Service Sheets are not limited to a single photo on the front cover. The following are all examples of ways to create a personalised keepsake:

• A photo on the back cover

(Eg. A wedding photo, extended family, or much loved family pet)

• Multiple photos on the front cover

(Eg. A photo from the younger years paired with a more recent one)

- A collage page either on the front, back, inside, or a mixture of them all
- A landscape photo watermarked behind text on the inside pages (Eg. The family property, a sunset, or favourite place to holiday)
- Replace a templated background with your own image

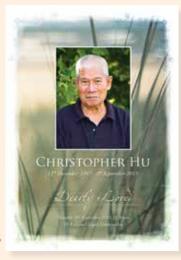

Alternatively you may choose to keep the service sheet simple and not include a photo at all. Design 05 and 06 are made specifically with this in mind, but any of our templates can be altered slightly to not need a photo on the front.
