Your journey to a brighter future starts here

“One of the best parts of my experience was making lasting international friendships while playing football with peers from Romania, Spain, and beyond. The excitement of those matches — yelling, shooting, and dribbling — was unforgettable and has stayed with me ever since. It wasn’t just about the academics; the chance to engage in dynamic activities like this made the entire journey feel extraordinary.”

Carlos

Careers Masterclass 2024 Student

Your Cambridge Summer

Immerse yourself in the Cambridge experience with a week that blends academic inspiration and cultural discovery. Live and study at Homerton College, University of Cambridge, and step into the rhythm of life inside a historic college environment.

Experience Cambridge-style teaching through interactive workshops, small-group discussions, and focused lectures designed to build confidence, sharpen thinking, and encourage independent ideas. Beyond the classroom, explore the city's iconic landmarks, enjoy punting on the River Cam, and take part in a full-day excursion to Oxford (day-trip to London is available as the add-on).

A dynamic week of learning, cultural enrichment, and exploration, your Cambridge experience in full.

Out-of-Class Activities

Experience Cambridge student life beyond the classroom and participate in:

- Campus Tour of Cambridge, including history of Cambridge and notable sights
- Field Trip to Oxford
- Visit to Wren Library
- Punting
- Groups Sports Competition
- Botanic Garden Visit
- Traditional Afternoon Tea in College
- Optional Add On: Excursion to London

Prepare for success with skills that matter

Sofia & Pablo

Careers Masterclass 2023 Student's Parents

"As parents, we wanted our kid to have an experience that would truly make a difference. This programme gave him the confidence, independence, and skills to thrive. He built lasting friendships, grew personally, and is now more prepared than ever for university and beyond. Watching him transform has been incredible, and we couldn't be more proud!"

Academic Team

Please note: Specific lecturers may vary. Courses are delivered by qualified professionals, including PhD holders and researchers, university lecturers, and industry experts, depending on availability and course structure.

Pietro Lio

Professor Pietro Liò is a Full Professor at the University of Cambridge, specialising in Computational Biology and a member of the Artificial Intelligence group. He holds an MA from Cambridge, a PhD in Complex Systems and Non-Linear Dynamics from the University of Firenze, and a PhD in Theoretical Genetics from the University of Pavia. His research focuses on using AI and machine learning to develop models that integrate multi-scale biological and clinical data to address personalised and precision medicine. He is particularly interested in Graph Neural Networks, AI-based medical digital twins, and decision support systems. He is a Fellow at Clare Hall College, a member of the Cambridge Centre for AI in Medicine, ELLIS, and the Academia Europaea. He also teaches Geometric Deep Learning and serves on several key committees, including the MPhil in Computational Biology programme.

Jessica Tayenjam

An experienced strategist, product leader, and user researcher, Jessica Tayenjam specialises in innovation, cultural transformation, and new product/service development for companies of all sizes. Jessica has worked with major brands such as HSBC, Boots, Visa, UNICEF, Dominos, British Gas and NatWest with projects across Europe, the Americas and Eastern Asia. She is also a startup advisor and has mentored a range of new ventures over the last 12 years. As a Fellow at the Cambridge Centre for Social Innovation, part of the Judge Business School, Jess is passionate about social inclusion and sustainable business. Her particular areas of interest are developing women and gender diverse individuals' leadership and inclusion in the corporate space.

Jonathan Andrews

Jonathan Andrews holds a Master's degree from the University of Cambridge. His academic background in the social sciences is complemented by further studies in Social Innovation and Entrepreneurship at Cambridge Judge Business School, allowing him to combine research depth with practical solutions for modern educational and business contexts. At Homerton College, University of Cambridge, Jonathan plays a key role in Professional Development Programmes (PDP). He designs and teaches courses on leadership and communication, helping participants build confidence, develop critical thinking, and refine their skills for effective collaboration in an international environment.

From Cambridge to your career dreams

Clara

Careers Masterclass 2024 Student

"I'm in the process of applying to university next year, and I know it's one of the toughest decisions of anyone's life. One of my favourite parts of the programme was the entrepreneurship class. As a very competitive person, I truly valued the environment that pushed me to grow and develop that part of myself. It really fuelled my ambition and helped me see things in a whole new way. This experience gave me the confidence and skills that I will highlight in my university application, making me feel more prepared and excited for the next step."

Be Inspired. Be Cambridge.

At BlueBridge Education, we believe in the power of education to spark curiosity, unlock potential, and foster personal growth. Our mission is to ignite a lifelong love of learning and equip students with the skills, confidence, and vision to thrive in a changing world. Our programmes go beyond the classroom, combining academic excellence with practical skill development in small groups led by top academics and industry experts.

Scott Annett

Dr. Scott Annett
Bye Fellow of Homerton College,
Associate Professor of English Literature
