

JustFood forDogs®

# Veterinary Product Guide

Comprehensive whole food veterinary nutrition guide for the exclusive use of licensed veterinarians and technicians

Edition 26.4.2

# Leading the Pack in Canine Nutrition

We're not just another dog food brand.
**We're the pioneers of science-backed, fresh nutrition for dogs.**

- **#1 vet-recommended fresh food for dogs,** supported by over a decade of extensive veterinary research and partnerships with leading educational institutions.
- **Formulated by experts,** our in-house veterinary team includes board-certified and residency-trained veterinary nutritionists.
- **Uncompromising quality standards,** including WSAVA alignment, AAFCO feeding trials, independent studies, and rigorous in-house quality assurance.
- **Market leadership in clinical nutrition,** as the only major fresh brand offering Rx/Veterinary Support diets.
- **A comprehensive product portfolio** addressing the needs of both healthy and clinically compromised dogs, with differentiated macronutrient profiles for targeted nutritional support.
- **Custom diet solutions** designed to support unique, complex, or medically challenging cases.

# Table of Contents

**Clinical Recipe Recommendations** ..... 4

**Feeding Fresh**

Feeding Guidelines ..... 5
Transitioning Guidelines, Storing, Handling, Thawing of Fresh Food ..... 14
Veterinary Support Recipe Authorization Form ..... 15

**Veterinary Support Diets**

Critical Care ..... 17
Digestive Care ..... 21
Hepatic Low Fat ..... 24
Metabolic + Weight Control ..... 29
Renal Low Protein ..... 32

**Daily Diets**

Beef & Russet Potato ..... 38
Chicken & Rice ..... 42
Fish & Sweet Potato ..... 46
Lamb & Brown Rice ..... 49
Tofu & Quinoa ..... 53
Turkey & Whole Wheat Macaroni ..... 54
Venison & Squash ..... 58
JustFresh Home-Cooked Beef ..... 61
JustFresh Home-Cooked Chicken ..... 63
JustFresh Home-Cooked Pork ..... 65
JustFresh Home-Cooked Turkey ..... 67
Feline - Fish & Chicken ..... 69

**Targeted Nutrition Diets**

Healthy Weight ..... 72
Joint & Skin ..... 76
Sensitive Skin ..... 81
Sensitive Stomach and Balanced Remedy ..... 84

**Veterinary Formulated Health Supplements**

10-in-1 Bite ..... 91
Calming ..... 92
Hip + Joint Care ..... 93
Omega Oil ..... 94
Probiotic Booster ..... 95
Skin & Allergy Aid ..... 96

**Ongoing Research** ..... 97

# Transition Guides

For the pet's safety in a successful change to fresh food

## Dog Transitions

Every dog is different, and the time required to transition to a fresh whole food diet can vary, especially for dogs who are sensitive to dietary changes. Follow this guide for the smoothest transition.

**Days 1-3**
25% JustFoodForDogs
+ 75% current food

**Days 4-7**
50% JustFoodForDogs
+ 50% current food

**Days 8-10**
75% JustFoodForDogs
+ 25% current food

**Days 11+**
100% JustFoodForDogs

## Cat Transitions

Cats may require using a 2 bowl method for their food transition. Place the new and old food(s) in separate bowls. Gradually reduce the amount of the old food offered in one bowl while maintaining or slightly increasing the portion of the new food in the other bowl(s). This should be done following the recommended transition schedule until the cat is fully eating the new food.

Start with 75% JustFoodForCats in bowl one and 25% current food in bowl two

Slightly increase the portion of JustFoodForCats while gradually reducing the amount of the old food until your cat is fully transitioned to a daily feeding of 100% JustFoodForCats

**FRESH FROZEN MEALS**

### Unpack & Store

Keep meals in the freezer until ready to thaw. Unopened frozen food stays fresh in the freezer until the use-by date.

### Thaw

Thaw in the refrigerator or under cold water.

| | In Refrigerator | | In Cold Water | |
|---|---|---|---|---|
| Size | 18 oz | 72 oz | 18 oz | 72 oz |
| Time | 24 hours | 48 hours | 1 hour | 3-5 hours |

### Open & Serve

Portion according to the feeding guidelines. Once thawed, refrigerated fish diets are good for 3-4 days and other protein diets are good for 4-5 days.

**PANTRY-FRIENDLY MEALS**

**Open & Serve** — Store in pantry. Refrigerate after opening.
Portion according to the feeding guidelines on package.

# Veterinary Support Recipe Authorization

## 3 easy ways to submit:

### 1 Paper Rx pad
Fill out a Veterinary Support diet authorization on a JustFoodForDogs Rx pad. Pet parents can present the paper authorization to a JustFoodForDogs, Pet Food Express or Petco store.

### 2 Photocopy of Rx pad
Photocopy the JustFoodForDogs Rx pad on this page and complete the Veterinary Support diet authorization. Pet parents can present the paper authorization to a JustFoodForDogs, Pet Food Express or Petco store.

### 3 Online
Submit a Veterinary Support diet authorization directly online to **rx@JustFoodForDogs.com**

# Veterinary Support Diets

Formulated to support the management of dogs with various conditions

**CANINE**

- Critical Care
- Digestive Care Low Fat
- Hepatic  Low Fat
- Metabolic + Weight Control
- Renal  Low Protein

# Critical Care

**Designed to help dogs with decreased appetite achieve their energy requirement, while also supporting dogs with Cancer by addressing the following key nutritional factors:**

- Made 100% with ingredients approved for human consumption
- Moderate protein levels to help maintain lean muscle mass
- High level of fat to address caloric density and palatability
- Controlled antioxidant levels to avoid interference with chemotherapy drugs

