# Be Inspired. Be Cambridge.

Step into the shoes of a Cambridge Student

# Why join Cambridge Leadership School?

Video:

Experience **Cambridge-style teaching** with world-class academics and professionals

Immerse yourself in **Cambridge life**, including formal dinners and cultural activities like punting

Gain a competitive edge with **certificates** from Cambridge University Technology & Enterprise Club

Develop **confidence and leadership skills** to lead and communicate effectively

Explore diverse **career pathways** and receive expert career advice

Build **practical skills** in leadership, teamwork, and networking for academic and professional success

Develop **critical thinking**, innovation, and presentation skills

Make **lasting connections** with peers from all over the world

# Your journey to a brighter future starts here

*“One of the best parts of my experience was making lasting international friendships while playing football with peers from Romania, Spain, and beyond. The excitement of those matches — yelling, shooting, and dribbling — was unforgettable and has stayed with me ever since. It wasn’t just about the academics; the chance to engage in dynamic activities like this made the entire journey feel extraordinary.”*

**Carlos**

Careers Masterclass 2024 Student

# Academic Programme

This immersive programme blends academic exploration with leadership, teamwork, and personal growth, while guiding you toward some of today's most relevant and high-impact career paths. You'll take part in classes and workshops exploring global challenges, innovation, and the future of work across a range of disciplines. These sessions introduce real-world perspectives on business, science, society, and technology offering valuable context for career exploration and personal development.

The learning approach is hands-on and dynamic – combining project work, interactive classes, and workshops with continuous development of soft skills, communication, and leadership.

## Personal Development & Public Speaking

Build real confidence by sharpening your communication and presentation skills. Through fast-paced group projects, presentations and practical challenges, you will develop the soft skills to become the kind of leader others want to follow.

## Explore Your Passion: Career Pathways

Whether you're drawn to Artificial Intelligence, Law, Economics, Medicine or Literature, this is your space to explore. Expert-led sessions open the door to today's most in-demand fields, helping you discover your direction or find a new one.

You will also explore how the UK university system connects to future study and career opportunities and what to keep in mind as you plan your next steps.

# Out-of-Class Activities

Experience Cambridge student life beyond the classroom and participate in:

- Excursion to London
- Campus Tour of Cambridge, including history of Cambridge and notable sights
- Field Trip to Oxford
- Visit to King's College Chapel / Wren Library
- Punting
- Groups Sports Competition
- Botanic Garden Visit
- Traditional Afternoon Tea in College
- Traditional Formal College Dinner
- A Variety of Daily Evening Activities

## Prepare for success with skills that matter

Sofia & Pablo

Careers Masterclass 2023 Student's Parents

*"As parents, we wanted our kid to have an experience that would truly make a difference. This programme gave him the confidence, independence, and skills to thrive. He built lasting friendships, grew personally, and is now more prepared than ever for university and beyond. Watching him transform has been incredible, and we couldn't be more proud!"*

# Academic Team

Please note: Specific lecturers may vary. Courses are delivered by qualified professionals, including PhD holders and researchers, university lecturers, and industry experts, depending on availability and course structure.

## Scott Annett

Dr Scott Annett is a Fellow of Robinson College and a Bye-Fellow of Homerton College, University of Cambridge. He is the Senior Tutor at Robinson College, where he oversees students' academic progress, mentoring, and admissions at both undergraduate and postgraduate levels.

As an Associate Professor of English, Dr Annett has extensive experience in teaching and academic leadership at Cambridge. He is a CELTA-qualified English language teacher and has recently completed a Postgraduate Certificate in Teaching and Learning in Higher Education.

At Homerton College, Dr Annett is the Education Director for the Homerton International Programme. In this role, he leads both international programmes for students and Professional Development Programmes (PDP) for executives and professionals, bringing together Cambridge's academic traditions with modern educational practice.

## Pietro Lio

Professor Pietro Liò is a Full Professor at the University of Cambridge, specialising in Computational Biology and a member of the Artificial Intelligence group. He holds an MA from Cambridge, a PhD in Complex Systems and Non-Linear Dynamics from the University of Firenze, and a PhD in Theoretical Genetics from the University of Pavia. His research focuses on using AI and machine learning to develop models that integrate multi-scale biological and clinical data to address personalised and precision medicine. He is particularly interested in Graph Neural Networks, AI-based medical digital twins, and decision support systems.

