**VOLUNTARY ANNOUNCEMENT**  
**CORNERSTONE PARTNERS WITH RCR GREEN EV**  
**TO ADVANCE EV CHARGING IN NEW ZEALAND**

The board of directors (the “**Board**”) of Cornerstone Technologies Holdings Limited (“**Cornerstone**” or the “**Company**”) is thrilled to announce a collaboration with RCR Green EV in New Zealand. This collaboration marks a key milestone as both companies join forces to deploy innovative electric vehicle (EV) charging solutions across the country. The first charging stations under this partnership are expected to begin operations in the first half of 2025, marking an important step in supporting New Zealand’s shift toward a more sustainable transportation future.

As part of this initiative, Cornerstone and RCR Green EV will install DC fast chargers at strategically selected sites within New Zealand. This collaborative project will focus on collecting charging data and evaluating the potential of the local EV market.

Each site will be equipped with a 60kW DC fast charger, marking a significant step in gathering data that will demonstrate the growing demand for EV infrastructure in New Zealand. These installations are designed to contribute to the expansion of the country’s EV charging network and further support its sustainable transportation goals.

We are excited about this partnership and look forward to playing an integral role in the development of New Zealand’s EV ecosystem.

Shareholders and potential investors are advised to exercise caution when trading in the Company's securities and to monitor future announcements for updates regarding this collaboration.
