LAW & HUMANITIES

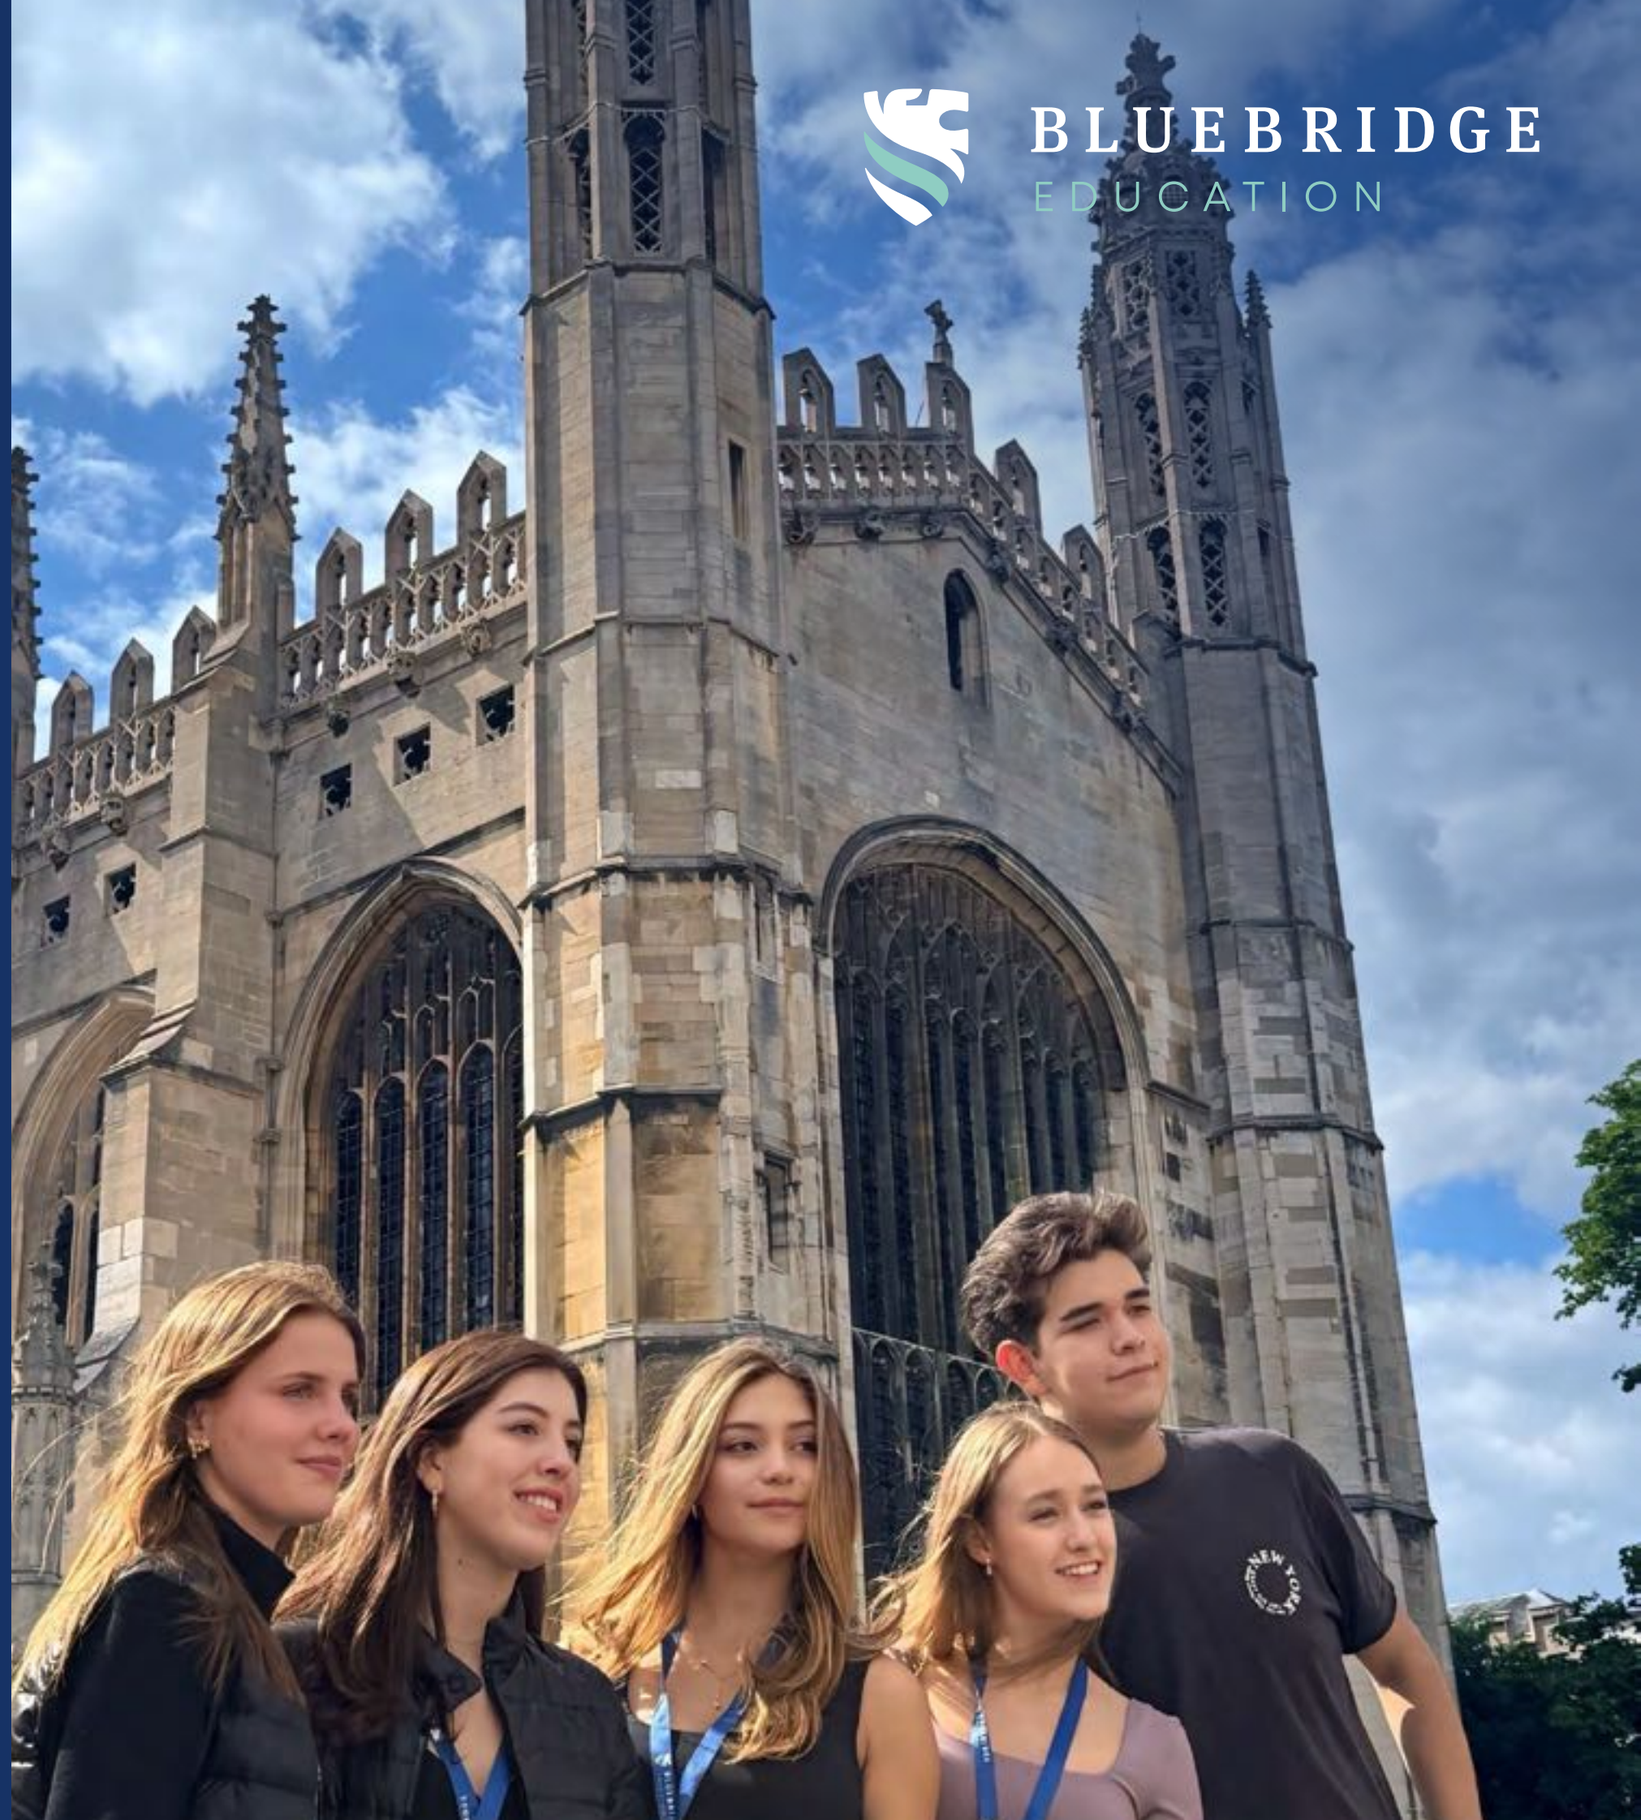

for High School Students 16-18 y.o.

| 4 - 17 JUL, 2027 |

LAW & HUMANITIES

HOMERTON COLLEGE
UNIVERSITY OF CAMBRIDGE

BLUEBRIDGE
EDUCATION

LAW & HUMANITIES

HOMERTON COLLEGE
UNIVERSITY OF CAMBRIDGE

Discover how law shapes societies, influences decisions and addresses global challenges.

The Law & Humanities pathway explores legal principles, justice, ethics and the relationship between law and society. Through interdisciplinary learning, students examine how legal systems interact with social values, economic interests and global developments, connecting Law, Humanities and Business.

The pathway develops critical thinking, argumentation and communication skills, encouraging students to consider different perspectives and prepare for university studies.

Your Academic Focus

Law, Justice & Society

Explore the role of law in society, the principles of justice and how legal systems influence everyday life.

