognised.</p> <p>We have obtained management's assessment of the impairment of intangibles and the investment in subsidiaries. In analysing this we have considered external factors, such as the consideration received for transfer of interest in the license between other partners, to gain evidence of potential impairment in the value of the Group's holding – which is effectively represented in the financial statements by this intangible.</p> <p>We have considered the appropriateness of the valuation model used and agree this is reasonable given the nature of the underlying asset that these development costs relate to.</p> |
| <p><b>Key observations communicated to the Audit Committee</b></p> <p>Following our audit procedures, we concluded that material impairments were required with respect to the development costs related to the Aje investment capitalised in the consolidated statement of financial position of £12.6m. We also concluded that an impairment was required to the related investment in the in P R Oil &amp; Gas Nigeria Limited subsidiary of £12.3m. Following these adjustments, we have no concerns over the material accuracy of the remaining intangible asset values recognised in the financial statements.</p>                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <p><b>Valuation of liabilities in P R Oil &amp; Gas Nigeria Limited £1.3m (2022: £2.7m)</b></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <p><b>Significance and nature of key risk</b></p> <p>There are cost sharing obligations relating to the Group's interest in the OML 113 License, as specified in the joint operating agreement.</p> <p>These liabilities have increased with the acquisition of additional interest in the OML 113 license by the Group in recent years.</p> <p>There is a risk that the expense share reported to the group to be accrued for is materiality understated.</p>                                                                                                                                                                                                      | <p><b>How our audit addressed the key risk</b></p> <p>We have obtained reconciliations produced by the asset's operator directly from this third party and confirmed the Group's stated share to underlying signed contracts.</p> <p>The independence and competence of the operator was also assessed along with their control environment in place for the production of accurate financial reports for partners in the OML 113 License.</p> <p>We have confirmed that the specific audit of the operator's accounting for project costs was concluded in the financial year and that the results of this did not indicate increased risk of material misstatement of the Group's share of operating liabilities.</p>                                                                                                                                       |
| <p><b>Key observations communicated to the Audit Committee</b></p> <p>Following our audit procedures, we concluded that an adjustment of £1.4m was required to the OML 113 license liabilities. Following these adjustments, we have no concerns over the material accuracy of liabilities relating to OML 113 license operations recognised in the financial statements.</p>                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

**INDEPENDENT AUDITOR REPORT**  
**TO THE SHAREHOLDERS OF ADM ENERGY PLC**  
**FOR THE YEAR ENDED 31 DECEMBER 2023**

**Other information**

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Opinions on other matters prescribed by the Companies Act 2006**

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

**Matters on which we are required to report by exception**

In the light of our knowledge and understanding of the Group and parent company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

**Responsibilities of directors**

As explained more fully in the directors' responsibilities statement (set out on page 10), the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Group's and parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or parent company or to cease operations, or have no realistic alternative but to do so.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and

**INDEPENDENT AUDITOR REPORT  
TO THE SHAREHOLDERS OF ADM ENERGY PLC  
FOR THE YEAR ENDED 31 DECEMBER 2023**

are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

*Capability of the audit in detecting irregularities, including fraud*

Based on our understanding of the group and industry, and through discussion with the directors and other management (as required by auditing standards), we identified that the principal risks of non-compliance with laws and regulations related to health and safety, anti-bribery and employment law. We considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2006. We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to increase revenue or reduce expenditure, management bias in accounting estimates and judgemental areas of the financial statements such as the valuation of intangible assets. Audit procedures performed by the group engagement team included:

- Detailed discussions were held with management to identify any known or suspected instances of non-compliance with laws and regulations.
- Identifying and assessing the design effectiveness of controls that management has in place to prevent and detect fraud.
- Challenging assumptions and judgements made by management in its significant accounting estimates, including assessing the capabilities of management to consider sufficient impairment criteria in making their assessment over the value of intangible assets.
- Performing analytical procedures to identify any unusual or unexpected relationships, including related party transactions, that may indicate risks of material misstatement due to fraud.
- Confirmation of related parties with management, and review of transactions throughout the period to identify any previously undisclosed transactions with related parties outside the normal course of business.
- Reading minutes of meetings of those charged with governance and reviewing correspondence with relevant tax and regulatory authorities.
- Review of significant and unusual transactions and evaluation of the underlying financial rationale supporting the transactions.
- The cashbook used to create the initial financial information with respect to ADM Energy PLC and P R Oil & Gas Nigeria Limited was reviewed to ensure no entries in the cash book indicated fraudulent activity by management.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance.

As part of an audit in accordance with ISAs (UK), we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is

**INDEPENDENT AUDITOR REPORT**  
**TO THE SHAREHOLDERS OF ADM ENERGY PLC**  
**FOR THE YEAR ENDED 31 DECEMBER 2023**

sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the parent company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group or the parent company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Use of our Report**

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

The Company is a public limited company incorporated in the United Kingdom and its shares are listed on the AIM market of the London Stock Exchange. The Company also has secondary listings on the Quotation Board Segment of the Open Market of the Berlin Stock Exchange ("BER") and Xetra, the electronic trading platform of the Frankfurt Stock Exchange ("FSE").

The Company is an investing company, mainly investing in natural resources and oil and gas projects. The registered office and principal place of business of the Company is as detailed in the Company Information section of the report and accounts on page 3.

As permitted by section 408 of the Companies Act 2006, the profit and loss account of the company is not presented as part of these financial statements. The Company's total comprehensive loss for the financial year was £13.9 million (2022: £2.3 million).

### 2 PRINCIPAL ACCOUNTING POLICIES

The principal accounting policies in the preparation of these financial statements are set out below. These policies have been consistently applied throughout all periods presented in the financial statements.

As in prior periods, the Group and Parent Company financial statements have been prepared in accordance with International Financial Reporting Standards, International Accounting Standards and interpretations issued by the International Accounting Standards Board (IASB) UK-adopted International Financial Reporting Standards (adopted IFRSs). The financial statements have been prepared using the measurement bases specified by IFRS for each type of asset, liability, income and expense. The measurement bases are more fully described in the accounting policies below.

The current period covered by these financial statements is the year to 31 December 2023. The comparative figures relate to the year ended 31 December 2022. The financial statements are presented in pounds sterling (£) which is the functional currency of the Group.

An overview of standards, amendments and interpretations to IFRSs issued but not yet effective, and which have not been adopted early by the Group are presented below under 'Statement of Compliance'.

---

#### GOING CONCERN

The Group and Company financial statements have been prepared under the going concern assumption, which presumes that the Group and Company will be able to meet its obligations as they fall due for the foreseeable future.

