Limerick Wind Farm Project Update October 2026

Community Sponsorship Round 3

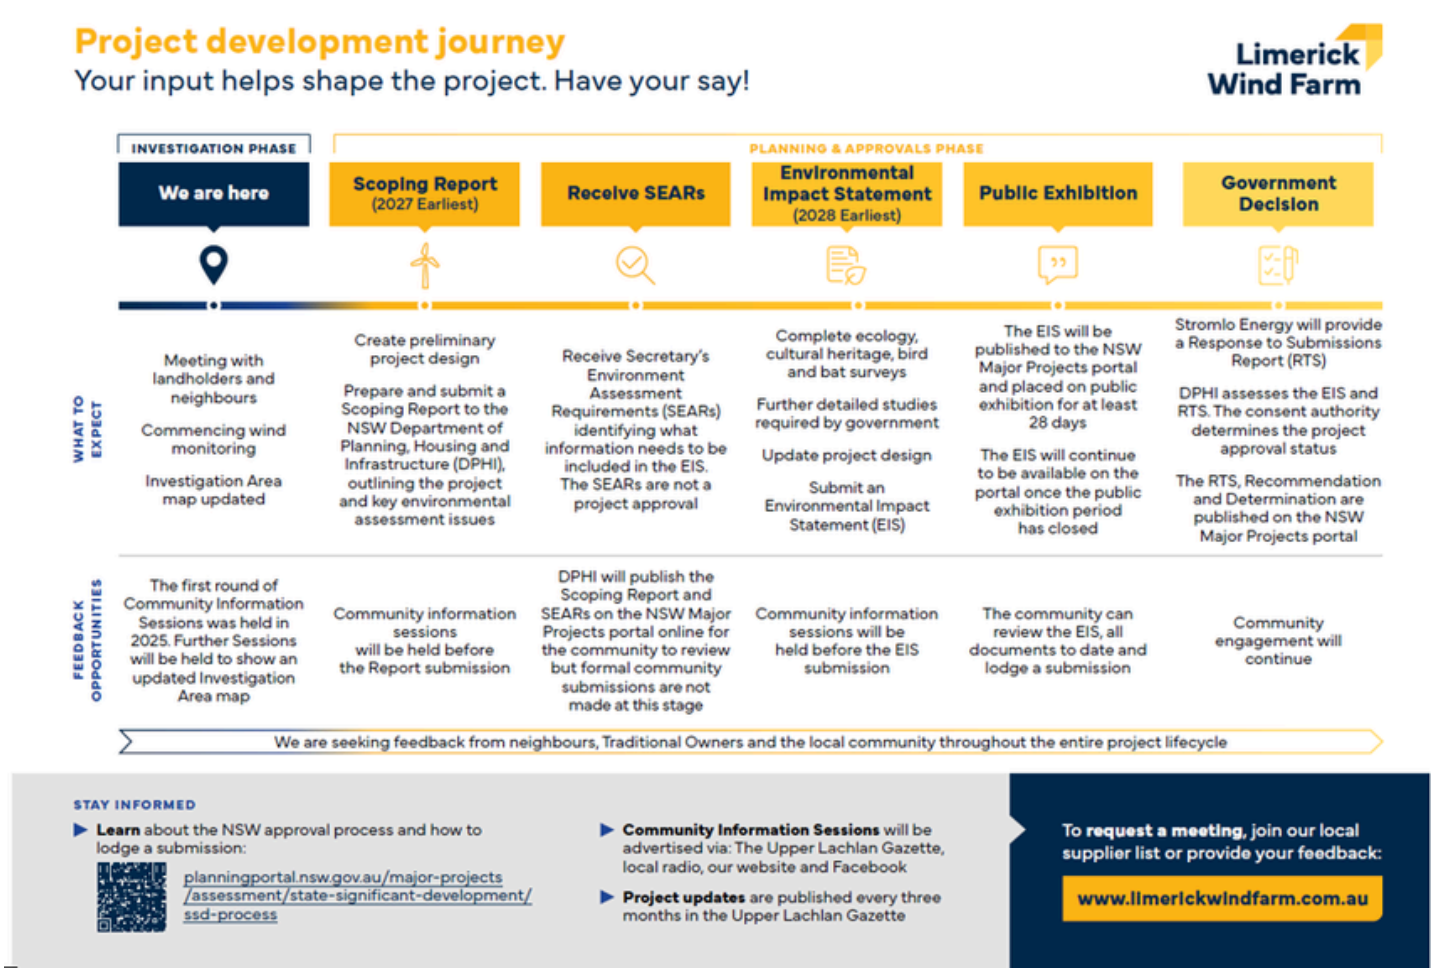

Stromlo Energy has again received an extraordinary response to the third round of early community sponsorship.

Stromlo Energy is delighted to announce the recipients of this round of sponsorship:
Lions Club of Crookwell, Rotary Club of Crookwell, Binda Recreation Reserve Land Managers, Binda Memorial Hall, Bigga Golf Club, Saddle Up for a Mate, Crookwell Meals on Wheels Service Inc, Crookwell Services Club Ltd, Binda Progress Association and Samaritan's Purse Operation Christmas Child.

Stromlo Energy truly appreciates the time and effort put into all applications and values the positive impact these many groups bring to the region. It is inspiring to see the strength of community spirit through local charities, sporting achievements, volunteering, and community events.

The next round of funding will close on 28 February 2027, and organisations are encouraged to apply for this round as well. Sponsorship guidelines and application forms are available on the project website.
As the project progresses through planning and into construction, the sponsorship amounts will also increase, allowing support for more community activities in the future.

Project Development Journey

Limerick Wind Farm Project Update October 2026

Stromlo would love to receive input from the community to contribute in shaping the overall design of the project.

Please email contact@limerickwindfarm.com.au if you would like to meet with the Stromlo team. You can also book a meeting on the project website.

The Stromlo team will continue meeting with site neighbours over the coming months.

Community benefits and jobs

To join the local supplier register or submit ideas for community benefits, please email Stromlo or head to the website.
