

## AI-POWERED TRACK & TRACE FOR PHARMA SUPPLY CHAIN

Replace your legacy systems with AltiusHub — a next-gen platform designed to enhance traceability, simplify regulatory compliance, and streamline supply chain operations.

### Serialization Management

Assign and manage unique serial numbers for improved product traceability and audit readiness.

### Track & Trace

Leverage workflows to streamline warehouse operations, handle exceptions, and accelerate recalls.

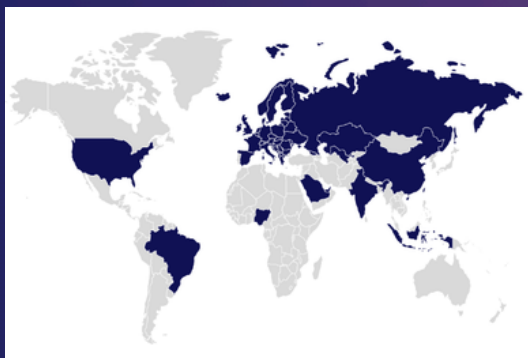

### Reports & Dashboards

Use dashboards and analytics to monitor operations, identify risks, and continuously improve processes.

### Compliance Reporting

Meet multi-market regulatory requirements effortlessly with automated, error-free reports.

## OUR CORE STRENGTHS

### ► AI-Driven Accuracy

Built-in AI validation engine for stringent data checks, easy exception handling, and error-free compliance reporting.

### ► Seamless Integrations

Connect effortlessly with Packaging Lines (L3), ERP, WMS, and other L4 systems without any middleware.

### ► Adaptive Workflows

Pre-built and custom workflows with triggers for automated, event-driven compliance reporting.

### ► Enterprise-Grade Security

Robust data integrity with layered InfoSec controls, audit trails, and 21 CFR Part 11 aligned frameworks.

# THE ALTIUSHUB ADVANTAGE

FEATURE	ALTIUSHUB	OTHER L4 SYSTEMS
Automated EPCIS Validation	✓	✗
Complete Data Ownership & Auditability	✓	✗
Modular Compliance for Emerging Markets	✓	✗
Real-time Exception Management Dashboards	✓	✗
Native AI for Operational Intelligence	✓	✗

## HEAR IT FROM OUR CLIENTS

We were dealing with fragmented track & trace systems across diverse packaging lines and partners. AltiusHub deployed their platform across 100+ lines and connected us to 80+ partners, all within 3 months. Their speed, precision, and adaptability set a new benchmark for pharma IT.
