

Field of Interest Fund

Minimum Contribution: \$100,000

A Field of Interest Fund serves donors who wish to rely on the expertise of the Community Foundation to determine the most effective use of their fund to address problems in a particular area of interest. Donors can create a separate field-of-interest fund or support one which already exists. The Community Foundation does not create separate committees for field-of-interest funds. Grant recipients are determined by the Community Foundation's existing committees and according to the criteria set forth in the fund agreement.