The group made a loss before tax of £17,799,000, had net current liabilities of £2,682,000, had negative equity of £5,108,000 and had net operating cash outflow of £726,000 for the year. In assessing whether the going concern assumption is appropriate, the Directors take into account all available information for the foreseeable future, in particular for the twelve months from the date of approval of the financial statements. This information includes growing revenue opportunities, management prepared cash flows forecasts, the group's current cash balances, the group's existing and projected monthly running costs and need for further fundings.

Following this assessment, the directors have reasonable expectation that the group can secure adequate liquidity to continue for the foreseeable future through further funding. The Directors therefore have made an informed judgement at the time of approving the financial statements that there is a reasonable expectation that the group has adequate resources to continue in operational existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the financial statements.

Whilst the directors are confident, there is no absolute guarantee that such funding and payment plan would be secured within the required timelines and therefore indicates that a material uncertainty exists that may cast significant doubt on the group's ability to continue as a going concern and, therefore the group and company may be unable to realise their assets and discharge their liabilities in the normal course of business. The auditors have included material uncertainty in relation to going concern in the audit opinion.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

### STATEMENT OF COMPLIANCE

The financial statements of the Group and Company have been prepared in accordance with UK-adopted international accounting standards and with the requirements of the Companies Act 2006.

The Group's and Company's financial statements for the year ended 31 December 2023 were approved and authorised for issue by the Board of Directors on 30 December 2024 and the Statements of Financial Position were signed on behalf of the Board by Stefan Olivier.

Both the Parent Company financial statements and the Group financial statements give a true and fair view and have been prepared and approved by the Directors in accordance with UK-adopted international accounting standards and with the requirements of the Companies Act 2006.

New standards, amendments and interpretations adopted by the Company.

The following new standards have come into effect this year however they have no impact on the Group:

| Standard             | Description                                                                                                                                           | Effective date |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| IAS 1 amendments     | Non-current Liabilities with Covenants; and Classification of Liabilities as Current or Non-current                                                   | 1 January 2024 |
| IFRS 17              | IFRS 17 will replace IFRS 4 Insurance Contracts,                                                                                                      | 1 January 2024 |
| Amendments to IAS 8  | Accounting Policies, Changes in Accounting Estimates and Errors                                                                                       | 1 January 2024 |
| Amendments to IAS 12 | Introduces an exception to the "initial recognition exemption" when the transaction gives rise to equal taxable and deductible temporary differences. | 1 January 2024 |

The following amendment is effective for the period beginning 1 July 2024:

| Standard            | Description             | Effective date |
|---------------------|-------------------------|----------------|
| IAS 21 (Amendments) | Lack of Exchangeability | 1 January 2025 |

There are no IFRS's or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company or Group.

### KEY ESTIMATES AND ASSUMPTIONS

Estimates and assumptions used in preparing the financial statements are reviewed on an ongoing basis and are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The results of these estimates and assumptions form the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Judgement also applies in determining whether costs associated with contingent liabilities can be reliably estimated or not and the extent to which it is appropriate to make disclosure in this area.

### USEFUL ECONOMIC LIFE OF INTANGIBLE ASSETS

The Group's intangible assets relate to oil field development expenditure which is considered capital in nature. Intangible assets are amortised over their useful economic life in accordance with the expected pattern of consumption of the benefits arising from the Group's interest in OML 113 license (the Unit of Production method). The timing and pattern of production represents an estimation made with reference to according research performed by third parties and the Directors assessment of the timing and level of activity over the life of developed assets.

Note 25 summaries the acquisition of Blade Oil V, LLC and the return of some of the leases back to the seller. This resulted in Blade Oil V, LLC's remaining lease, Altoona, being recognised as an exploration asset under intangibles. Intangible assets such as this are with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses, £280,000 (2022: nil)

### IMPAIRMENT OF INTANGIBLE ASSETS

Note 10 summarises the cumulative cost less amortisation of the Group's indirect investment in the Aje Field (OML 113). During the year, the Directors noted indicators of impairment related to this asset. They have therefore reviewed the

**NOTES TO THE FINANCIAL STATEMENTS**

FOR THE YEAR ENDED 31 December 2023

value of the Group's proportionate share of the Aje fixed assets (which as a cash generating unit is represented by the intangible asset relating to the cumulative cost of its acquisition and funding of its interest in the Aje Field) and have determined that it is appropriate to impair the asset by £12,619,000 (2022: nil) down to nil as oil production has ceased here. This therefore resulted in the investment in PR Oil & Gas Nigeria Ltd being impaired to nil as this company holds the Aje Field.

**CONTINGENT CONSIDERATION**

Note 26 summaries the contingent consideration of £765,000 (2022: nil) recognised as part of the purchase price of Blade Oil V, LLC. The assessment of contingent considerations inherently involves the exercise of significant judgment and estimates of the outcome of future events. This judgement involves the Directors making assessment as to whether an economic outflow relating to a past event is considered probable, possible or remote, and the extent to which its outcome can be reliably estimated.

**CONTINGENT LIABILITIES**

The assessment of contingent liabilities inherently involves the exercise of significant judgment and estimates of the outcome of future events. This judgement involves the Directors making assessment as to whether an economic outflow relating to a past event is considered probable, possible or remote, and the extent to which its outcome can be reliably estimated. In making this judgement, the Directors make reference to correspondence with parties relevant to the contingent liability and make their own assessment of whether they have sufficient information from such correspondence to reliably predict an outcome.

**INVESTMENTS HELD FOR TRADING**

Investments held for trading are held at fair value through profit and loss. At both reporting dates they are considered to be Level 3 investments whereby their valuation is determined by whole or in part using valuation techniques based on assumptions that are not supported by observable prices in comparable market transactions in the same instrument or similar observable data.

The Directors regularly review the valuation of such investments against both ongoing results of the business in which it has made investments and the price at which any further investment has taken place if such investment is considered to give sufficient and appropriate indication of fair value. The investment in Superdielectrics Ltd has been impaired by £28,000 (2022: nil) to nil during the year.

**DECOMMISSIONING PROVISION**

Decommissioning costs will be incurred by the Group, in accordance with the terms of the Joint Operating Agreement, at the end of the operating life of the production facilities associated with the Group's interest in OML 113. The Group assesses its retirement obligation at each reporting date. The ultimate asset retirement costs are uncertain and cost estimates can vary in response to many factors, including changes to relevant legal requirements, the emergence of new restoration techniques or experience at other production sites. The expected timing, extent and amount of expenditure can also change, for example in response to changes in reserves or changes in laws and regulations or their interpretation. Therefore, significant estimates and assumptions are made in determining the provision for asset retirement obligation. As a result, there could be significant adjustments to the provisions established which would affect future financial results. The provision at reporting date represents management's best estimate of the present value of the future asset retirement costs required using an annual discount rate of 10%. The provision during the year increased by £147,000, (2022: £138,000).

