VETERAN-OWNED SMALL BUSINESS

CORE COMPETENCIES

- **Security & perimeter fencing** — galvanized and plated-black security fence for federal-area, laboratory, utility and industrial sites; heights to 10' with barbed-wire outriggers.
- **Industrial chain link** — heavy-gauge commercial and industrial perimeters, including 6-, 9- and 11-gauge fabric, vinyl-coated systems and controlled-access enclosures.
- **Ornamental steel & aluminum** — plated-black picket and architectural systems for institutional and campus perimeters.
- **Automated gates & access control** — slide and swing gate systems, operators, and coordination with owner-furnished access control and badging.
- **Substation, utility & equipment yard enclosures** — perimeter fencing for utility, energy and equipment-yard applications.
- **Athletic & institutional fencing** — backstops to 24', field enclosures, campus perimeters.
- **Screening enclosures & custom fabrication** — dumpster and mechanical screening, custom security handrail, in-house welding.
- **Temporary construction fencing** — site perimeter and phased enclosures during active construction.
- **Farm, agricultural & land management fencing** — high-tensile, board, woven wire and gates.

Systems are installed to the specification issued with the project. Prior work has been delivered to federal-area, utility and institutional security specifications.

PAST PERFORMANCE

Tennessee Valley Authority	7'+3 galvanized security fence
TRISO-X Fuel Facility, Oak Ridge	Exterior perimeter and internal structural fencing systems
U.S. Department of Energy	Fencing on DOE-area facilities
Smith & Wesson	8' plated black industrial perimeter
Discovery Center	10' plated galvanized security fence
University of Tennessee — Neyland Stadium	Stadium fencing and gate work
UT Lindsey Nelson Stadium	Gate and fence installation
UTK Dining Hall	Temporary construction-site fencing
Lakeshore Park	24' athletic backstop
Lenoir City Utilities Board	Utility facility fencing
Stowers	Custom black security handrail

Contract references, dates and points of contact available on request.

HOW TO ENGAGE US

- 1 Send bid package — site plans, specifications, scope and schedule.
- 2 Site review and takeoff, typically within five business days.
- 3 Detailed proposal with submittals and product data.
- 4 Coordination, scheduling and badging with the GC or site.
- 5 Installation by in-house crews, then walkthrough and closeout.

Sectors served: Commercial & retail · Industrial & manufacturing · Municipal & government · Utility & energy · Education & athletics · Healthcare · Multifamily & HOA · Warehouse & logistics
Geographic coverage: Anderson, Roane, Knox, Loudon, Blount, Sevier, Monroe, McMinn, Rhea and Meigs counties, and greater East Tennessee.

DIFFERENTIATORS

- **50+ years, same family.** Founded 1973 and continuously operating in East Tennessee.
- **Unlimited Tennessee license.** No monetary ceiling on project size — few fence contractors in the region hold one.
- **Bondable to \$6M.** Surety in place through Merchants Bonding Co.
- **In-house crews.** Installation self-performed, not brokered to unknown subcontractors.
- **Controlled-access site experience.** Prior work at DOE-area, TVA and TRISO-X facilities — familiar with badging, escort and site security procedures.
- **Local to the Oak Ridge corridor.** 25 minutes from Oak Ridge, ETPP and Horizon Center. Crews on site same day.
- **In-house fabrication and welding** for custom gates, handrail and non-standard assemblies.
