Product Manual

What's in the Box?

1. Balance Keyboard

C

Functions

- A. Media control functions
- B. Application functions
- C. Interface functions
- D. Fn keys*

E. Risers

*The Fn key toggles between function [1-12] and media modes. By default the media keys are active.

Start using the keyboard

Connect the Balance Keyboard to your computer with the USB-cable.

There are three different routes options for the cable to fit you setup properly.

Function mode

By default, the Balance Keyboard has function mode (F1–F12) turned off, with the media keys set as active. To activate function mode, press "Fn" **(1**).

Function mode turned on Hold "Fn" (1) + "Caps lock" (2), then press and release "D" (3).

Function mode turned off

Hold "Fn" (1) + "Caps lock" (2), then press and release "F" (4).

PC & Mac mode

Balance Keyboard is by default in PC mode. You can toggle between PC and Mac mode.

Mac mode

Hold "Fn" (1) + "Caps lock" (2), then press and release "M" (3)

PC mode

Hold "Fn" (1) + "Caps lock" (2), then press and release "W" (4)

Keyboard tilt

The adjustable legs and tilt functions make it easy to set the keyboard in three different positions: negative, neutral, and positive tilt. When you place the keyboard in negative tilt, your hands automatically angle to the optimal position for typing – it leaves your fingers more relaxed while typing

Positive tilt

Tested to comply with FCC and IC standards.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit
 different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IC Statement

This device complies with Industry Canada's licenceexempt RSSs. Operation is subject to the following two conditions:

- 1. This device may not cause interference; and
- This device must accept any interference, including interference that may cause undesired operation of the device.

The term "IC:" before the certification/registration number only signifies that the Industry Canada technical specifications were met. This product meets the applicable Industry Canada technical specifications.

Warranty

If there is a functional defect due to faulty manufacturing, we will replace the product. This warranty does not cover damage that results from misuse of the product.

Attention!

If you attempt to dismantle the product, you will invalidate your warranty.
