MONEY COMING IN

TOTAL	

INSTRUCTIONS

Each time you earn money, write down where it came from and how much it was.

At the end of the week or month, add it all together to get the total amount of money you earned.

REFLECTION

How many different places (sources of income) did your money come from?

Which source of income would you like to focus on next time?

Can you think of any other ways that you can earn money?

Ask three adults how they earn money and write it down here.