**SHARE BASED PAYMENTS**

The Group has made awards of options and warrants over its unissued share capital to certain Directors, employees and professional advisers as part of their remuneration.

The fair value of options and warrants are determined by reference to the fair value of the options and warrants granted, excluding the impact of any non-market vesting conditions. In accordance with IFRS 2 'Share Based Payments', the Group has recognised the fair value of options and warrants, calculated using the Black-Scholes option pricing model. The Directors apply this model on the basis that there are considered to be no performance obligations included within these issued options. The share based payment charge for the year was £33,211 (2022: £2,000). The Directors have made assumptions particularly regarding the volatility of the share price at the grant date in order to reach a fair value. Further information is disclosed in Note 21.

**GOING CONCERN**

See note 2, Going Concern accounting policy.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

### ACCOUNTING POLICIES

#### REVENUE RECOGNITION

The Group follows IFRS 15. The standard provides a single comprehensive model for revenue recognition in a 5 step process.

1. Identify all contract(s) with customers and ensure that these are clearly documented.

The group hold a signed agreement confirming their interest in the OML 113 license. These details the revenue and cost sharing arrangements in place.

2. Identify separate performance obligations in a contract. Will a contract need to be 'unbundled' into two or more components? Alternatively, will two or more contracts need to be 'bundled' into a single overall obligation?

There is no performance obligation as such on ADM's part. The contract in place gives them legal rights to their share of the revenues in the operations relating to the OML 113 license in the financial year as calculated by the 3rd party operations and management company.

3. Determine the transaction price.

The transaction price is the calculated share of revenues in the financial period which are to be allocated to ADM. This calculation is based on ADM's interest in the OML 113 license in the period.

Therefore, there is no pre-set transaction price as this is a derived return from the performance of the underlying asset under the OML 113 license in the year.

4. Is revenue recognised at a single point in time, or over a period of time?

Revenue theoretically accrues over the course of the financial period based on the performance of the asset. In practice this revenue is recognised in the group as a year end adjustment as the final revenue posting is made based on the billing statement provided by the 3rd party operations and management company. This billing statement covered the entire financial year.

5. If revenue is recognised over time, how should progress towards completion be measured and recognised?

As above – revenues relate to performance of the asset in the year. However, in terms of final accounting the revenue is recognised at a single point in time as part of the YE adjustments following the receipt of the 3rd party billing statement.

**NOTES TO THE FINANCIAL STATEMENTS**

FOR THE YEAR ENDED 31 December 2023

**TAXATION****UK taxes**

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting period, that are unpaid at the statement of financial position date. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable result for the year. All changes to current tax assets or liabilities are recognised as a component of tax expense in the income statement.

Deferred income taxes are calculated using the liability method on temporary differences. This involves the comparison of the carrying amounts of assets and liabilities in the consolidated financial statements with their respective tax bases. However, deferred tax is not provided on the initial recognition of goodwill, nor on the initial recognition of an asset or liability, unless the related transaction is a business combination or affects tax or accounting profit. In addition, tax losses available to be carried forward as well as other income tax credits to the Group are assessed for recognition as deferred tax assets.

Deferred income taxes are calculated using the liability method on temporary differences. This involves the comparison of the carrying amounts of assets and liabilities in the consolidated financial statements with their respective tax bases. However, deferred tax is not provided on the initial recognition of goodwill, nor on the initial recognition of an asset or liability, unless the related transaction is a business combination or affects tax or accounting profit. In addition, tax losses available to be carried forward as well as other income tax credits to the Group are assessed for recognition as deferred tax assets.

Deferred tax liabilities are always provided for in full. Deferred tax assets are recognised to the extent that it is probable that they will be able to be offset against future taxable income. Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realisation, provided they are enacted or substantively enacted at the statement of financial position date.

Most changes in deferred tax assets or liabilities are recognised as a component of tax expense in the income statement. Only changes in deferred tax assets or liabilities that relate to a change in value of assets or liabilities that is charged directly to equity are charged or credited directly to equity.

**Nigerian taxes**

The Company's subsidiary, P R Oil & Gas Nigeria Ltd operates offshore Nigeria and is subject to the tax regulations of that country.

Current income tax assets and liabilities for current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws are those that are enacted or substantially enacted at the reporting date. The Company engaged in exploration and production of crude oil (upstream activity). Therefore, its profits are taxable under the Petroleum Profit Tax Act.

**US taxes**

The Company's subsidiary, ADM Energy USA Inc operates in the USA and is subject to the tax regulations of that country.

Current income tax assets and liabilities for current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws are those that are enacted or substantially enacted at the reporting date. The Company engaged in exploration and production of crude oil (upstream activity). Therefore, its profits are taxable under the relevant federal tax codes of the Internal Revenue Service as well as under the relevant state tax codes of the State of California.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

### INTANGIBLE ASSETS

Intangible assets relate to the Group's capitalised Exploration & Evaluation (E&E) costs and proportionate interest in the production assets of joint operations (development costs).

The share of development costs incurred on specific projects are capitalised when all the following conditions are satisfied:

- completion of the asset is technically feasible so that it will be available for use or sale
- the Group intends to complete the asset and use or sell it
- the Group has the ability to use or sell the asset
- the asset will generate probable future economic benefits
- there are adequate technical, financial and other resources to complete the development and to use or sell the asset, and
- the expenditure attributable to the asset during its development can be measured reliably.

Other development expenditure that does not meet these criteria is recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. There were no development costs recognised as an expense during the year (2022: £Nil). The interest in the Altoona lease has been recognised as an E&E asset on consolidation.

Intangible assets are amortised as the benefits associated with them are consumed.

### IMPAIRMENT OF INTANGIBLE ASSETS

Proven oil and gas properties and intangible assets are reviewed annually for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The carrying value is compared against the expected recoverable amount of the asset, generally by net present value of the future net cash flows, expected to be derived from production of commercial reserves or consideration expected to be achieved through the sale of its interest in an arms-length transaction, less any associated costs to sell. The cash generating unit applied for impairment test purposes is generally the field and the Group's interest in its underlying assets, except that a number of field interests may be grouped together where there are common facilities.

### FINANCIAL ASSETS

Financial assets are recognised in the Group's statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

The Group's financial assets are classified into the following specific categories: 'Investments measured at fair value through other comprehensive income', 'investments held for trading', and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

All Trade receivables, loans, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

### INVESTMENTS MEASURED AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

Financial assets measured at fair value through other comprehensive income are designated as Fixed Asset Investments and are recognised on the Balance Sheet when the Group becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and carried at fair value.

