REGOLOGY
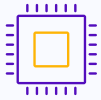

Embrace the Future of Regulatory Compliance

Leveraging the most advanced artificial intelligence (AI), the Regology platform enables compliance teams to automate manual tasks, anticipate changes in the regulatory landscape, and act swiftly to ensure compliance.

AUTOMATE

Our industry-leading AI, including Generative AI, brings process automation and eliminates manual tasks that inundate compliance teams, like spreadsheet updating.

ANTICIPATE

Our platform enables real-time tracking of legislative bills, agency updates, and laws and regulations to anticipate changes that impact your operations.

ACT

Enable your team to act decisively with mapped requirements, risks, and controls on one platform, seamlessly integrating with GRC systems.

Manage the Full Cycle of Regulatory Compliance

Regulatory Change Management

Conduct legal research, implement relevant regulatory updates, monitor enforcement actions, and proactively scan the horizon for legislation that could affect your current and future lines of business.

Compliance Management

Build out and activate compliance programs that have clean and properly mapped requirements, risks, and controls. Eliminate multi-versioned spreadsheets, cumbersome manual tasks, and siloed workflows.

Direct Benefits

✓ **Spend 80% Less Time on Tasks**
Replace multiple spreadsheets with one platform and automate resource-draining tasks, like manual tracking and updating.

✓ **Get Nimble with Regulatory Change**
The platform automatically updates your personalized law library with the latest regulatory changes, saving you significant manual effort.

✓ **Accelerate Legal Research**
Ask our generative AI assistant, Reggi, questions, get summaries, draft controls, or compare laws across different jurisdictions in minutes, not hours.

✓ **Reduce Risks and Costs**
Leverage Regology to identify the latest legal requirements instead of costly third-party outsourcing and mitigate non-compliance risk with AI.

Key Features

Smart Law Library
Choose a ready-made law library or bring your own

Custom Alerts
Receive updates based on your unique legal DNA

Causal Citations
See the alert reason and the law or regulation it impacts

Impact Assessment
Identify the alert's impact level on your business

Generative AI Assistant
Use Reggi for legal research, summaries, or drafting

Horizon Scanning
Track the progression of legislative bills

Risk & Control Mapping
Link legal requirements to controls, risks, and policies

Cross-Jurisdictional Search
Research multiple jurisdictions at once

GRC Integration
Integrate with any GRC provider and aggregate data
