Roque & Boot (2016) A New Tool for Assessing Mobile Device Proficiency in Older Adults: The Mobile Device Proficiency Questionnaire

PMCID: PMC9394541 <https://doi.org/10.1177/0733464816642582>

---

This questionnaire asks about your ability to perform a number of tasks with a mobile device. Please answer each question by selecting the response that is most appropriate. If you have not tried to perform a task or do not know what it is, please select "NEVER TRIED", regardless of whether or not you think you may be able to perform the task. Remember, you are rating your ability to perform each of these tasks specifically using a mobile device (tablet or smartphone).

---

1. I can navigate onscreen menus using the touchscreen.

- Never tried