*"A patient's ability to tolerate cancer therapy can be impacted by their nutritional status, so maintaining adequate calorie and nutrient intake is essential in the cancer patient. The moderate protein levels in Critical Care Support help prevent muscle breakdown and support tissue repair and immune system function, and the increased levels of healthy fats contribute to caloric intake as well as palatability. JustFoodForDogs offers several excellent dietary options for my cancer patients as well as a convenient way for busy people to feed a highly palatable whole food diet."* — Dr. Sara Fiocchi, DVM, DACVIM - Oncology

## Diet Overview

100% of the ingredients in our Critical Care Recipe are approved for human consumption. This recipe is formulated to be exceptionally palatable for the most critical cases and is our most calorie-dense recipe. It provides increased calories from protein and fat, along with increased levels of omega-3 fatty acids. This nutrient-rich diet is intended to help manage **Hyporexia** and **Cachexia** and is formulated to meet the following key nutritional factors:

- Highly digestible, high-quality protein
- Low omega-6 to omega-3 ratio
- Balanced for long-term feeding under veterinary supervision
- Highly digestible, high-quality fat
- High caloric density for weight gain or maintenance

## Diet Indications

- Critical Anorexic cases and low-appetite dogs requiring a high caloric intake

## Contraindications

- Sensitivity to any of the ingredients
- Growing puppies
- History of Pancreatitis/Hyperlipidemia

# Critical Care FRESH FROZEN

## Ingredients

- **Beef** is considered a high-quality source of protein and is also rich in iron and zinc, as well as vitamins B6 and B12.
- **Chicken** is an excellent source of protein, vitamin B6, pantothenic acid, phosphorus, zinc, selenium and niacin and delivers more vitamin B, iron and antioxidants than its white meat counterparts.
- **Chicken Liver** contains a concentrated volume of protein and vitamin A. It is rich in heme iron, a highly bioavailable form of iron, and is also high in bioavailable copper, folate, riboflavin and niacin.
- **Beef Liver** is a nutrient-dense food. Ounce for ounce, it contains the most concentrated volume of protein and vitamin A. It is a rich source of heme iron, the most absorbable form of iron, and is high in bioavailable copper, folate, riboflavin, niacin, phosphorus and zinc.
- **Brown Rice** is loaded with B vitamins and minerals, such as magnesium and zinc, and is an excellent source of complex carbohydrates.
- **Coconut Oil** contains medium-chain triglycerides (MCTs), which have been shown to increase the liver's efficiency at metabolizing energy from fat, helping to maintain dogs at their ideal weight.
- **Beef Fat** increases the palatability of the diet and is a great source of linoleic acid, which is important for healthy maintenance of coat quality/sheen.
- **Flaxseed** is an excellent source of the essential fatty acid, linolenic acid, which is important for healthy maintenance of coat quality/sheen.
- **Sunflower Oil** is a natural and medicinal oil pressed from the seeds of the sunflower and is rich in essential unsaturated fatty acids such as linoleic acid.
- **Omega Marine Microalgae Oil** provides omega-3 fatty acids in highly biologically available forms of EPA and DHA to promote and maintain healthy skin and coat.
- **JustFoodForDogs Nutrient Blend** is formulated specifically to meet AAFCO standards. The blend is compounded from 100% human-grade nutraceuticals regulated by the FDA.

## Nutritional Adequacy Statement

JustFoodForDogs Critical Care recipe is formulated to meet the nutritional levels established by the AAFCO dog food nutrient profiles for canine adult maintenance. For use under the direction of a veterinarian.

# Digestive Care Low Fat

**Designed to help dogs struggling with chronic gastrointestinal or fat-responsive conditions through the following key nutritional factors:**

- Ultra-low fat content while still meeting AAFCO essential fat requirements
- Single novel protein source (whitefish) and limited ingredients to avoid common protein allergens
- Moderate, balanced fiber profile to support stool quality
- Highly palatable and highly digestible
- Made 100% with ingredients approved for human consumption

# Digestive Care Low Fat

FRESH FROZEN - Available in 18 oz packages

## Diet Overview

This recipe is formulated to be an ultra-low-fat, novel and high-protein, moderate-fiber diet to meet the needs of a variety of illnesses commonly seen in veterinary practice. In addition, Digestive Care Low Fat is also highly palatable to help encourage voluntary intake for dogs who may be experiencing appetite disturbances. This diet supports dogs diagnosed with **Chronic Enteropathies, Lymphangiectasia, Pancreatitis, Hyperlipidemias,** and other related conditions with the following key nutritional factors:

- Ultra-low-fat content
- Single novel protein source and limited ingredients
- Moderate, balanced fiber content
- Highly palatable and digestible

## Diet Indications

- Chronic Enteropathies
- Lymphangiectasia
- Pancreatitis
- Hyperlipidemia
- Selective appetite

## Contraindications

- Sensitivity to any of the ingredients
- Growing puppies

## Ingredients

- **Whitefish** is an excellent low-fat protein source and a good source of omega-3 fatty acids, niacin, vitamins B12 and B6, potassium, phosphorus and selenium.
- **Brown Rice** contains a number of B vitamins and minerals, such as magnesium and zinc, and is an excellent source of complex carbohydrates.
- **Sweet Potatoes** are an excellent source of vitamins B6 and C, as well as manganese, beta-carotene as a source of vitamin A, dietary fiber and potassium.
- **Lemon Juice Powder** is a natural source of citric acid.
- **Sunflower Oil** is a natural oil pressed from the seeds of the sunflower and is rich in healthy, essential, unsaturated fatty acids such as linoleic acid, which is important for skin and coat health.
- **Flaxseed Oil** is an excellent source of the essential fatty acid, linolenic acid, which is important for healthy maintenance of coat quality/sheen.
- **JustFoodForDogs Nutrient Blend** is formulated specifically to meet AAFCO standards. The blend is compounded from 100% human-grade nutraceuticals regulated by the FDA.

