Trust in Medical Researchers 4-Item

If you were approached by someone at [record-dag-label] to participate in a study, how likely would you be to volunteer to participate in the next 3 months?

- ☐ Likely
- ☐ Somewhat Likely
- ☐ Not Likely
- ☐ Not Likely At All

* Doctors who do medical research care only about what is best for each patient.

- ☐ Likely
- ☐ Somewhat Likely
- ☐ Not Likely
- ☐ Not Likely At All

* Doctors tell their patients everything they need to know about being in a research study.

- ☐ Likely
- ☐ Somewhat Likely
- ☐ Not Likely
- ☐ Not Likely At All

* Medical researchers treat people like "guinea pigs."

- ☐ Likely
- ☐ Somewhat Likely
- ☐ Not Likely
- ☐ Not Likely At All

* I completely trust doctors who do medical research.

- ☐ Likely
- ☐ Somewhat Likely
- ☐ Not Likely
- ☐ Not Likely At All

Scoring: The scores from the 4 items are summed unweighted, and 4 is subtracted from the total. The total will range from 4-20, with the higher the score the greater the trust in medical researchers. Item # 3 is reverse-coded.

This protocol is from <https://test.phenxtoolkit.org/protocols/view/871102>.

* Items marked with an asterisk were programmed with incorrect response options. The correct response option set for each is a 5-level Likert scale, as follows:

Strongly Disagree
Disagree
Neutral
Agree
Strongly Agree

Response option sets will be corrected in our two upcoming trials.