Fair value gains or losses are recognised and posted to Other Comprehensive Income and held in the Financial Instruments Revaluation Reserve. Fair value measurements and techniques are set out in the accounting policy on page 39 and referred to in Financial Assets Measured at Fair Value through Profit and Loss. Financial Assets Revaluation Reserve is included in Other Reserves in Equity

### INVESTMENTS HELD FOR TRADING

All investments determined upon initial recognition as held at fair value through profit or loss were designated as investments held for trading. Investment transactions are accounted for on a trade date basis. Assets are de-recognised at the trade date of the disposal. Assets are sold at their fair value, which comprises the proceeds of sale less any transaction cost. The fair value of the financial instruments in the statement of financial position is based on the quoted bid price at the statement of financial position date, with no deduction for any estimated future selling cost. Unquoted investments are valued by the directors using primary valuation techniques such as recent transactions, last price at which shares have been issued and net asset value. Changes in the fair value of investments held at fair value through profit or loss and gains and losses on disposal are recognised in the consolidated statement of comprehensive income as "Net gains on investments". Investments are initially measured at fair value plus incidental acquisition costs. Subsequently, they are measured at fair value in accordance with IFRS 9 Financial Instruments. This is either the bid price or the last traded price, depending on the convention of the exchange on which the investment is quoted.

### INVESTMENTS IN ASSOCIATES

The Group accounts for investments in associates in accordance with IAS 28. An associate is an entity over which the Group has significant influence but does not have control or joint control, typically evidenced by holding between 20% and 50% of the voting power of the investee. Investments in associates are initially recognised at cost. Subsequently, the carrying amount is adjusted to recognise the Group's share of the associate's post-acquisition profits or losses, and other comprehensive income. The carrying amount of investments in associates is tested for impairment whenever there is an indication that the investment may be impaired. Impairment losses are recognised in the statement of profit and loss.

### INVENTORY

Inventory comprises stock of unsold oil in storage and is valued at the lower of cost and net realisable value.

### BASIS OF CONSOLIDATION

The consolidated financial statements present the results of ADM Energy plc and its subsidiaries ("the Group") as if they formed a single entity. Intercompany transactions and balances between Group companies are therefore eliminated in full. The consolidated financial statements incorporate the results of business combinations using the purchase method. In the Statement of Financial Position, the acquiree's identifiable assets, liabilities and contingent liabilities are initially recognised at their fair values at the acquisition date. The results of acquired operations are included in the Consolidated Income Statement

The company has the following subsidiaries which were effectively dormant in the current and prior period and are considered to be highly immaterial to the Group's financial statements. As such these subsidiaries have not been included in the consolidated financial statements:

- Geo Estratos MXOil, SAPI de CV
- ADM Asset Holdings Limited
- ADM Energy Services Limited
- ADM 113 Limited BVI
- K.O.N.H. (UK) Limited
- ADM 113 One Limited

**NOTES TO THE FINANCIAL STATEMENTS**

FOR THE YEAR ENDED 31 December 2023

**JOINT OPERATIONS (OML 113 OPERATING AGREEMENT)**

The Group has a 9.2% profit share and 12.3% cost share in the OML 113 operating licence. The operating agreement for OML 113 is a joint arrangement, with the fundamental decisions requiring unanimity between the partners. Other decisions require a qualified majority decision. As no corporate entity exists the agreement cannot be considered to meet the definition of a joint venture.

In relation to its interests in the OML 113 operations, the Group recognises:

- The fair value of the Group's share of the underlying assets of the joint operation (classified as intangible assets), measured at historical cost less amortisation and impairment.
- Amounts owed in respect of the joint operating agreement
- Revenue from the sale of its share of the output arising from the joint operation
- Expenses, including its share of any expenses incurred jointly

**CASH AND CASH EQUIVALENTS**

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

**EQUITY**

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received net of direct issue costs.

Equity comprises the following:

- Share capital represents the nominal value of equity shares issued.
- The share premium account represents premiums received on the initial issuing of the share capital. Any transaction costs associated with the issuing of shares are deducted from share premium, net of any related income tax benefits.
- Option reserve represents the cumulative cost of share based payments in respect of options granted.
- Warrant reserve represents the cumulative cost of share based payments in respect of warrants issued.
- Convertible loan note reserve represents the equity portion of convertible loan notes issued.
- Currency translation reserve is used to recognise foreign currency exchange differences arising on translation of functional currency to presentation currency.

Retained earnings include all current and prior period results as disclosed in the statement of comprehensive income.

**FINANCIAL LIABILITIES**

Financial liabilities are recognised in the Group's statement of financial position when the Group becomes a party to the contractual provisions of the instrument. All interest related charges are recognised as an expense in finance cost in the income statement using the effective interest rate method.

The Group's financial liabilities comprise trade and other payables.

Trade payables are recognised initially at their fair value and subsequently measured at amortised cost less settlement payments.

**DECOMMISSIONING LIABILITY**

A decommissioning liability is recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of obligation can be made. A corresponding amount equivalent to the obligation is also recognised as part of the cost of the related production plant and equipment. The amount recognised is the estimated cost of decommissioning, discounted to its present value, using a discount rate of 10%. Changes in the estimated timing of decommissioning cost estimates are dealt with prospectively by recording an adjustment to the provision, and a corresponding adjustment to production plant and equipment. The unwinding of the discount on the decommissioning provision will be included in the income statement.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

### CONTINGENT LIABILITIES

Contingent liabilities are possible obligations arising from past events whose existence will be confirmed by uncertain future events that are not wholly within the control of the Group. Contingent liabilities also include obligations that are not recognised because their amount cannot be measured reliably or because settlement is not probable.

Unless the possibility of an outflow of economic resources is remote a contingent liability is disclosed in the notes.

### SHARE BASED PAYMENTS

Where share options are awarded, or warrants issued to employees, the fair value of the options/warrants at the date of grant is charged to the statement of comprehensive income over the vesting period. Non-market vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each reporting date so that, ultimately, the cumulative amount recognized over the vesting period is based on the number of options/warrants that eventually vest. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether the market vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition.

Where warrants or options are issued for services provided to the Group, including financing, the fair value of the service is charged to the statement of comprehensive income or against share premium where the warrants or options were issued in exchange for services in connection with share issues. Where the fair value of the services cannot be reliably measured, the service is valued using Black Scholes valuation methodology taking into consideration the market and non-market conditions described above.

Where the share options are cancelled before they vest, the remaining unvested fair value is immediately charged to the statement of comprehensive income.

### FOREIGN CURRENCIES

The Directors consider Sterling to be the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in Sterling, which is the Group's functional and presentation currency.

Foreign currency transactions are translated into Sterling using the exchange rates prevailing at the date of the transactions. Foreign currency exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in the income statement. Non-monetary items that are measured at historical costs in a foreign currency are translated at the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated into the functional currency using the exchange rates at the date when the fair value was determined.