## Nutritional Adequacy Statement

JustFoodForDogs Digestive Care Low Fat is formulated to meet the nutritional levels established by the AAFCO dog food nutrient profiles for canine adult maintenance. For use under veterinary supervision only.

# Hepatic Low Fat

**Formulated to support dogs with Liver Disease or early-stage Kidney Disease by addressing the following key nutritional factors:**

- Low fat
- Carefully controlled protein levels provided by wild-caught cod and eggs
- Restricted copper for dogs with Copper Storage Disease
- Reduced phosphorus and controlled sodium for dogs with Renal Disease
- Balanced for long-term feeding under veterinary supervision
- Made 100% with ingredients approved for human consumption

*"For many years I have accepted the conventional wisdom that commercial dog food was the best feeding method. Recently, in an effort to achieve a healthy weight and a better coat for one of my own dogs, I decided to go outside of my comfort zone. I learned about JustFoodForDogs and decided to put Daisy on the food. I can honestly say I have never seen such a dramatic and instant response from changing a food. Within weeks I saw a substantial improvement in her skin, coat, interest in food and vitality. I am so happy to have finally found something I can feel good about feeding her."* **— Dr. Jennifer Pizzo, DVM**

## Diet Overview

Hepatic Low Fat (Copper Restricted) is made using 100% fresh whole food ingredients approved for human consumption and is formulated to meet the key nutritional factors for the nutritional management of Liver or Early Renal Disease, with or without concurrent Hyperlipidemia or Pancreatitis, and Copper Storage Disease in dogs:

- Controlled protein
- Restricted copper
- Balanced for long-term feeding under veterinary supervision
- Low fat
- Reduced phosphorus (compatible with Renal Disease)

## Diet Indications

- Liver Disease
- Liver Failure
- Chronic Hepatitis
- Pancreatitis
- Hyperlipidemia
- Copper Storage Disease
- Early Renal Disease

## Contraindications

- Sensitivity to any of the ingredients
- Growing puppies

# Hepatic Low Fat FRESH FROZEN

## Ingredients

- **Sweet Potatoes** are an excellent source of vitamins B6 and C, as well as manganese, beta-carotene as a source of vitamin A, dietary fiber and potassium.
- **White Rice** is an easily digestible grain fortified with vitamin B complex. It's also loaded with iron, calcium, magnesium, manganese, zinc, copper and selenium.
- **Eggs** are a great source of protein and numerous vitamins and minerals, including vitamin A, potassium, folic acid, choline, biotin and B vitamins.
- **Whitefish** is an excellent low-fat protein source and a good source of omega-3 fatty acids, niacin, vitamins B12 and B6, potassium, phosphorus and selenium.
- **Broccoli** is an excellent source of vitamins K, C and A, phosphorus, potassium, magnesium and vitamins B6 and E, as well as folate and fiber.
- **Zucchini** is an excellent source of manganese, vitamin C, magnesium, vitamin A, dietary fiber, potassium, copper, folate and phosphorus. In addition, it is a good source of omega-3 fatty acids, vitamins B1, B2 and B6, calcium, zinc, niacin and protein.
- **Lemon Juice Powder** is a natural source of citric acid.
- **Sunflower Oil** is a natural and medicinal oil pressed from the seeds of the sunflower and is rich in healthy, essential, unsaturated fatty acids such as linoleic acid.
- **Coconut Oil** contains medium-chain triglycerides (MCTs), which have been shown to help increase the liver's efficiency at metabolizing energy. It is an easily absorbed superfood and an excellent source of select liver-friendly fat.
- **Omega Marine Microalgae Oil** provides omega-3 fatty acids in highly biologically available forms of EPA and DHA to promote and maintain healthy skin and coat.
- **JustFoodForDogs Nutrient Blend** is formulated specifically to meet AAFCO standards. The blend is compounded from 100% human-grade nutraceuticals regulated by the FDA.

## Nutritional Adequacy Statement

JustFoodForDogs Hepatic Low Fat is intended for intermittent or supplemental feeding under vet supervision.

## Nutritional Adequacy Statement

JustFoodForDogs PantryFresh Hepatic Low Fat is intended for intermittent or supplemental feeding only under vet supervision.

# Metabolic + Weight Control

**Formulated to support dogs with Diabetes Mellitus and Obesity by addressing the following key nutritional factors:**

- Fortified with additional vitamins and minerals and high protein to support safe weight loss
- Increased fiber to improve satiety and to help maintain a more steady blood glucose absorption with insulin therapy
- Balanced for long-term feeding under veterinary supervision
- Made 100% with ingredients approved for human consumption

*"My dog, Abigail, packed on the pounds over the last few years. I tried commercial low-calorie diets, but she would not eat them, so she was continually hungry. JustFoodForDogs formulated a low-calorie, high-volume custom diet for her. She loves the food, and the weight came off quickly. It was Jenny Craig® for dogs. I highly recommend JustFoodForDogs!"* **— Dr. Peter Vogel, VMD, DACVS**

# Metabolic + Weight Control FRESH FROZEN Available in 18 oz packages

## Diet Overview

Metabolic + Weight Control Recipe is made using 100% fresh whole food ingredients approved for human consumption. It is formulated to meet the following key nutritional factors for the nutritional management of **Diabetes Mellitus, Obesity/Overweight,** and **Fiber-Responsive Enteropathies** in dogs:

- Moderate, balanced fiber content with low-glycemic-index carbohydrate sources
- High protein
- Reduced caloric density (kcal/oz) to support satiety
- Fortified with additional vitamins and minerals to support diet balance with caloric restriction