He is a Fellow at Clare Hall College, a member of the Cambridge Centre for AI in Medicine, ELLIS, and the Academia Europaea. He also teaches Geometric Deep Learning and serves on several key committees, including the MPhil in Computational Biology programme.

## Mark Anderson

Having had a successful career as an investment banker & trader, Mark Anderson has built a global reputation as a consultant and 'trouble-shooter' for businesses, particularly those with Anti-Money Laundering, Financial Crime & HR-related issues. Mark has worked with Governments and quasi-Governmental institutions worldwide as well as some of the world's leading financial institutions. His recent projects have included setting up HR divisions, working on offshoring projects and successfully training thousands of staff globally to spot and eradicate money laundering & financial crime.

## Alex Smeets

Dr. Alex Smeets is the founder of Cambridge Innovation Solutions and Cambridge Funding Solutions, offering consultancy services to entrepreneurs, small businesses, and universities. He is an Associate of Cambridge Enterprise, where he contributes to its International Outreach Programme, helping global institutions learn from the Cambridge Phenomenon.

Alex is also affiliated with St John's Innovation Centre, supporting early-stage knowledge-based businesses, and is a registered Growth Coach for the UK GrowthAccelerator service. With a PhD in Materials Science from the University of Cambridge, he has a background in R&D before transitioning to innovation, entrepreneurship, and knowledge commercialisation.

## Jonathan Andrews

Jonathan Andrews holds a Master's degree from the University of Cambridge. His academic background in the social sciences is complemented by further studies in Social Innovation and Entrepreneurship at Cambridge Judge Business School, allowing him to combine research depth with practical solutions for modern educational and business contexts.

At Homerton College, University of Cambridge, Jonathan plays a key role in Professional Development Programmes (PDP). He designs and teaches courses on leadership and communication, helping participants build confidence, develop critical thinking, and refine their skills for effective collaboration in an international environment.

## Jessica Tayenjam

An experienced strategist, product leader, and user researcher, Jessica Tayenjam specialises in innovation, cultural transformation, and new product/service development for companies of all sizes. Jessica has worked with major brands such as HSBC, Boots, Visa, UNICEF, Dominos, British Gas and NatWest with projects across Europe, the Americas and Eastern Asia. She is also a startup advisor and has mentored a range of new ventures over the last 12 years.

As a Fellow at the Cambridge Centre for Social Innovation, part of the Judge Business School, Jess is passionate about social inclusion and sustainable business. Her particular areas of interest are developing women and gender diverse individuals' leadership and inclusion in the corporate space.

# This Programme is Specifically designed for:

## Ambitious Teenagers Aged 14–15:

- Aspiring future leaders ready to explore exciting career paths in fields like Artificial Intelligence, Medicine, Law, Business, or Literature
- Students who are curious, driven, and eager to develop critical thinking, leadership, and communication skills
- Individuals seeking a competitive edge for university applications by showcasing exclusive certifications and participation in a Cambridge-based programme

## For Parents Looking to Invest in Their Child’s Future

- Parents who want to provide their children with meaningful educational experiences that promote both academic and personal growth
- Families looking for a programme that helps their child build confidence, enhance critical skills, and gain a broader global perspective
- Parents who value the opportunity for their child to gain insightful knowledge and a unique experience of Cambridge University, setting them up for success in their future academic and professional paths

## From Cambridge to your career dreams

### Clara

Careers Masterclass 2024 Student

“I’m in the process of applying to university next year, and I know it’s one of the toughest decisions of anyone’s life. One of my favourite parts of the programme was the entrepreneurship class. As a very competitive person, I truly valued the environment that pushed me to grow and develop that part of myself. It really fuelled my ambition and helped me see things in a whole new way. This experience gave me the confidence and skills that I will highlight in my university application, making me feel more prepared and excited for the next step.”

# Be Inspired. Be Cambridge.

At BlueBridge Education, we believe in the power of education to spark curiosity, unlock potential, and foster personal growth.

Our mission is to ignite a lifelong love of learning and equip students with the skills, confidence, and vision to thrive in a changing world.

Our programmes go beyond the classroom, combining academic excellence with practical skill development in small groups led by top academics and industry experts.