### SEGMENTAL REPORTING

A segment is a distinguishable component of the Group's activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Group's chief operating decision maker to make decisions about the allocation of resources and assessment of performance and about which discrete financial information is available.

As the chief operating decision maker reviews financial information for and makes decisions about the Group's investment activities as a whole, the directors have identified a single operating segment, that of holding and trading in investments in natural resources, minerals, metals, and oil and gas projects. The Directors consider that it would not be appropriate to disclose any geographical analysis of the Group's investments.

No segmental analysis has been provided in the financial statements as, for the period ending 31 December 2023, the investment in OFX Technologies, Inc, is recorded on an equity basis and no material activity occurred related to the Blade Oil V, LLC assets prior to the unwind of this transaction. Therefore, the Directors consider that the Group's operations were substantially comprised of one segment, the Group's activities related to OML-113.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

**3 REVENUE**

The Group has a share in an oil and gas licence offshore Nigeria and all the Group's revenue is derived from this source.

|                                                               | <b>2023</b>  | 2022  |

|                                                                | <b>243</b>   | 515   |

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

**Directors' remuneration:**

|                                         |            |            |
|-----------------------------------------|------------|------------|
| Wages and salaries (including benefits) | 253        | 466        |
| Pensions                                | 19         | -          |
| Social security costs                   | 71         | 26         |
|                                         | <b>343</b> | <b>492</b> |

Further details of Directors' remuneration are included in the Report on Directors' Remuneration on page 18.

Only the directors are deemed to be key management, there are no employees and no employee remuneration. The average number of employees (including directors) in the Group was 6 (2022:6).

**7 INCOME TAX EXPENSE**

|                                                                                      | 2023<br>£'000         | 2022<br>£'000         |
|--------------------------------------------------------------------------------------|-----------------------|-----------------------|
| Current tax – ordinary activities                                                    | –                     | –                     |
|                                                                                      | <b>2023<br/>£'000</b> | <b>2022<br/>£'000</b> |
| Loss before tax from ordinary activities                                             | <b>(17,799)</b>       | <b>(2,122)</b>        |
| Loss before tax multiplied by rate of corporation tax in the UK of 23.5% (2022: 19%) | <b>(4,183)</b>        | <b>(403)</b>          |
| Effect of tax rates in foreign jurisdictions                                         | <b>2,184</b>          | <b>-</b>              |
| Expenses not deductible for tax purposes                                             | <b>2,537</b>          | <b>23</b>             |
| Unrelieved tax losses carried forward                                                | <b>(538)</b>          | <b>380</b>            |
| Total tax charge for the year                                                        | <b>–</b>              | <b>–</b>              |

The corporation tax assessed for the year is different from that at the standard rate of corporation tax in the United Kingdom of 23.5% (2022: 19%).

No deferred tax asset has been recognised in respect of the Group's losses as the timing of their recoverability is uncertain.

**8 EARNINGS AND NET ASSET VALUE PER SHARE****Earnings**

The basic and diluted earnings per share is calculated by dividing the loss attributable to owners of the Group by the weighted average number of ordinary shares in issue during the year.

|                                                                                              | 2023<br>£'000      | 2022<br>£'000      |
|----------------------------------------------------------------------------------------------|--------------------|--------------------|
| Loss attributable to owners of the Group                                                     |                    |                    |
| - Continuing operations                                                                      | <b>(17,799)</b>    | <b>(2,122)</b>     |
| Continuing and discontinued operations                                                       | <b>(17,799)</b>    | <b>(2,122)</b>     |
|                                                                                              | <b>2023</b>        | <b>2022</b>        |
| Weighted average number of shares for calculating basic and fully diluted earnings per share | <b>352,852,268</b> | <b>252,369,021</b> |

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

|                                                     | 2023  | 2022  |
|-----------------------------------------------------|-------|-------|
|                                                     | Pence | pence |
| <b>Earnings per share:</b>                          |       |       |
| Loss per share from continuing and total operations | (5.0) | (0.8) |

As the result for the year was a loss, the basic and diluted loss per share are the same. The weighted average number of shares used for calculating the diluted loss per share for 2023 and 2022 was the same as that used for calculating the basic loss per share as the effect of exercise of the outstanding share options was anti-dilutive.

## 9 OTHER OPERATING LOSSES

|                                                | GROUP |       | COMPANY |       |
|------------------------------------------------|-------|-------|---------|-------|

| Gain on settlement of OFX Holdings, LLC loan   | 65    | -     | -       | -     |
| Total                                          | 1,020 | -     | -       | -     |

## 10 INTANGIBLE ASSETS

## GROUP

The brought forward intangible asset relates to the Group's 9.2% revenue interest (12.3% cost share) in the OML 113 licence, which includes the Aje Field ("Aje") and the further costs of bringing the Aje 4 and Aje 5 wells into production.

During the year, 32.08% share of OML 113 was purchased by a third party for a consideration of \$6,000,000. This was compared to the carrying value of the Company's share of OML 113 of £17,899,000 and was impaired down to the corresponding value of the Company's share of OML113, £4,803,000. A further impairment assessment was carried out and Aje was impaired by £4,606,013.

Acquisition of Blade V

During the year, the Company purchased 100% of the membership interest of Blade Oil V, LLC. The lease and goodwill from the acquisition has been recognised as an exploration asset in intangibles. Further details around this balance can be found in note 25.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

|                                    |               |        |
|------------------------------------|---------------|--------|
| At 31 December 2023                | <b>22,400</b> | 5,820  |
| Net book value at 31 December 2023 | <b>357</b>    | 17,899 |

Development costs are amortised on a useful economic basis which is aligned with output in a given financial period compared to total proven and possible production.

**11 INVESTMENT IN SUBSIDIARIES**

ADM Energy PLC (the Company) together with its below mentioned subsidiaries are the Group.

On 10 August 2016, the Group completed the agreement for the acquisition of Jacka Resources Nigeria Holdings Limited, now renamed ADM 113 Limited ("ADM 113"), a BVI registered company, in which Jacka Resources Limited ("JRL") held the single issued share. ADM 113's sole asset is its wholly owned subsidiary, P R Oil & Gas Nigeria Limited ("PROG"), a Nigerian registered company which holds a 9.2% revenue interest in the OML 113 licence, offshore Nigeria, which includes the Aje Field ("Aje"), where oil production commenced in May 2016. During the year, the investment was impaired to nil.

In April 2021 the Group acquired 51% of the equity in K.O.N.H. (UK) Limited for a nominal fee.

On 1 May 2023, the Group acquired 100% of the equity of Blade Oil V, LLC for £668,416. Further details can be found in note 25.

