Buenos días el tiempo para terminar el trabajo de las botas sera de 2 meses a lo mucho tratando de terminar lo antes posible y en la garantía le doy 5 años en mi trabajo y como sugerencia cada vez que le den mantenimiento a cada una de la bota apliquen cera para su mejor protección de polvo y los rayos del sol.

Gracias por haberme tomado en cuenta me siento contento al unirme a su equipo de trabajo y cuenten con mi disposición en proyectos futuros.

Good morning, the completion time for the boots will be two months at the most, trying to finish as quickly as possible. I'm giving you a five-year warranty on my work. As a suggestion, every time you service each boot, apply wax to better protect it from dust and sunlight.

Thank you for considering me. I'm happy to join your team. I'm happy to be available for future projects.

Hi Valeria,

I just wanted to ask if there is an update to the type of paint being identified on the quote and how long your warranty would be on the workmanship for the boot repairs?

Sincerely,  
Ms. Mascorro

Hi Valeria,

We are referring to the boot bid guidelines under section 1 part B. Since each boot represents a university, their colors would need to be identified as Pantone, CMYK, RGB or HEX.

Is there a way to include the cost for additional damage on the quote and express that it would be \$55-110 additional cost per boot.

Sincerely,  
Ms. Mascorro

type of paint as in the brand? We use base coat and clear.

Mask for overspray because they need to mask to paint the different colors.

The price is per boot yes, as mentioned, depending on damage, if the boot has a little more damage on it, it will be up \$55-\$110 Extra.

Good Afternoon,

I reviewed some items on your quote for boot repairs and have the following questions:

Can the type of paint used be described on your quote?

What is a mask for overspray?

Is the \$851.50 the total cost per boot repair completed within the 3-4 days?

Sincerely,

Ms. Mascorro
