# Short distances, high standards - Swiss milk for HOCHDORF products

The Swiss dairy industry meets high standards in terms of animal welfare, feeding, sustainability and social criteria.

Fresh cow's milk from Swiss farms or cheese factories

Manufacturing in Switzerland

Whole milk

Skimmed milk

other premium ingredients

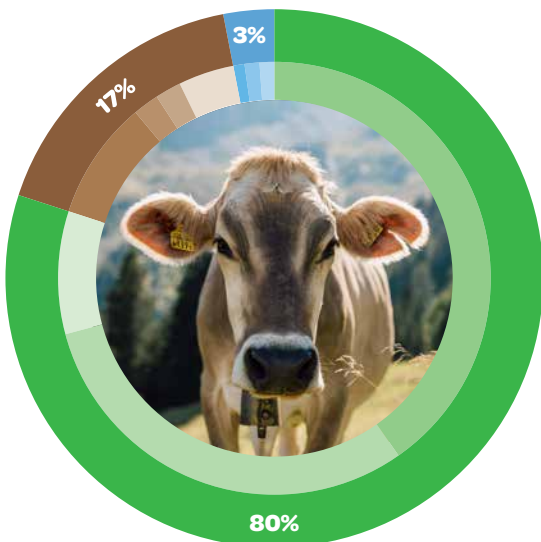

## Swissmilk green: THE standard for sustainable Swiss milk<sup>1</sup>

Since 2024, HOCHDORF only processes milk that meets the «Swissmilk green» standard for sustainable milk.

## Swiss grassland: the basis for good animal health

More than two thirds agricultural land is grassland, which is particularly suitable for dairy farming. Over 90% of the feed for Swiss cows comes from local production.

### Grasslands

- Natural meadows and pastures
- Summering areas
- Artificial meadows

### Open farmland

- Cereals
- Root crops (tubers and other root crops)
- Oilseeds
- Other arable crops

### Permanent crops

- Vineyards
- Orchards
- Other crops