**12 INVESTMENT IN ASSOCIATES**

On 1 November 2023, the Group acquired 53% of the equity of OFX Technologies, LLC for £1,062,148. Of this amount, £860,355 was recognised as share consideration for 86,035,489 ordinary shares of 1p each. The shareholding subsequently dropped to 46.8%. By virtue of its shareholding, ADM owned 46% of the voting rights of OXFT and 51.2% of the non-voting right. Therefore, the investment in OFX Technologies, LLC has been recognised as an associate using the equity method of accounting.

|                                     | 2023<br>£'000 | 2022<br>£'000 |

**13 INVESTMENTS HELD FOR TRADING**

The table of investments sets out the fair value measurements using the IFRS 7 fair value hierarchy. Categorisation within the hierarchy has been determined on the basis of the lowest level of input that is significant to the fair value measurement of the relevant asset.

The investments held by the Group are designated as at fair value through profit or loss.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

The table of investments sets out the fair value measurements using the IFRS 7 fair value hierarchy. Categorisation within the hierarchy has been determined on the basis of the lowest level of input that is significant to the fair value measurement of the relevant asset as follows:

Level 1 valued using quoted prices in active markets for identical assets.

Level 2 valued by reference to valuation techniques using observable inputs other than quoted prices included within Level 1.

Level 3 valued by reference to valuation techniques using inputs that are not based on observable market data.

The valuation techniques used by the company are explained in the accounting policy note, "Financial assets held at fair value through profit and loss". There are no Level 1 and Level 2 investments.

**14 INVENTORY**

|                 | GROUP |       | COMPANY |       |
|-----------------|-------|-------|---------|-------|
|                 | 2023  | 2022  | 2023    | 2022  |
|                 | £'000 | £'000 | £'000   | £'000 |
| Inventory       | -     | 36    | -       | -     |
| Total inventory | -     | 36    | -       | -     |

Inventory represents the Group's share of the stock of oil lifted but unsold, stated at the lower of cost and market value. £36,000 was recognised as an expense during the year (2022 £Nil) as the inventory was unsaleable and written off during the year.

**15 TRADE AND OTHER RECEIVABLES**

|                                | GROUP |       | COMPANY |       |
|--------------------------------|-------|-------|---------|-------|
|                                | 2023  | 2022  | 2023    | 2022  |
|                                | £'000 | £'000 | £'000   | £'000 |
| Other receivables              | 13    | 18    | 13      | 13    |
| Prepayments and accrued income | 5     | 4     | 5       | 4     |
|                                | 18    | 22    | 18      | 17    |

The fair value of other receivables is considered by the Directors not to be materially different to carrying amounts. At the date of the Statement of Financial Position in 2023 and 2022 there were no trade receivables.

**16 CASH AND CASH EQUIVALENTS**

|                           | GROUP |       | COMPANY |       |

| Tax and social security                               | 352          | 414          | 352          | 414          |
| Other payables                                        | 29           | 38           | 30           | 38           |
| Short term loan finance                               | 155          | 170          | 155          | 170          |
| Accruals and deferred income                          | 574          | 735          | 543          | 702          |
| Contingent consideration                              | 495          | -            | 495          | -            |
|                                                       | <b>2,273</b> | <b>2,240</b> | <b>2,235</b> | <b>2,207</b> |
| <b>NON-CURRENT PAYABLES</b>                           |              |              |              |              |
| Amount owed in respect of OML 113 operating agreement | 1,303        | 2,718        | -            | -            |
| Long term loan finance                                | 283          | -            | 282          | -            |
|                                                       | <b>1,586</b> | <b>2,718</b> | <b>282</b>   | <b>-</b>     |
| Total current and non current payables                | <b>3,859</b> | <b>4,958</b> | <b>2,517</b> | <b>2,207</b> |

It is expected that the amount owed in relation to the Group's proportionate share of costs incurred as part of the OML 113 joint operating agreement will be offset against net revenues of the project.

The long term loan finance from Hessia Group Limited, is accruing interest at £200 per day. The principle loan amount was £120,000 and was originally due to be repaid by 29 August 2022. A default payment of £10,000 has been charged as the repayment date was missed, and an additional £60,000 has been charged as a finance fee.

The fair value of trade and other payables is considered by the Directors not to be materially different to carrying amounts.

## 18 BORROWINGS

## Convertible loans ("CLNs")

On 25 May 2023, the Company issued secured convertible loan notes for up to \$1,500,000. The loan notes carry an interest rate of 15% per annum. Other key terms of the secured convertible loan notes are as follows:

- Date of maturity of 3 years
- Repayment in cash on the maturity date
- Conversion can take place at any time at 1p per share
- 12 months after completion, the loan will convert up to 29.9% of the Company's total shares

The net proceeds received from the issue of the CLNs have been split between the liability element and an equity component, representing the fair value of the embedded option to convert the liability into equity of the Group, as follows:

|                                    | GROUP AND COMPANY |          |
|------------------------------------|-------------------|----------|
|                                    | 2023              | 2022     |
|                                    | £'000             | £'000    |
| Liability component at 1 January   | -                 | 212      |
| Nominal value of convertible Loans | 450               | -        |
| Equity component                   | (41)              | -        |
| Interest charged                   | 18                | 9        |

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

|                                                                                                                                                                                   |              |       |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-------|
|                                                                                                                                                                                   | <b>427</b>   | -     |
| The interest charged for the year is calculated by applying an effective average interest rate of 15% to the liability component for the period since the loan notes were issued. |              |       |
| <b>Other borrowings (non-current)</b>                                                                                                                                             |              |       |
|                                                                                                                                                                                   | <b>2023</b>  | 2022  |
|                                                                                                                                                                                   | <b>£'000</b> | £'000 |
| Other loans                                                                                                                                                                       | <b>638</b>   | 287   |

£285,000 (2022: £247,000) of other borrowings is non-interest bearing and its repayment date was 15 May 2023. As this date has lapsed, interest is now accruing at 2% per month. The loan agreement gives the Group the right to convert the balance owed into shares at the ruling market rate at any time during the remaining term of the loan at the discretion of the Group. The loan is treated as a liability because while the value of equity to be issued on conversion is fixed, the number of shares is variable, meaning it meets the definition of a financial liability as set out by IFRS 9. The balance of other borrowings, £353,000 (2022: £40,000), is a loan that carries interest at 15% (2022: 6%) p.a and is repayable in full on 31 December 2025 (2022: 28 October 2024).

## 19 DECOMMISSIONING PROVISION

In accordance with the agreements and legislation, the wellheads, production assets, pipelines and other installations may have to be dismantled and removed from oil and natural gas fields when the production has ceased. The exact timing of the obligations is uncertain and depends on the rate the reserves of the field are depleted. However, based on the existing production profile of the OML 113 licence area and the size of the reserves, it is expected that expenditure on retirement is likely to be after more than ten years. The current basis for the provision is a discount rate of 10%.

