1. What This Policy Covers

This policy explains what thechosenclubs.com stores on your device, why, and how you can control it. It covers cookies and equivalent technologies such as local storage, which work in the same way for these purposes.

It sits alongside our Privacy Policy, which explains more broadly how we handle personal data and what rights you have.

We do not use analytics, advertising or social media tracking on this website. Everything listed below is needed for the site to work — to keep you signed in, to remember the country and language you chose, and to remember your own cookie preferences.

2. What We Store on Your Device

The following are strictly necessary: without them you could not sign in, and the site could not remember basic choices you have made. They are not used to build a profile of you, and they are not used to track you across other websites.

Name	Set by	What it does	How long it lasts
fs-cc	This website	Records your cookie choice so we do not ask again on every page	Until you change your choice or clear your browser data
_ms-mid	Memberstack	Signs you in and keeps you signed in	Until you sign out or clear your browser data
_ms-mem	Memberstack	Holds your account details so pages can show the right content	Until you sign out or clear your browser data
ms_session_id	Memberstack	Identifies your current browsing session	Until you sign out or clear your browser data
ms_groups	Memberstack	Determines which study materials your account may open	Until you sign out or clear your browser data
country	This website	Remembers the country and language you selected	Until you clear your browser data
selectedStudySeason	This website	Remembers where you were in the study so the site reopens in the right place	Until you clear your browser data

Some of these are stored as cookies and some in your browser's local storage. Both are covered by this policy and both can be cleared in your browser settings.

3. Optional Cookies

Our cookie banner offers three optional categories — marketing, analytics and personalisation — and asks for your consent before any of them is used. Nothing in these categories is set unless you choose to allow it.

At the date of this policy we do not operate anything in these categories. The categories exist so that if we ever introduce them, they will be switched off until you say otherwise. If that changes, we will update this policy and ask for your consent before anything new is stored.

4. Your Choices

When you first visit the site you can accept everything, reject everything, or choose by category. Strictly necessary items in Section 2 are always active, because the site cannot function without them.

Changing your mind later

You can review or change your choice at any time using the "Cookie Settings" link in the footer of every page. This reopens the same preference centre you saw when you arrived. Withdrawing consent is as easy as giving it, and does not affect anything we did before you withdrew it.

You can also clear cookies and site data for thechosenclubs.com in your browser settings. If you block the strictly necessary items, you will not be able to sign in.

5. Other Connections Your Browser Makes

Loading a web page involves requests to the servers that host its parts. Those requests reveal your IP address to whoever operates the server, even when nothing is stored on your device.

Service	Why your browser contacts it	What it receives
Webflow	Hosts this website and its images and documents	Your IP address and standard technical request details
Memberstack	Provides accounts and sign-in	Your IP address, and your account details when you are signed in
Google Fonts	Supplies two of the typefaces used on the site	Your IP address when a page loads

Section 7 of our Privacy Policy names these providers and their roles, and Section 8 explains how international transfers are handled.

6. Changes to This Policy

We will update this policy when what we store changes, or when we add a service that stores something new. The current version is always published at thechosenclubs.com/personal-data with a revised "Last updated" date.
