NEWSLETTER

At Issara's Belmond, with each milestone achieved through dedication and precision, we are steadily progressing toward the completion of our prestigious villa project in Pedda Golconda. Set for handover by December 2025, our villas are being carefully crafted to offer luxurious, thoughtfully designed homes. We are excited to welcome future residents into a community that reflects our commitment to quality, comfort, and sophistication.

KEY MILESTONES

80% of the villa slabs are now complete, marking a significant milestone in the construction process at Issara Belmont. With this step, the foundational structure of most villas is now in place, enabling us to proceed with the next phases of construction.

60% of the brickwork is now complete, marking a key stage in the construction of the villas at Issara Belmont. This significant progress has solidified the structure and layout of the homes, with the brickwork helping to define both the exterior and interior spaces.

KEY MILESTONES

20% of the plastering is complete, marking the beginning of the interior finishing process at Issara Belmond. This phase is crucial in defining the smooth, refined surfaces of each villa, setting the stage for the final touches that will bring the interiors to life.

Work has begun on the entrance arch at Issara Belmond, marking the start of the finishing touches to the exterior. This key architectural feature will set the tone for the luxurious experience that awaits as you enter the community.

MAY DAY TRIBUTE

OUR BEST TEAM

This May Day, we pause to honour the hardworking individuals whose dedication has shaped the very foundation of Issara's Belmond. From the engineers who envisioned every detail to the labourers who brought those plans to life — your work has created more than just buildings. You've built a community we're proud to call home. Thank you for your strength, commitment, and craftsmanship.