The following table presents a reconciliation of the beginning and ending aggregate amounts of the obligations associated with the decommissioning of oil and natural gas properties

|                                                  |              |       |
|--------------------------------------------------|--------------|-------|

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

### 22 SHARE OPTIONS & WARRANTS

#### Options issued during the year ended 31 December 2023

On 25 May 2023, the Company issued 44,374,630 share options to Directors and employees. The options are exercisable at 1.2p per share for a period of 5 years from the date of issue.

#### Warrants issued during the year ended 31 December 2023

On 1 November 2023, the Company issued 39,959,017 investor warrants and 16,000,000 incentive warrants. The warrants are exercisable at 1p per share for a period of 3 years from the date of issue.

On 9 November 2023, the Company issued 34,410,000 warrants in respect of the debt restructure. The warrants are exercisable at 1.5p per share for a period of 3 years from the date of issue.

#### Warrants issued during the year ended 31 December 2022

In the following paragraphs the number of warrants issued prior to 31 December 2022 have been adjusted to reflect the 1 for 100 share consolidation.

On 26 January 2022, the Company issued 15,300,000 share warrants to subscribers in respect of a private placing. The warrants are exercisable at 4.5p per share for a period of 2 years from the date of issue.

The fair value of the share options and warrants at the date of issue was calculated by reference to the Black-Scholes model. The significant inputs to the model in respect of the warrants issued in the year were as follows:

| Issue date                      | 25 May 2023       | 1 November 2023   | 9 November 2023   | 26 January 2022 |
|---------------------------------|-------------------|-------------------|-------------------|-----------------|
| Issue date share price          | 0.68p             | 0.5p              | 0.5p              | 1.11p           |
| Exercise price per share        | 1.2p              | 1p                | 1.5p              | 4.5p            |
| No. of options/warrants         | <b>44,374,630</b> | <b>55,959,017</b> | <b>34,410,000</b> | 15,300,000      |
| Risk free rate                  | 2%                | 2%                | 2%                | 1%              |
| Expected volatility             | 50%               | 50%               | 50%               | 50%             |
| Expected life of option/warrant | 5 years           | 3 years           | 3 years           | 2 years         |
| Calculated fair value per share | 0.1968p           | 0.076p            | 0.038p            | 0.0144p         |

The share warrants outstanding at 31 December 2023 and their weighted average exercise price are as follows:

|                            | 2023                            |             | 2022                            |         |
|----------------------------|---------------------------------|-------------|---------------------------------|---------|
|                            | Weighted average exercise price |             | Weighted average exercise price |         |
|                            | Number                          | (pence)     | Number                          | (pence) |
| Outstanding at 1 January   | <b>38,076,372</b>               | <b>4.89</b> | 31,581,012                      | 5.15    |
| Issued                     | <b>97,369,017</b>               | <b>0.72</b> | 15,300,000                      | 4.50    |
| Lapsed or cancelled        | <b>(7,000,000)</b>              | –           | (8,804,640)                     | –       |
| Outstanding at 31 December | <b>128,445,389</b>              | <b>2.99</b> | 38,076,372                      | 4.89    |

The fair value of the share warrants recognised as part of the premium paid in respect of the share subscriptions in the year was £15,586. This amount was credited to the share warrant reserve and of this £10,175 (2022: nil) was recognised in the profit and loss account as these warrants were issued in exchange for credit facility fees. In 2022, £2,000 was recognised in

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

the financial statements as the fair value of warrants issued.

## 23 RISK MANAGEMENT OBJECTIVES AND POLICIES

### CAPITAL RISK MANAGEMENT

The Group's objectives when managing capital are:

- to safeguard the Group's ability to continue as a going concern, so that it continues to provide returns and benefits for shareholders;
- to support the Group's growth; and
- to provide capital for the purpose of strengthening the Group's risk management capability.

The Group actively and regularly reviews and manages its capital structure to ensure an optimal capital structure and equity holder returns, taking into consideration the future capital requirements of the Group and capital efficiency, prevailing and projected profitability, projected operating cash flows, projected capital expenditures and projected strategic investment opportunities. Management regards total equity as capital and reserves, for capital management purposes.

The Group is exposed to a variety of financial risks which result from both its operating and investing activities. The Group's risk management is coordinated by the board of directors, and focuses on actively securing the Group's short to medium term cash flows by minimising the exposure to financial markets.

Management review the Group's exposure to currency risk, interest rate risk, liquidity risk on a regular basis and consider that through this review they manage the exposure of the Group on a near term needs basis

There is no material difference between the book value and fair value of the Group's cash.

### MARKET PRICE RISK

The Group's exposure to market price risk mainly arises from potential movements in the fair value of its investments. The Group manages this price risk within its long-term investment strategy to manage a diversified exposure to the market. If each of the Group's equity investments were to experience a rise or fall of 10% in their fair value, this would result in the Group's net asset value and statement of comprehensive income increasing or decreasing by £185,000 (2022: £60,000).

### INTEREST RATE RISK

The Group and Company manage the interest rate risk associated with the Group's cash assets by ensuring that interest rates are as favourable as possible, whilst managing the access the Group requires to the funds for working capital purposes.

The Group's cash and cash equivalents are subject to interest rate exposure due to changes in interest rates. Short-term receivables and payables are not exposed to interest rate risk.

### CREDIT RISK

The Group's financial instruments, which are exposed to credit risk, are considered to be mainly loans and receivables, and cash and cash equivalents. The credit risk for cash and cash equivalents is not considered material since the counterparties are reputable banks. The maximum exposure to credit risk for loans and receivables is as set out in the table below, and relates to the financing of the Group's joint venture interests.

The Group's exposure to credit risk is limited to the carrying amount of the financial assets recognised at the balance sheet date, as summarised below:

|                           | 2023<br>£'000 | 2022<br>£'000 |
|---------------------------|---------------|---------------|
| Cash and cash equivalents | -             | 25            |
| Loans and receivables     | 13            | 18            |
|                           | 13            | 43            |

### LIQUIDITY RISK

Liquidity risk is managed by means of ensuring sufficient cash and cash equivalents are held to meet the Group's payment obligations arising from administrative expenses. The cash and cash equivalents are invested such that the maximum available interest rate is achieved with minimal risk. Liquidity risk is managed by means of ensuring sufficient cash and

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

cash equivalents are held to meet the Group's payment obligations arising from administrative expenses. The cash and cash equivalents are invested such that the maximum available interest rate is achieved with minimal risk. In the current financial year and subsequent to the year end the Group has been carefully managing limited cash flows to ensure that working capital commitments can be met. Crucial to this is additional funding secured to ensure the continued going concern of the Group. Further details of this are included in the going concern accounting policy on page 35.

