

SIM Canada | Pathway to Vibrant Missions

We serve the Canadian church through transformational mission partnerships

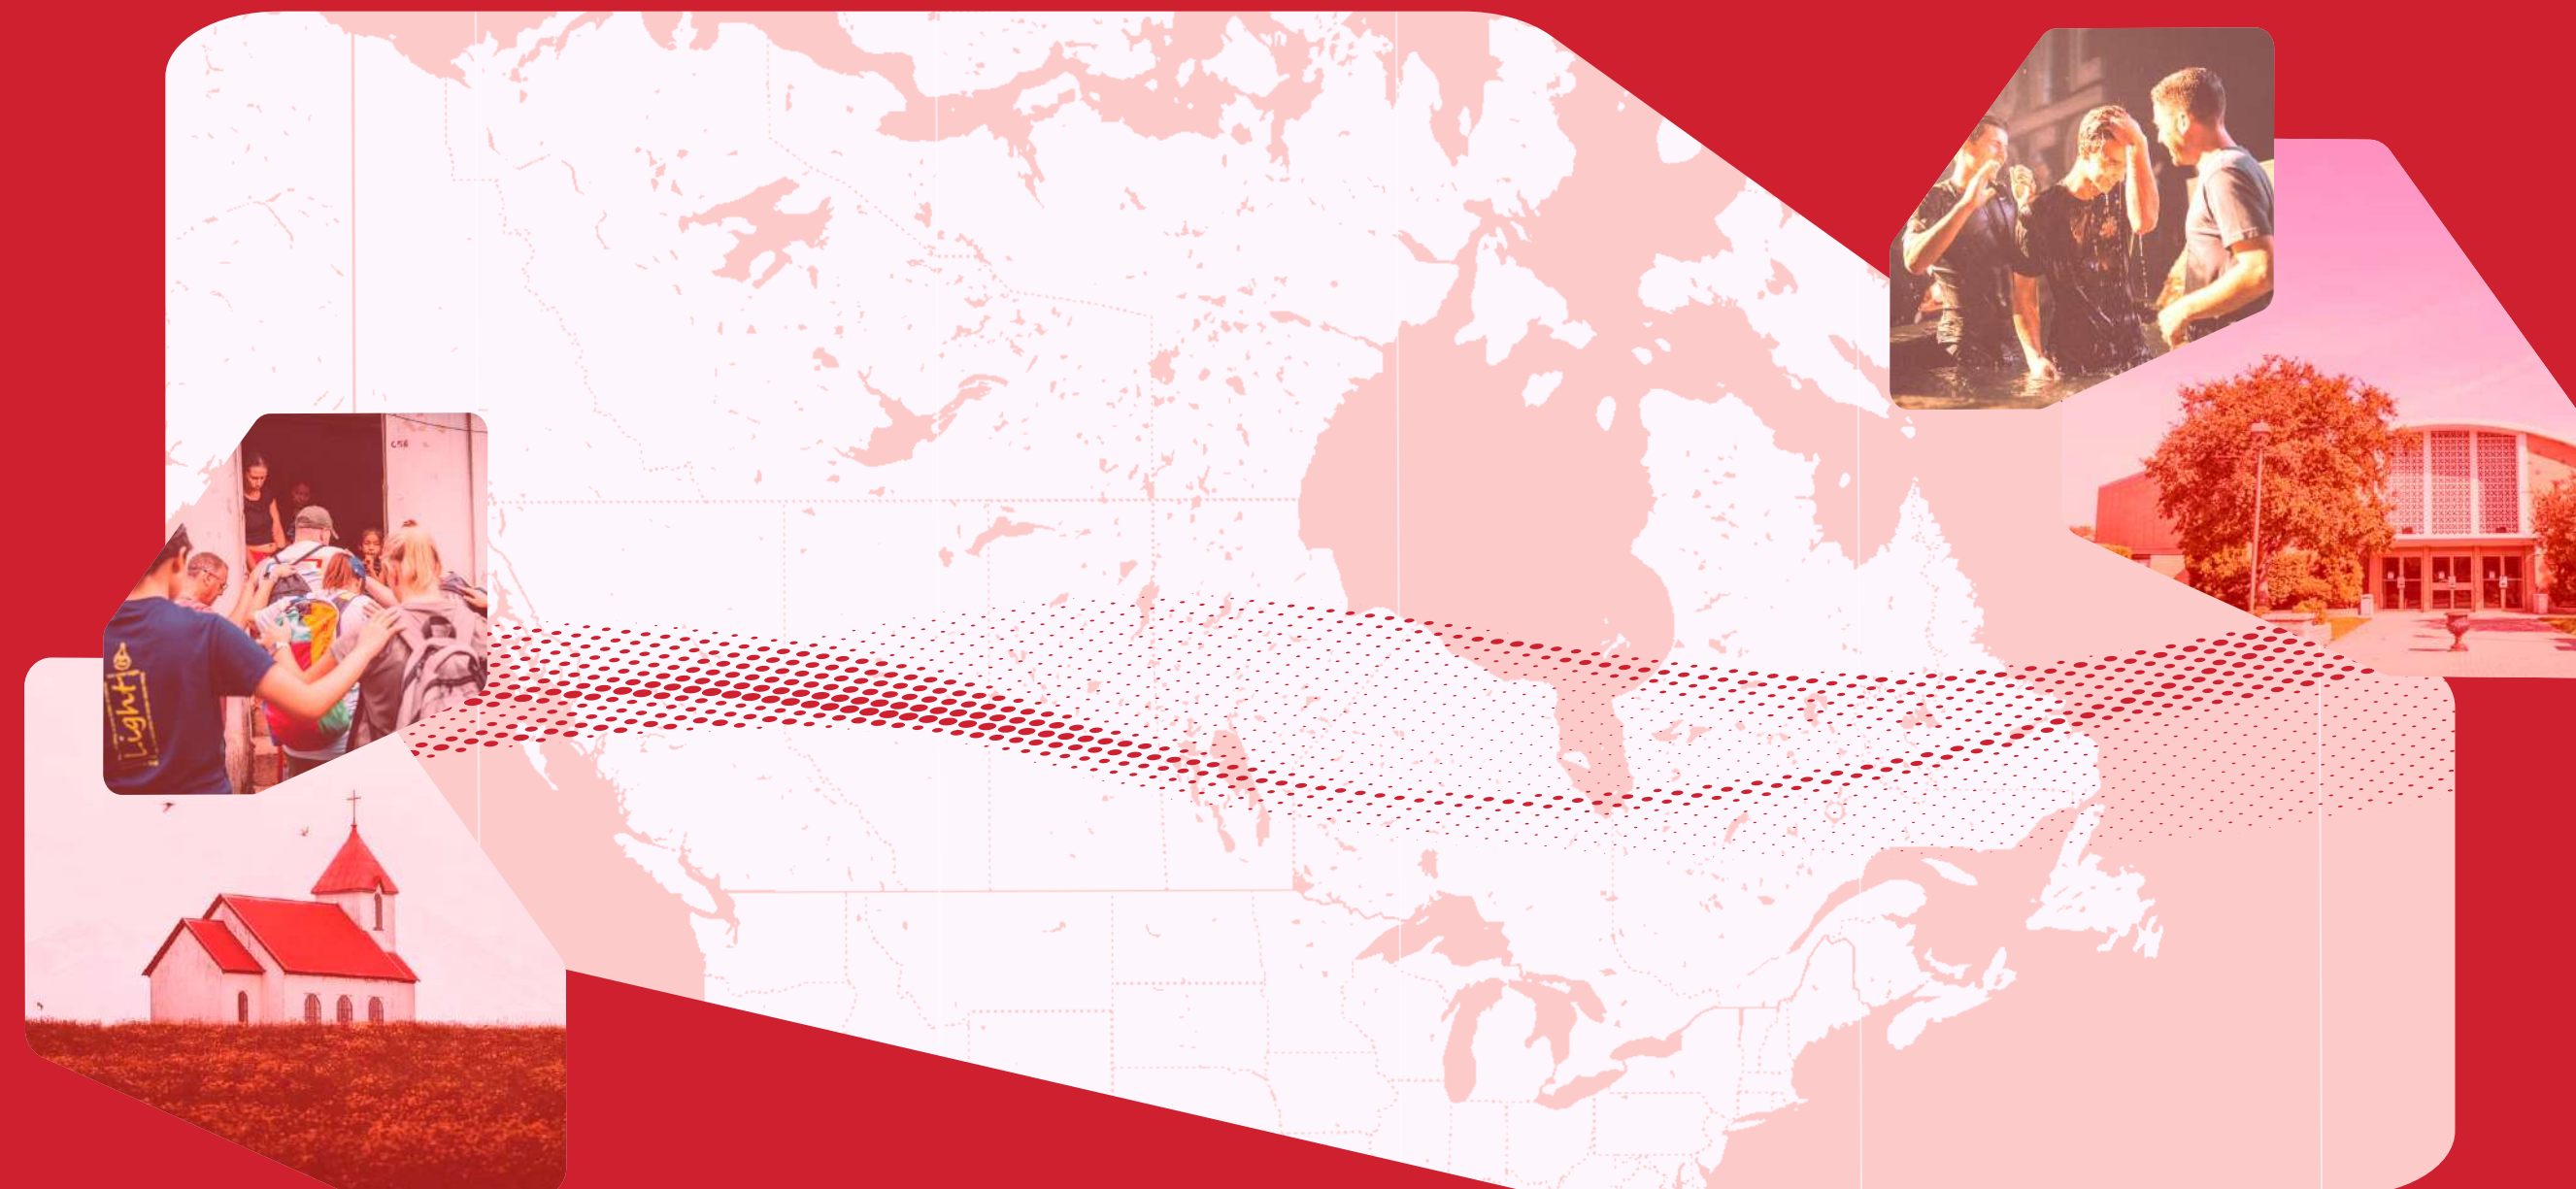

sim.ca/churches

A Movement of Churches Across Canada

Join the movement of a Canada-wide network of churches actively engaged in God's mission. Raising up and sending workers into meaningful local and global service, we help resource churches towards fulfilling their unique call to mission.

We help churches move from good intentions to real impact by connecting them with regional partners, sharing resources, building long-term relationships, and drawing on our long history of practical mission experience.

Why Churches Partner with SIM Canada

Kingdom Approach

Our sole focus is mission. We provide expertise that transcends boundaries, denominations, and competing time priorities. We walk alongside congregations, families, and