## Diet Indications

- Diabetes Mellitus
- Weight management
- Fiber-Responsive Enteropathies

## Contraindications

- Sensitivity to any of the ingredients
- Growing puppies

## Ingredients

- **Turkey** is a high-quality source of lean protein and contains selenium, niacin, iron, zinc, phosphorus, potassium and B vitamins.
- **Barley** is a nutritious grain that provides fiber, B vitamins, and minerals like magnesium, phosphorus, and potassium. As a low-glycemic-index ingredient, barley also helps contribute to a balanced diet for diabetic dogs.
- **Butternut Squash** is extremely nutritious and rich in antioxidants. It is high in dietary fiber, vitamin C, folate, vitamins B5 and B6, niacin, potassium, and is rich in beta-carotene as a source of vitamin A.
- **Green Peas** are a very good source of folate, manganese, magnesium and thiamine.
- **Turkey Liver** is a nutrient-dense food, providing a great source of vitamins like vitamins A, D, and E, as well as minerals and healthy nutrients like choline.
- **Omega Marine Microalgae Oil** provides omega-3 fatty acids in highly biologically available forms of EPA and DHA to promote and maintain healthy skin and coat.
- **Dried Seaweed Meal** is a natural source of trace minerals that help support healthy body function.
- **JustFoodForDogs Nutrient Blend** is formulated specifically to meet AAFCO standards. The blend is compounded from 100% human-grade nutraceuticals regulated by the FDA.

## Nutritional Adequacy Statement

JustFoodForDogs Metabolic + Weight Control recipe is formulated to meet the nutritional levels established by the AAFCO dog food nutrient profiles for canine adult maintenance. For use under the direction of a veterinarian.

# Renal Low Protein

**An excellent diet choice for the nutritional management of dogs with Azotemia and Chronic or Advanced Kidney Disease. This diet addresses the following key nutritional factors:**

- Restricted protein levels to reduce burden on kidneys and reduce buildup of protein metabolic waste products
- Controlled sodium and potassium levels to help manage Hypertension and Hyperkalemia that commonly accompany Kidney Disease
- Restricted phosphorus levels to help manage progression of Kidney Disease
- High-moisture diet to maintain hydration
- More palatable than commercial prescription diets
- Made 100% with ingredients approved for human consumption

*"As a veterinary toxicologist, I am aware of the potential toxins that can occur naturally in pet foods. Feeding my dogs a food with trusted ingredients is important to me, and that's why I choose to use JustFoodForDogs. The likelihood of a food-based toxin such as aflatoxin and other mycotoxins is lower than what might occur in dry kibbled foods. And my dogs really love it! They really thrive on it."*

**— Dr. John Tegzes, VMD, Dipl. ABVT**

## Diet Overview

100% of the ingredients in our Renal Low Protein Recipe are approved for human consumption. This recipe is formulated with restricted protein, controlled sodium and restricted phosphorus, with increased calories from fat and carbohydrates. It is formulated to meet the following key nutritional factors for nutritional management of **Renal Disease** or **Liver Disease** where fat and copper restrictions are not required:

- Restricted protein
- Increased omega-3 fatty acids
- Restricted phosphorus, controlled sodium and potassium
- Increased vitamin B supplementation
- Balanced for long-term feeding under veterinary supervision

## Diet Indications

- Management of clinical Renal Disease with or without concurrent Azotemia
- Hepatic Encephalopathy

## Contraindications

- Sensitivity to any of the ingredients
- Growing puppies

# Renal Low Protein FRESH FROZEN

## Ingredients

- **Lamb** provides a rich supply of high-quality protein and is an especially good source of zinc and iron. It is also rich in B vitamins and is one of the best sources of the amino acid derivative: carnitine.
- **White Rice** contains a higher iron content and provides a desirable balance of nutrients while remaining gentle on the digestive tract.
- **Brown Rice** is loaded with B vitamins and minerals, such as magnesium and zinc, and is an excellent source of complex carbohydrates.
- **Carrots** are full of antioxidant compounds and are one of the richest sources of pro-vitamin A carotenes. They are a very good source of vitamins C and K, potassium and dietary fiber.
- **Cauliflower** contains glucosinolates and thiocyanates, known antioxidants, and is a great source of vitamins C and K as well as folate and manganese.
- **Sunflower Oil** is a natural and medicinal oil pressed from the seeds of the sunflower and is rich in essential unsaturated fatty acids such as linoleic acid.
- **Kale** is high in antioxidants, including vitamin C, beta-carotene and manganese, and contains anti-inflammatory phytonutrients known to control the inflammatory process.
- **Blueberries** are a great source of antioxidants such as ellagic acid, a phytochemical known to prevent cell damage.
- **Lamb Liver** is a nutrient-dense food. Ounce for ounce, it contains the most concentrated amounts of protein and vitamin A. It's a rich source of heme iron, the most bioavailable form of iron. Lamb liver is also rich in bioavailable copper, folate, riboflavin, niacin, phosphorus and zinc.
- **Omega Marine Microalgae Oil** provides omega-3 fatty acids in highly biologically available forms of EPA and DHA to promote and maintain healthy skin and coat.
- **JustFoodForDogs Nutrient Blend** is formulated specifically to meet AAFCO standards. The blend is compounded from 100% human-grade nutraceuticals regulated by the FDA.

## Nutritional Adequacy Statement

JustFoodForDogs Renal Low Protein is intended for intermittent or supplemental feeding under vet supervision.

## Ingredients

- **Cod** is an excellent source of low-fat protein and a good source of omega-3 fatty acids, niacin, vitamins B6 and B12, potassium, phosphorus and selenium.
- **Chicken** is an excellent source of protein, vitamins B5 and B6, iron, phosphorus, zinc, selenium and niacin.
- **Chicken Hearts** are a rich source of protein, thiamine, folate, selenium, phosphorus, zinc, CoQ10 and several B vitamins.
- **Chicken Liver** is a nutrient-dense food that is high in iron, vitamin A, copper, folate, riboflavin and niacin.
- **Tapioca Starch** is a hypoallergenic, gluten-free carbohydrate source that is highly digestible. It is used in small quantities to help maintain moisture in the recipe since cats typically do not drink sufficient water on their own.
- **Sardines** are rich in highly bioavailable omega-3 fatty acids in the forms of EPA and DHA. Sardines are also a very rich source of vitamin D.
- **JustFoodForDogs Nutrient Blend** is formulated specifically to meet AAFCO standards. The blend is compounded from 100% human-grade nutraceuticals regulated by the FDA.