**24 FINANCIAL INSTRUMENTS**

The Group uses financial instruments, other than derivatives, comprising cash to provide funding for the Group's operations.

**CATEGORIES OF FINANCIAL INSTRUMENTS**

The IFRS 9 categories of financial asset included in the statement of financial position and the headings in which they are included are as follows:

|                                                                  | <b>2023</b>  | 2022  |
|------------------------------------------------------------------|--------------|-------|
|                                                                  | <b>£'000</b> | £'000 |
| <b>FINANCIAL ASSETS:</b>                                         |              |       |
| Cash and cash equivalents                                        | -            | 25    |
| Investments held for trading (see fair value measurements below) | -            | 28    |
| <b>FINANCIAL ASSETS BY IFRS 7 FAIR VALUE HIERARCHY</b>           |              |       |
| Level 3 - Investments held for trading                           | -            | 28    |
|                                                                  | -            | 28    |

**FAIR VALUE MEASUREMENTS**

The Group holds quoted investments that are measured at fair value at the end of each reporting period using the IFRS 7 fair value hierarchy as set out below.

Level 1 – valued using quoted prices in active markets for identical assets.

Level 2 – valued by reference to valuation techniques using observable inputs other than quoted prices included within Level 1.

Level 3 – valued by reference to valuation techniques using inputs that are not based on observable market data.

The valuation techniques used by the Group are explained in the accounting policy note, "Investments held for trading".

**FINANCIAL LIABILITIES AT AMORTISED COST:**

The IFRS 9 categories of financial liabilities included in the statement of financial position and the headings in which they are included are as follows:

|                          | <b>2023</b>  | 2022  |
|--------------------------|--------------|-------|
|                          | <b>£'000</b> | £'000 |
| Trade and other payables | <b>3,542</b> | 4,193 |
| Borrowings               | <b>793</b>   | 457   |

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 December 2023

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest repayment date on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from the interest rate curves at the balance sheet date. The contractual maturity is based on the earliest date on which the Group may be required to pay.

| Non-interest bearing:    |                               |                        |                                |                       |                          |
| Trade and other payables | –                             | 1,664                  | –                              | 1,303                 | –                        |
| <b>2022</b>              |                               |                        |                                |                       |                          |
| Interest bearing:        |                               |                        |                                |                       |                          |
| Borrowings               | –                             | –                      | 170                            | 287                   | –                        |
| Non-interest bearing:    |                               |                        |                                |                       |                          |
| Trade and other payables | –                             | 1,475                  | –                              | 2,718                 | –                        |

As at 31 December 2023 the Group had net debt (defined as cash less borrowings) of £795,000 (2022: net debt of £432,000). The movement arose from cash flows.

**25 CONTINGENT LIABILITIES****OML 113 joint agreement**

The Group recognises a liability in respect of its participation in the OML 113 Joint Operating Agreement. The liability disclosed in these accounts is based on a reconciliation of the amounts owed under the operating agreement entered into by the Group and other participators in the OML 113 operation. The reconciliation is based on returns and reconciliations provided by the project's operator, which references the Group's share of revenue received and costs incurred.

**Liabilities subject to dispute**

The Group and company's statement of financial position includes some liabilities subject to dispute with the counterparty. The Directors have taken the decision to accrue the maximum plausible exposure in each case in order to ensure the financial statements are not prepared on a materially misleading basis. Due to commercial and legal sensitivities no further specific details with respect to these disputes can be included here.

**Other contingent liabilities**

Due to financial solvency circumstances relating to a former director a claim of up to £150,000 could potentially be made against the company in the future. As the outcome of this situation is considered to be highly uncertain the directors have made no provision in the financial statements at this time.

**NOTES TO THE FINANCIAL STATEMENTS**

FOR THE YEAR ENDED 31 December 2023

**26 ACQUISITION****Blade Oil V, LLC**

On 25 May 2023, the Company purchased 100% of the membership interest of Blade Oil V, LLC from OFX Holdings, LLC. Blade Oil V, LLC has five on-shore US oil leases.

The total consideration payable was £999,208. This comprised of US\$235,720 (£188,576) financed via the issuance of 15,714,667 new ordinary shares at a price of 1.2p per share, US\$235,720 (£190,557) loan note issued by ADM Energy USA, the issue of warrants over 7 million ordinary shares in the Company and contingent deferred consideration of £618,432.

The contingent deferred consideration will be payable on the first 180,000 barrels of oil produced. The production payment will be US\$5.00 per barrel if the realised price is greater than US\$70.00 per barrel and US\$3.50 if the realised price is greater than US\$50.00 per barrel and less than US\$70.00 per barrel. There will be no payment in periods when the realised oil price is less than US\$50.00 per barrel. It was determined that there was a 50% probability of achieving either benchmark. This resulted in the contingent deferred consideration being valued at £618,432.

On 9 November, 2023, the Company returned all of the leases with the exception of the Altoona lease to OFX Holdings, LLC. The total consideration was reduced by the cancellation of US\$250,000 of debt obligations owed to OFX Holdings, LLC., the reduction of the contingent deferred consideration of US\$150,000 and the 7 million warrants were terminated. After returning the leases, the investment in Blade Oil V, LLC reduced by £836,047.

The following table summarises the consideration paid for Blade Oil V, LLC and the fair values of the assets and equity assumed at the acquisition date and then after the remaining leases were returned:

|                                                    | <b>£</b>       |
|----------------------------------------------------|----------------|
| Total proceeds from share issue                    | 188,576        |
| Total proceeds from loan facility                  | 190,557        |
| Total proceeds from warrants issue                 | 1,643          |
| Total proceeds from contingent liability           | 618,432        |
| Less proceeds from warrants terminated             | (1,643)        |
| Less reduction on loan facility                    | (156,326)      |
| Less reduction in total consideration due          | (49,366)       |
| Less reduction in contingent liability             | (123,416)      |
| <b>Total consideration payable</b>                 | <b>668,457</b> |
| <u>Recognised assets and liabilities acquired:</u> |                |
| Intangible assets – Exploration asset              | 41,900         |
| Altoona lease                                      | 121,261        |
| Other leases                                       | 505,296        |
| <b>Total identifiable net assets</b>               | <b>668,457</b> |
| <b>Goodwill</b>                                    | <b>-</b>       |

In accordance with IFRS 3, the Group conducted a Purchase Price Allocation (PPA) analysis to split out separately identifiable assets from acquired goodwill. Upon completing this analysis, the Group acknowledged a £161,926 decrease to goodwill and a corresponding uplift in exploration assets.

**NOTES TO THE FINANCIAL STATEMENTS**
