Explanatory notes on the certificate

Irina Schlottmann

born on 14 August 1991 in Berlin

Digital and Print Media Designer

The overall grade is based on the weighting specified in the vocational training regulations and given below:

Technical implementation of design	50 percent
Drawing up a concept and planning	15 percent
Media production	15 percent
Communication	10 percent
Economics and social studies	10 percent

The examination section on technical implementation of design involves proposing a solution and developing a work plan to create a subproduct for media production.

Students must demonstrate an ability to analyse tasks, develop and document a proposed solution, create a production-oriented work plan for a specific medium, prepare and process media data according to design requirements and develop subproducts for media production while taking into account quality and cost considerations.