## Nutritional Adequacy Statement

JustFoodForCats Fish & Chicken Recipe is formulated to meet the nutritional levels established by the AAFCO cat food nutrient profiles for the maintenance of adult cats.

# Targeted Nutrition

Fresh whole food meals, formulated to target specific health needs

**CANINE**

# Healthy Weight FRESH FROZEN Available in 18 oz packages

## Diet Overview

Healthy Weight is made using 100% fresh whole food ingredients approved for human consumption. It is formulated to meet the key nutritional requirements for safe, effective weight loss through a combination of a high protein content and fortification with additional vitamins and minerals. In doing so, Healthy Weight can be safely fed in states of caloric restriction without risk of nutrient deficiency. Additionally, this diet uses pork as a palatable protein source to keep dogs motivated for their meals over the long weight management journey.

## Diet Indications

- Weight management

## Contraindications

- Allergies to any of the ingredients
- Growing puppies

## Ingredients

- **Lean Pork** is a complete protein source loaded with many essential vitamins (thiamine, niacin, riboflavin, vitamins B6 and B12) and minerals (phosphorus, potassium, selenium, zinc, calcium, iron and manganese).
- **Brown Rice** is loaded with B vitamins and minerals, such as magnesium, and is an excellent source of dietary fiber.
- **Butternut Squash** is extremely nutritious and rich in antioxidants. It is high in dietary fiber, vitamin C, folate, vitamins B5 and B6, niacin, potassium, and is rich in beta-carotene as a source of vitamin A.
- **Carrots** are full of antioxidant compounds and are one of the richest sources of pro-vitamin A carotenes. They are a very good source of vitamins C and K, potassium and dietary fiber.
- **Green Beans** are rich in vitamin K, riboflavin, omega-3 fatty acids, dietary fiber and niacin.
- **Cranberries** provide an excellent source of vitamin C and are high in dietary fiber, manganese and vitamin K.
- **Flaxseed** is an excellent source of the essential fatty acid, linolenic acid, which is important for healthy maintenance of coat quality/sheen.
- **Omega Marine Microalgae Oil** provides omega-3 fatty acids in highly biologically available forms of EPA and DHA to promote and maintain healthy skin and coat.
- **JustFoodForDogs Nutrient Blend** is formulated specifically to meet AAFCO standards. The blend is compounded from 100% human-grade nutraceuticals regulated by the FDA.

## Nutritional Adequacy Statement

JustFoodForDogs Healthy Weight is formulated to meet the nutritional levels established by the AAFCO dog food nutrient profiles for canine adult maintenance.

JUSTFRESH

# Joint & Skin

**Formulated to support healthy joint tissue and mobility while also supporting the skin barrier with the following nutritional factors:**

- Low omega-6 to omega-3 ratio supports the body's natural down-regulation of inflammatory pathways, helping to maintain joint mobility and cartilage integrity, and to support a healthy skin barrier.
- Can also be used to manage gastrointestinal pathologies, including Chronic Enteropathy, Food-Responsive Gastroenteritis or Food Allergies (pork-based diet)
- Made 100% with ingredients approved for human consumption

*"As a board-certified veterinary dermatologist, I find JustFoodForDogs ideal for patients with specific health needs. It's a convenient option for owners seeking a healthy, whole food alternative to kibble that don't have the time or expertise to create a consistent, nutritionally balanced diet. JFFD offers owners all the benefits of a consistent, home-cooked diet without the risk of deficiency, contamination or the hours required to do the job right."* **— Dr. John Angus, DVM, DACVD**

## Diet Overview

Joint & Skin incorporates a combination of joint-supportive agents including Glucosamine Sulfate, Algae Oil, and collagens from pork stock to support healthy joints and mobility. This pork-based, low-residue recipe is formulated to meet the key nutritional factors for the nutritional management of Joint Disease, Atopic Dermatitis, and Chronic Enteropathies.

- Highly digestible diet with single protein source (pork)
- Increased anti-inflammatory ingredients, including omega-3 fatty acids, algae oil and kale
- High-protein diet
- Glucosamine Sulfate

## Diet Indications

- Acquired Osteoarthritic Joint Disease
- Food Allergies
- Chronic Inflammatory Enteropathy
- Congenital Joint Disease
- Atopic Dermatitis
- Diet elimination trial

## Contraindications

- Sensitivity to any of the ingredients
- Growing puppies

# Joint & Skin FRESH FROZEN

## Ingredients

- **Pork** is a complete protein source loaded with many essential vitamins (thiamine, niacin, riboflavin, vitamins B6 and B12) and minerals (phosphorus, potassium, selenium, zinc, calcium, iron and manganese).
- **Quinoa,** known as an "ancient grain," is a seed related to beets, chard and spinach, and contains many powerful anti-inflammatory phytonutrients. It is high in protein, fiber, magnesium, folate, phosphorus and manganese.
- **Carrots** are full of antioxidant compounds and are one of the richest sources of pro-vitamin A carotenes. They are a very good source of vitamins C and K, potassium and dietary fiber.
- **Kale** is high in antioxidants, including vitamin C, beta-carotene and manganese, and contains anti-inflammatory phytonutrients known to control the inflammatory process.
- **Apples** are palatable and high in antioxidants and fiber. Apples are also high in quercetin, an anti-inflammatory compound.
- **Pork Stock** contains Type II collagen which helps maintain cartilage and connective tissue and promotes joint health.
- **Omega Marine Microalgae Oil** provides omega-3 fatty acids in highly biologically available forms of EPA and DHA to promote and maintain healthy skin and coat.
- **Flaxseed** is an excellent source of the essential fatty acid, linolenic acid, which is important for healthy maintenance of coat quality/sheen.
- **Glucosamine** helps support joint health by promoting the growth of cartilage and reducing inflammation.
- **JustFoodForDogs Nutrient Blend** is formulated specifically to meet AAFCO standards. The blend is compounded from 100% human-grade nutraceuticals regulated by the FDA.

