Frequently Asked Questions (FAQs)

1) I can't see the books for the subjects that I'm currently enrolled in/studying.

The books listed in the booklist are the only subjects that currently use eBooks. This means that if your student has not selected any subjects that require an eBook, there will be no books available for you to purchase.

2) I can't access my Haese Snowflake account after purchasing.

Please allow one or two working days for the activation to be completed. Once this has been completed, you should be able to access the books automatically via ReadCloud.

Students do not need to log in to Haese Snowflake again through ReadCloud, as we have a full integration with Haese.

If students are still unable to access the books after 48 hours, please reach out to us at support@readcloud.com, and we'll be able to assist.

3) I would like to purchase physical books.

Unfortunately, we only supply digital books and do not sell or supply physical books. Please contact your local book supplier for assistance with purchasing physical books.

4) I have two children enrolled in King's InterHigh – can I purchase their books together in one cart?

You will need to make two separate purchases, as each purchase is linked to the individual student's email address. Each student will access their books using their own email address.

5) Do my resources, annotations, and curated content sync across all my devices?

Yes. ReadCloud syncs every two to three minutes. You can log in on up to six devices at the same time and access the same content across all your devices.