Ethics & Critical Thinking

Examine complex questions, consider different perspectives and develop reasoned judgements.

International Law & Global Challenges

Discover how legal principles connect with international relations, global issues and cooperation between countries.

Debate, Argumentation & Negotiation

Develop the ability to evaluate evidence, construct persuasive arguments and communicate ideas confidently.

Law, Governance & Society

Explore how legal frameworks, regulation and ethical responsibilities influence organisations and business decisions.

A college setting. A fresh perspective.

Homerton College, University of Cambridge

Your two weeks, in perspective.

An introduction to legal thinking, with opportunities to challenge perspectives, build arguments and explore your academic interests.

01 **Global Leadership**

Develop communication, teamwork, critical thinking and leadership skills through interdisciplinary learning, collaborative activities and practical projects. Explore leadership in the context of law, ethics, business and global challenges.

02 **Research Skills for Academic Study**

Build essential academic research, analysis and presentation skills while working towards the NOCN Level 3 Award in Research Skills for Academic Study, worth 8 UCAS Tariff points.

03 **Law & Humanities Academic Pathway**

Explore legal and humanities-related themes through Cambridge-style academic sessions, discussions and interactive learning. Consider questions of justice, ethics, governance and society, while drawing connections with business and entrepreneurship to understand how legal principles operate in real-world contexts.

Certificate of Completion

From Homerton College, University of Cambridge, recognising successful completion.

8 UCAS Tariff Points

Via a recognised Level 3 qualification in Research Skills.

What Will You Gain?