## Nutritional Adequacy Statement

# Sensitive Skin FRESH FROZEN Available in 18 oz packages

## Diet Overview

Sensitive Skin is 100% prepared with fresh whole ingredients approved for human consumption. This recipe can be used as a temporary or as a long-term diet for dogs with delicate skin and coat, addressing the following key nutritional factors:

- Single novel protein source (whitefish)
- Contains EPA/DHA and other essential fatty acids for dermal barrier health

## Diet Indications

- Cutaneous Adverse Food Reactions (Food Allergies)
- Atopy support

## Contraindications

- Allergies to any of the ingredients

## Ingredients

- **Whitefish** is an excellent source of low-fat protein and a good source of omega-3 fatty acids, niacin, vitamins B6 and B12, potassium, phosphorus and selenium.
- **Sweet Potatoes** are an excellent source of vitamins B6 and C, as well as manganese, beta-carotene as a source of vitamin A, dietary fiber and potassium.
- **Quinoa**, known as an "ancient grain," is a seed related to beets, chard and spinach, and contains many powerful anti-inflammatory phytonutrients. It is high in protein, fiber, magnesium, folate, phosphorus and manganese.
- **Kale** is high in antioxidants, including vitamin C, beta-carotene and manganese, and contains anti-inflammatory phytonutrients known to control the inflammatory process.
- **Sunflower Oil** is a natural and medicinal oil pressed from the seeds of the sunflower and is rich in essential unsaturated fatty acids such as linoleic acid.
- **Flaxseed** is an excellent source of the essential fatty acid, linolenic acid, which is important for healthy maintenance of coat quality/sheen.
- **Cranberries** provide an excellent source of vitamin C and are high in dietary fiber, manganese and vitamin K.
- **Apples** are high in antioxidants and fiber.
- **Omega Marine Microalgae Oil** provides omega-3 fatty acids in highly biologically available forms of EPA and DHA to promote and maintain healthy skin and coat.
- **JustFoodForDogs Nutrient Blend** is formulated specifically to meet AAFCO standards. The blend is compounded from 100% human-grade nutraceuticals regulated by the FDA.

## Nutritional Adequacy Statement

JustFoodForDogs Sensitive Skin is formulated to meet the nutritional levels established by the AAFCO dog food nutrient profiles for canine adult maintenance.

# Sensitive Stomach

**Formulated to improve gastrointestinal conditions, such as diarrhea and vomiting, by addressing the following key nutritional factors:**

- Low fat
- Low residue
- Added premium EPA/DHA
- Balanced for long-term feeding under veterinary supervision
- Made 100% with ingredients approved for human consumption

*"I am extremely happy with JustFoodForDogs line of Daily Diets and prescription recipes. As an internist practicing veterinary internal medicine in Los Angeles, I see a lot of patients with gastrointestinal disease. JustFoodForDogs offers an excellent and effective range of novel protein, preservative-free, limited-ingredient recipes that are highly palatable. Their products have been great for my patients and contribute to excellent outcomes."* **— Dr. Mickila Collins, DVM, DACVIM Internal Medicine**

## Diet Overview

Sensitive Stomach is 100% prepared with fresh whole ingredients approved for human consumption. This recipe can be used as a temporary GI recovery diet (i.e., post-op GI surgery) or as a long-term diet for sensitive GI tracts, addressing the following key nutritional factors:

- Highly digestible single protein source
- Limited ingredients
- Low fat
- Highly digestible single carbohydrate source

## Diet Indications

- Healthy dogs
- Post-op recovery
- Exocrine Pancreatic Insufficiency
- Pancreatitis
- Hyperlipidemia
- Acute and Chronic Diarrhea

## Contraindications

- Sensitivity to any of the ingredients
- Growing puppies

# Sensitive Stomach FRESH FROZEN

## Ingredients

- **Turkey** is a high-quality source of lean protein and contains selenium, niacin, iron, zinc, phosphorus, potassium and B vitamins.
- **White Rice** contains a higher iron content and provides a desirable balance of nutrients while remaining gentle on the digestive tract.
- **Brown Rice** is loaded with B vitamins and minerals, such as magnesium, and is an excellent source of dietary fiber.
- **Turkey Liver** contains a high concentration of vitamin B12 and vitamin A. It's also a rich source of highly absorbable heme iron and is high in folate, riboflavin, niacin and phosphorus.
- **Omega Marine Microalgae Oil** provides omega-3 fatty acids in highly biologically available forms of EPA and DHA to promote and maintain healthy skin and coat.
- **JustFoodForDogs Nutrient Blend** is formulated specifically to meet AAFCO standards. The blend is compounded from 100% human-grade nutraceuticals regulated by the FDA.

## Nutritional Adequacy Statement

JustFoodForDogs Sensitive Stomach is formulated to meet the nutritional levels established by the AAFCO dog food nutrient profiles for canine adult maintenance.