individuals with strategic, prayerful, intentional approaches that offer a robust support system which focuses on Kingdom collaboration.

A Trellis of Support

We provide systems of support to realize your missional goals. Some of these supports include:

- A global network of established and fresh opportunities
- Robust prayer and financial systems that provide integrated support
- Comprehensive member care
- Health coverage and resources
- Thriving TCK (Third Culture Kids) program
- Encompassing administrative support and donation processing
- Belonging to a global family that understands the nuances of missional life

Abounding Opportunities

We host over 3,500 workers serving in over 70 countries. SIM Canada embraces a posture of creativity in mission. Many of our workers and projects have materialized by responding faithfully to God's call on their lives that align with their gifts, skills, and passions. Through creative ingenuity in response to God's unique calls, the abundant fruit and testimonials continue to write the stories of God's faithfulness.

Guiding Principals

Church-First Posture

We do not replace or compete with the church. We work alongside in collaboration and support to help fulfill churches' goals of meeting their calls to the Great Commission.

Transparency & Trust

Through clear communication, shared expectations, and mutual accountability, transparency and trust remain foundational to our identity and practice.

Canadian Church Context

We understand the diversity of the Canadian church—urban and rural, across denominations and cultures—and engage each context so your church's mission stays front and centre. We mobilize Canadians, support and work alongside Canadian churches, and operate within a distinctly Canadian context.

