Tsumeb Water Treatment Plant

Tsumeb, Namibia

7 MLD

Capacity

Supports local water supply

Achieving reliable and consistent supply for municipal needs

CHALLENGE

- Limited access to clean, potable water in Tsumeb.
- Reliance on borehole and intermediate reservoir sources with inconsistent quality.

SOLUTION & TECHNOLOGIES

- A potable water treatment plant was designed and built.
- The plant was commissioned for the Tsumeb Municipality

BENEFITS

- Product water complies to the NamWater Group A water quality