- A deeper understanding of law, justice and their connections with business and society
- Stronger critical thinking, analytical reasoning and argumentation skills
- Greater confidence in exploring Law and Humanities at university

HOMERTON COLLEGE
UNIVERSITY OF CAMBRIDGE

LEARN FROM LEADING MINDS

Please note: Specific lecturers may vary. Courses are delivered by qualified professionals, including PhD holders and researchers, university lecturers, and industry experts, depending on availability and course structure.

Dr Scott Annett

Dr Scott Annett is a Fellow of Robinson College and a Bye-Fellow of Homerton College, University of Cambridge. He is the Senior Tutor at Robinson College, where he oversees students' academic progress, mentoring, and admissions at both undergraduate and postgraduate levels.

As an Associate Professor of English, Dr Annett has extensive experience in teaching and academic leadership at Cambridge. He is a CELTA-qualified English language teacher and has recently completed a Postgraduate Certificate in Teaching and Learning in Higher Education. At Homerton College, Dr Annett is the Education Director for the Homerton International Programme. In this role, he leads both international programmes for students and Professional Development Programmes (PDP) for executives and professionals, bringing together Cambridge's academic traditions with modern educational practice.

Mark Andersen

Mark Andersen is a globally recognised consultant and executive coach with 25+ years in financial services, compliance, and organisational leadership. A former investment banker and trading director, Mark has trained and coached professionals across 60+ countries, from C-suite to emerging talent. His work spans Anti-Money Laundering, Financial Crime Compliance, HR transformation, and global offshoring projects. He has served as Global Head of Learning and Development for major Russian investment banks, Middle Eastern Sovereign Wealth Funds, and international sporting organisations.

His consulting credentials include advising governments on financial crime prevention and HR governance. Mark is equally comfortable coaching Board members and designing induction programmes, reflecting his ability to translate strategy into actionable capability at all levels. Mark often teaches on Professional Development Programmes at Homerton College, University of Cambridge.

Dr Alex Smeets

Dr. Alex Smeets is the founder of Cambridge Innovation Solutions and Cambridge Funding Solutions, offering consultancy services to entrepreneurs, small businesses, and universities.

He is an Associate of Cambridge Enterprise, where he contributes to its International Outreach Programme, helping global institutions learn from the Cambridge Phenomenon.

Alex is also affiliated with St John's Innovation Centre, supporting early-stage knowledge-based businesses, and is a registered Growth Coach for the UK GrowthAccelerator service. With a PhD in Materials Science from the University of Cambridge, he has a background in R&D before transitioning to innovation, entrepreneurship, and knowledge commercialisation.

Prof. Pietro Lio

Professor Pietro Liò is a Full Professor at the University of Cambridge, specialising in Computational Biology and a member of the Artificial Intelligence group. He holds an MA from Cambridge, a PhD in Complex Systems and Non-Linear Dynamics from the University of Firenze, and a PhD in Theoretical Genetics from the University of Pavia.

His research focuses on using AI and machine learning to develop models that integrate multi-scale biological and clinical data to address personalised and precision medicine. He is particularly interested in Graph Neural Networks, AI-based medical digital twins, and decision support systems.

He is a Fellow at Clare Hall College, a member of the Cambridge Centre for AI in Medicine, ELLIS, and the Academia Europaea. He also teaches Geometric Deep Learning and serves on several key committees, including the MPhil in Computational Biology programme.

Dr Tom Crawford

Lecturer in Applied Mathematics, Robinson College, University of Cambridge | Fellow, St Edmund Hall, University of Oxford

Dr Tom Crawford is a mathematician, educator and award-winning science communicator, known for making mathematics engaging and accessible to audiences worldwide.

He teaches Applied Mathematics at Robinson College, University of Cambridge, and is a Fellow by Special Election at St Edmund Hall, University of Oxford, where he also serves as Public Engagement Lead in the Department for Continuing Education. Tom completed his PhD in Applied Mathematics at the University of Cambridge, specialising in fluid dynamics. He is the creator of Tom Rocks Maths, a popular educational platform with over 25 million YouTube views, and has appeared on the BBC, Numberphile and Channel 4's Countdown.