# Vet-Formulated Health Supplements

**Health supplements that are balanced to complement JustFoodForDogs diets and produced at the same high standards used for human consumption.**

- 10-in-1 Bite
- Calming
- Hip + Joint Care
- Omega Oil
- Probiotic Booster
- Skin & Allergy Aid

# 10-in-1 Bite HEALTH SUPPLEMENT CHEWS

## Supports Good Health

Net Content: 45 Soft Chews

- Contains mushrooms, omega-3, probiotics and natural antioxidants
- Promotes joint health
- Supports immune, skin, eye & heart health
- Promotes gut & liver health
- Maintains performance, muscle & cognitive function

## Supplement Overview

JustFoodForDogs 10-in-1 Bite supplement chews were developed to support a comprehensive wellness plan for your dog. With 15 active ingredients added at impactful levels, this single chew provides supplemental levels of vitality-focused actives like mushrooms, omega-3 fatty acids, probiotics, and antioxidants supported by key performers from our single-focus supplements like glucosamine, chondroitin, and prebiotic MOS.

## Supplement Indications

10-in-1 Bite chews may help adult dogs in the management of:

• Joints • Skin • Gut • Immune • Liver • Heart • Eyes • Muscles • Cognitive

## Cautions

- Do not administer to cats.
- Contains peanuts.
- If the animal's condition worsens or does not improve, stop product administration and consult a veterinarian.
- Safe use in pregnant animals or animals intended for breeding has not been proven.
- Administer during or after the animal has eaten to reduce incidence of gastrointestinal upset.
- Federal law prohibits the off-label use of this product in ruminants.
- An examination from a veterinarian is recommended prior to using this product.

## Product Facts

**Active ingredients per soft chew (5g):**

| | |
|---|---|
| Glucosamine Sulfate 2KCL (Vegetable) | 300 mg |
| Chondroitin Sulfate (Bovine Cartilage) | 200 mg |
| Eicosapentaenoic (EPA) & Docosahexaenoic Acid (DHA) (as Algae Oil) | 200 mg |
| Mushroom Blend (Reishi, Shiitake, Maitake) | 150 mg |
| Mannan-oligosaccharide (MOS) (from S. cerevisiae) | 50 mg |
| Vitamin C (as Ascorbic Acid) | 50 mg |
| Probiotic Blend (*Bacillus coagulans, Saccharomyces boulardii*) | 1 Billion CFUs |
| Magnesium (as Magnesium Glycinate) | 3 mg |
| Vitamin A (as Beta-Carotene) | 250 IU |
| Manganese (as Manganese Bisglycinate) | 75 mcg |
| Zinc (as Zinc Bisglycinate) | 50 mcg |
| Selenium Yeast | 50 mcg |
| Folic Acid | 40 mcg |
| Vitamin E (as D-Alpha Tocopherol) | 2 IU |
| Biotin | 3 mcg |

**Inactive ingredients:** Blueberry, Broccoli, Carrot, Coconut Oil, Cranberry, Date Paste, Fenugreek, Flaxseed, Flaxseed Oil, Honey, Peanut Flour, Sea Salt, Tapioca Starch, Vinegar, Water.

## Directions for use:

### Administer daily

When introducing new ingredients and live probiotics we recommend a slow introduction over the course of 3 to 5 days.

# Calming HEALTH SUPPLEMENT CHEWS

## Helps dogs manage stress & anxiety

Net Content: 45 Soft Chews

- Contains Passionflower, Valerian & Ginger Root, Magnesium and Melatonin
- Helps ease symptoms of anxiety and stress
- Promotes relaxation
- May help with occasional stressful events
- Helps reduce the effects of normal environmental stress

## Supplement Overview

JustFoodForDogs Calming supplement chews use a proven combination of botanical herbal remedies and melatonin to work very similarly to prescription medications but without the tendency to cause over-stimulation or other unwanted side effects. The plants in Calming, Valerian Root and Passionflower, work by enhancing and increasing the function of GABA receptors in the brain, allowing for a more natural calming effect. Melatonin, a hormone produced naturally by all mammals, has many potential functions. It notably supports the regulation of changes in their body and behavior, and optimal levels of anxiety and sleep patterns.

## Supplement Indications

Calming chews may help adult dogs cope with external stress and maintain contentment during:
• Separation • Travel • Tension caused by changes in your pet's daily routine.

## Cautions

- Do not administer to cats.
- Contains peanuts.
- If animal's condition worsens or does not improve, stop product administration and consult a veterinarian.
- Safe use in pregnant animals or animals intended for breeding has not been proven.
- Administer during or after the animal has eaten to reduce incidence of gastrointestinal upset.
- Federal law prohibits the off-label use of this product in ruminants.
- An examination from a veterinarian is recommended prior to using this product.

## Product Facts

**Active ingredients per soft chew (5g):**

| | |
|---|---|
| Passionflower (*Passiflora incarnata*) | 145mg |
| Valerian Root (*Valeriana officinalis*) | 145mg |
| Ginger Root (*Zingiber officinale*) | 50mg |
| Magnesium (as Magnesium Glycinate) | 4mg |
| Melatonin | 2mg |

**Inactive ingredients:** Blueberry, Broccoli, Carrot, Coconut Oil, Cranberry, Date Paste, Fenugreek, Flaxseed, Flaxseed Oil, Honey, Peanut Flour, Sea Salt, Tapioca Starch, Vinegar, Water.

## Directions for use:

### Administer daily

When introducing new ingredients we recommend a slow introduction over the course of 3 to 5 days.

# Hip + Joint Care HEALTH SUPPLEMENT CHEWS

## Promotes Joint Health

Net Content: 45 Soft Chews

- Contains Glucosamine, Chondroitin and Algae Oil
- Promotes joint health
- Supports an active lifestyle
- Helps maintain lubricated joints
- May help with occasional stiffness

## Supplement Overview

JustFoodForDogs Hip + Joint Care supplement chews were expertly crafted to provide a powerful blend of proven actives: Glucosamine Sulfate, Magnesium, Chondroitin Sulfate, and Algae Oil. Each ingredient is added to effectively work together to support a full range of preventative and rehabilitation programs.

