With steady progress and dedicated craftsmanship, we are on track to complete these luxurious villas by December 2025. Soon, this thriving community will be ready to welcome its residents into a world of comfort and sophistication.

Key Milestones Achieved

77 villas have successfully completed their ground floor slab work.

65 out of 87 villas have completed the first-floor slab.

Key Milestones Achieved

35 villas have progressed to the second-floor slab stage.

18 villas have completed all slab work, with brickwork and internal plastering in progress.

Key Milestones Achieved

Villa arch framework is shaping up beautifully.

Brickwork marking is being carried out to ensure precision.

Key Milestones Achieved

Internal plastering is actively progressing in the model villas.

The community compound wall & Rainwater drainage pipeline work is successfully finished.

Key Milestones Achieved

Sewage Treatment Plant (STP) work is ongoing to ensure sustainability.
