

Yard Waste Disposal in the City of Ralston

Residents of the City of Ralston should place all yard waste in the blue cart with regular trash. All trash and yard waste must fit inside the cart EXCEPT during the last two weeks of May and for the entire month of November.

During these two time periods residents may place additional yard waste bags beside the trash cart. Any yard waste in bags must be in brown bio bags and there is no limit on how many bags we will pick up during these two time periods. Please note that you must use paper bags; we are unable to pick up yard waste in plastic bags.