Most of the reliable research on glucosamine has been conducted on glucosamine sulfate and not on glucosamine hydrochloride, a synthetic form commonly used in animal products. Glucosamine sulfate occurs in nature and is found in the fluid within joints (synovial fluid). Studies in dogs have demonstrated improvement in pain scores, significantly alleviated pain compared to placebo, and improved overall activity, as evidenced by owner questionnaires and ground force plates. Glucosamine sulfate has also been shown to have better bioavailability in dogs. For these reasons, the JustFoodForDogs Hip + Joint Care chew contains glucosamine sulfate. Chondroitin sulfate is also included as it provides added benefits and support for dogs with Osteoarthritis.

## Supplement Indications

Hip + Joint Care chews may help adult dogs:

- Support hips and joints during times of stress caused by increased activity
- Maintain joint mobility
- Support cartilage health and integrity
- Support daily joint care program

## Cautions

- Do not administer to cats.
- Contains peanuts.
- If animal's condition worsens or does not improve, stop product administration and consult a veterinarian.
- Safe use in pregnant animals or animals intended for breeding has not been proven.
- An examination from veterinarian is recommended prior to using this product.

# Omega Oil HEALTH SUPPLEMENT

## Promotes healthy skin, coat & joint health

Net Content: 8 oz or 16 oz Bottle

- Highly bioavailable source of omega-3 fatty acids (EPA + DHA)
- Sourced from sustainably farmed marine microalgae
- Natural anti-inflammatory
- Human grade

## Supplement Overview

Polyunsaturated omega-3 fatty acids eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA) have demonstrated anti-inflammatory properties that can support the needs of dogs and cats with a variety of conditions including Osteoarthritis, Dermatopathy, Chronic Kidney Disease, and Cardiovascular Disorders[1]. EPA + DHA originate from marine algae and are concentrated up the food chain into fish and other marine life. Sourcing the omega-3s directly from algae instead of as a byproduct of fish harvest allows us to supply a high-quality, concentrated, and sustainable plant-based form of EPA + DHA.

## Supplement Indications

Omega Oil may help with:

- General inflammation
- Skin and coat health
- Digestive health
- Joint health

## Cautions

Omega-3 fatty acids may interfere with normal blood-clotting mechanisms when prescribed at high doses, and should be discontinued at least three days before surgery.

## Product Facts

# Probiotic Booster HEALTH SUPPLEMENT CHEWS

## Helps support proper digestion & bowel health

Net Content: 45 Soft Chews

- Contains both prebiotics and 5-strain probiotics blend: 5 billion CFUs
- Supports digestive health
- Helps maintain proper gut flora
- Promotes healthy stool
- Supports a balanced, diverse microbiome

## Supplement Overview

JustFoodForDogs Probiotic Booster supplement chews are crafted with probiotics and prebiotics in a low-glycemic-index whole food soft chew to support overall health and wellness. As the first organ to receive and process the life-sustaining nutrients that influence everything from mood and immunity to digestion and stool quality, gut health is imperative. Prebiotic and probiotic supplements like ours can be an excellent addition to a wide variety of health programs because of their potential to increase bacterial diversity, promote rapid recovery from Dysbiosis, support optimal gut flora, and enhance programs designed to minimize pathologic intestinal permeability. This makes them a valuable tool for supporting overall gut health and wellness.

Our probiotic blend features lactic cultures, yeast cultures and bacterial spore formers supported by 2 types of prebiotics to ensure optimal support of the diverse microbiome.

## Supplement Indications

Probiotic Booster chews may help adult dogs with:

- Healthy intestinal balance
- Support a balanced, diverse microbiome
- Maintenance of proper gut flora and digestive health
- Healthy stools

## Cautions

- Do not administer to cats.
- Contains peanuts.
- If animal's condition worsens or does not improve, stop product administration and consult a veterinarian.
- Safe use in pregnant animals or animals intended for breeding has not been proven.
- An examination from a veterinarian is recommended prior to using this product.

# Skin & Allergy Aid HEALTH SUPPLEMENT CHEWS

## Supports skin, immune health & Seasonal Allergies Net Content: 45 Soft Chews

- Contains Algae Oil, 1 Billion CFU, Olive Leaf Extract, Astragalus Root and Vitamins C & E
- Supports immune system health
- Supports skin & coat health
- Helps support skin-related issues that come with Seasonal Allergies
- May help with tear staining

## Supplement Overview

JustFoodForDogs Skin & Allergy Aid supplement chews were expertly crafted to provide a powerful blend of actives: olive leaf extract, astragalus root, Saccharomyces boulardii, prebiotic yeast, and algae oil. Each ingredient is added to effectively work together to boost pet immunity and support pets with Seasonal Allergies.

Oleuropein is the principal phenolic compound found in olives and is found in highest concentrations in olive leaves, which are used to produce our Skin & Allergy Aid. Oleuropein is rapidly absorbed and distributed after ingestion. Numerous studies have demonstrated that oleuropein has many pharmacological properties, including antioxidant, anti-inflammatory, anti-cancer, antimicrobial, and antiviral effects. Oleuropein is further supported with Astragalus root, which has a strong history in supporting respiratory health and immunity. The phytogenic compounds are further supported with yeast-based probiotics and nutritional yeast prebiotic, mannan-oligosaccharide. Synbiotics have been known to support the gut, which contains 70% of the body's immune cells.

## Supplement Indications

Skin & Allergy Aid may help adult dogs with:

- Supporting a healthy immune system
- Alleviating skin conditions associated with underlying Seasonal Allergies
- Tear staining
- Seasonal Allergies

## Cautions

- Do not administer to cats.
- Contains peanuts.
- If animal's condition worsens or does not improve, stop product administration and consult a veterinarian.
- Safe use in pregnant animals or animals intended for breeding has not been proven.
- Administer during or after the animal has eaten to reduce incidence of gastrointestinal upset
- Federal law prohibits the off-label use of this product in ruminants.
- An examination from a veterinarian is recommended prior to using this product.