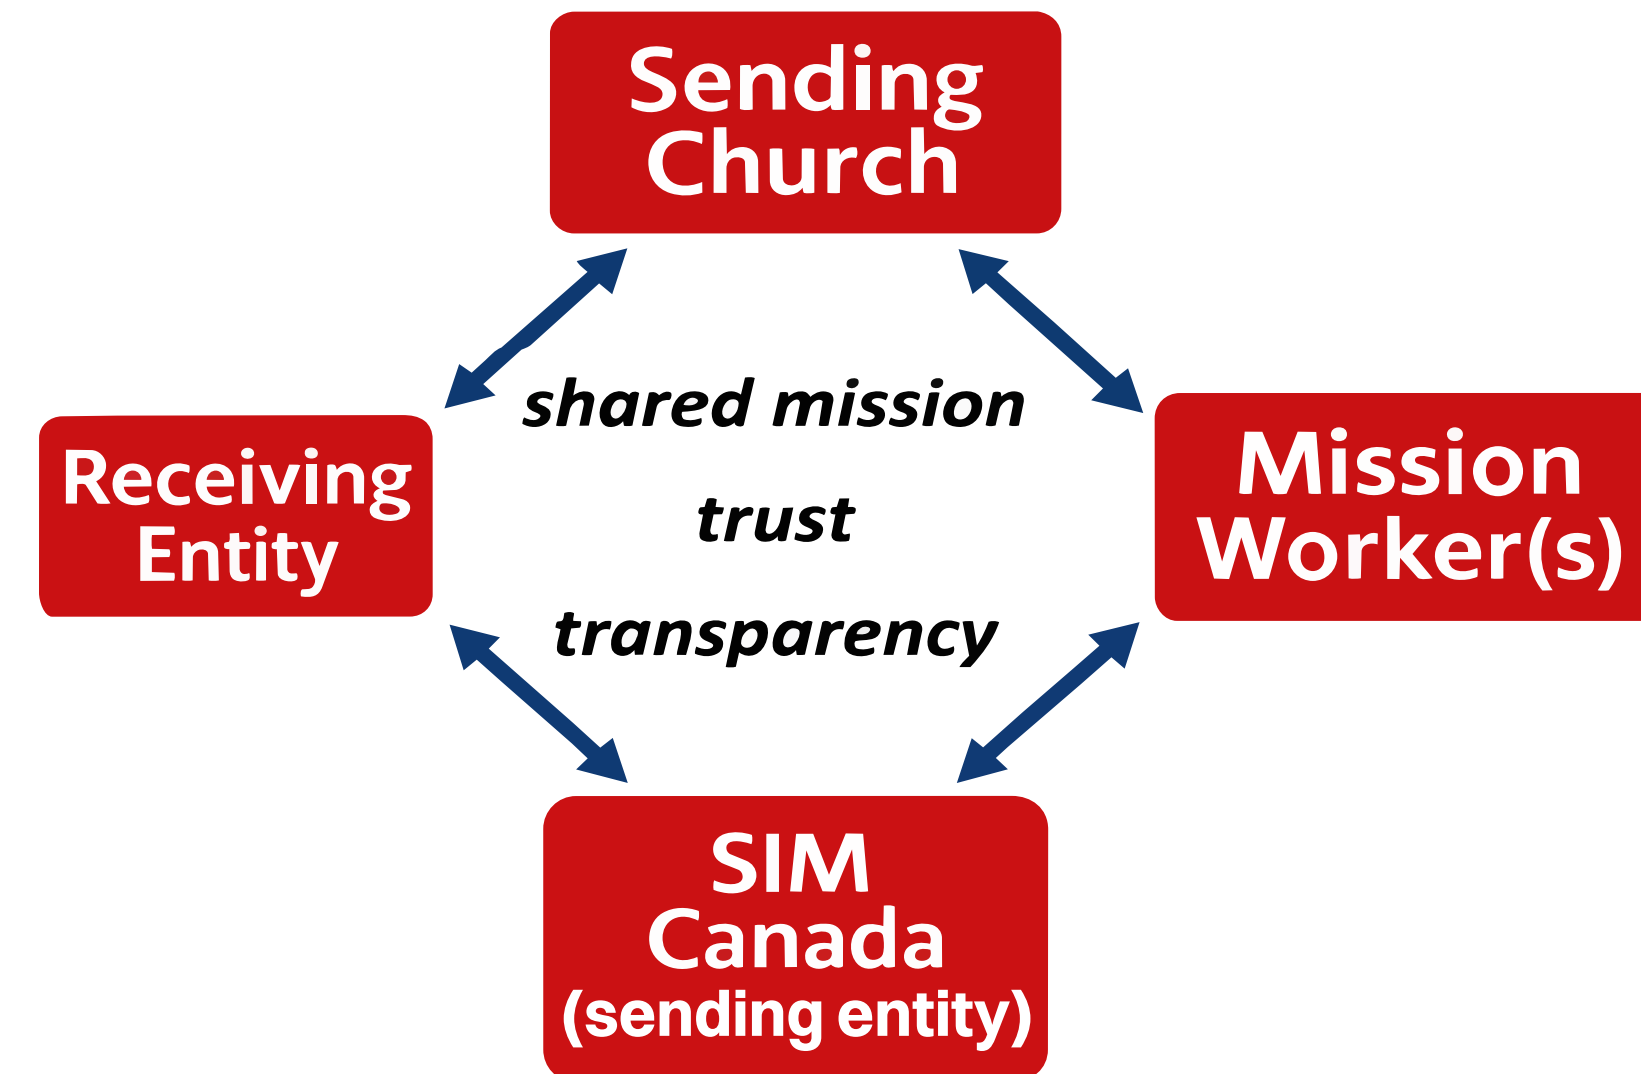

Established Circles of Transparency and Trust

Global and local mission can be nuanced, even messy. Having the proper support systems in place are crucial to faithfully carrying out your call to mission.

SIM entities work collaboratively with the worker(s) and the sending church, ensuring all supports are in place for ongoing success.

In this, we subscribe to a 4-Pillar collaboration. Just as a chair requires 4 legs for stability, SIM Canada is positioned with 4 legs of stability to provide a trellis to our partnering churches and workers.

Steps in the Process

Prayerful Discernment

Mission and vision grow from listening to God together. SIM Canada serves through the axiom **By Prayer**. This step ensures that mission is Spirit-led first, which then informs programs and logistics.

Defining Common Mission and Charting a Path Forward

Prior to partnering, we listen and ask questions, with solutions emerging through prayerful engagement. Together, we seek the alignment of your call to your context, identity, and existing strengths. Your unique pathway of integral mission is produced from these starting points.

Exploring Partnership Pathways

With over 130 years of global ministry experience, SIM Canada provides strategic insights as we partner with Canadian churches in living out the Great Commission. With impact, transformation, hope, and healing, together we serve where the Gospel is least reached. This critical step moves from vision to tangible options.

Equipping and Mobilizing Your Congregation

A mission-focused church doesn't just send and receive, it disciples. SIM Canada provides training, resources, coaching, and mobilization tools to help equip churches to prepare workers, educate congregations, and build healthy mission cultures. This includes (but limited to) missionary care practices, cross cultural training, and ongoing support for mission committees. Our goal is to strengthen the church's capacity to send well and support its missional vision as a faithful partner.

Commitment to Partnership and Ongoing Evaluation

We recognize that mission is a continuing journey, not a one-time decision. SIM Canada walks with churches and workers over time – celebrating fruit, addressing challenges, and helping refine strategy as needs evolve. Consistent evaluation ensures the partnership remains aligned with God's leading and the church's objectives.

Collaboration and Support

For more than a century, God has enabled and equipped SIM Canada to walk alongside churches as they discern unique pathways in bringing the hope and light of the gospel to the world.

We offer experience, care, and practical tools that strengthen and amplify your mission efforts, not replace them. Through functional supports, strategic insights, and a long history of serving in places where the Gospel is rarely heard, we serve the Church to help the Church serve the world.

As a partnering entity, we value the unique calling of every church and work alongside you to help that calling flourish on every level. Your church's heart for the nations matters - we would be honoured to help nurture and grow it. Together, let's explore how partnership can strengthen your missional impact.
