Tigua Facility Services Inc.

Tigua Facility is an SBA 8(a) certified small business specializing in comprehensive facility services, operations support, and mission-driven solutions for federal agencies and commercial clients. As a subsidiary of Tigua Inc., we leverage the financial strength, proven past performance, and industry expertise of our parent company while maintaining the agility and responsiveness of a small business.

With operations spanning over 15 states on the northern and southern US border and servicing more than 150 ports of entry, Tigua Facility services delivers tailored solutions in facility maintenance, logistics, and infrastructure support. Our expertise ensures optimized mission readiness, operational efficiency, and lifecycle asset management across DoD, federal, and commercial environments. Whether supporting critical infrastructure, streamlining logistics, or enhancing operational sustainability, Tigua Facility is committed to excellence in every mission.

8(a) Sole-Source & Set-Aside Advantage

Ability to receive direct 8(a) sole-source contracts up to \$100M (DoD) and \$25M (civilian) without J&A.

Technology-Infused Facilities Management

Utilizing IoT-enabled smart monitoring, AI-driven diagnostics, and digital twin technology for operational efficiency.

Big Company Resources Small Business Agility

Backed by Tigua Inc., we offer financial stability, scalability, and deep industry expertise.

Our Core Competencies

Design, Fabrication, & Maintenance for PRSS & Security-Related Systems

Custom engineering, prototyping, and fabrication of mission-specific protective and security solutions.

Facilities Maintenance & Operations

Full-spectrum support, including preventive & corrective maintenance, predictive analytics, and asset optimization.

Logistics

Strategic supply chain management, procurement, fleet coordination, and emergency response logistics for seamless operations.

Equipment Repair, Diagnostics & Fiber Optics

Providing advanced troubleshooting, predictive maintenance, and repair of electrical, mechanical, and specialized equipment to ensure reliability and optimal performance, while delivering high-performance installation, maintenance, and testing of fiber optic networks for secure and efficient data transmission.

Workforce Augmentation & Staffing

Skilled personnel deployment for DoD, federal agencies, and commercial facilities.

Certified Trades

Skilled expertise in licensed fields such as HVAC, welding, forklift, diesel, and Airframe and Powerplant Mechanic (A&P) ensuring compliance with safety and industry standards.

Contract Vehicles & Procurement Methods

8(a) Sole-Source & Competitive Set-Asides

Excellent Past Performance and CPAR's
